**A Dictionary of Architecture and Building** Russell Sturgis,1902 **A Companion to the Archaeology of the Roman Empire, 2 Volume Set** Barbara Burrell,2024-03-13 A one of a kind exploration of archaeological evidence from the Roman Empire between 44 BCE and 337 CE In *A Companion to the Archaeology of the Roman Empire* distinguished scholar and archaeologist Professor Barbara Burrell delivers an illuminating and wide ranging discussion of peoples institutions and their material remains across the Roman Empire Divided into two parts the book begins by focusing on the unifying factors institutions and processes that affected the entire empire This ends with a chapter by Professor Greg Woolf Ronald J Mellor

Professor of Ancient History at UCLA which summarizes and enlarges upon the themes and contributions of the volume. Meanwhile the second part brings out local patterns and peculiarities within the archaeological remains of the City of Rome as well as almost every province of its empire. Each chapter is written by a noted scholar whose career has focused on the subject. Chronological coverage for each chapter is formally 44 BCE to 337 CE but since material remains are not always so closely datable most chapters center on the first three centuries of the Common Era plus or minus 50 years. In addition the book is amply illustrated and includes new and little known finds from oft ignored provinces. Readers will also find a thorough introduction to the peoples and operations of the Roman Empire including not just how the center affected the periphery Romanization but how peripheral provinces operated on their own and among their neighbors. Comprehensive explorations of local patterns within individual provinces. Contributions from a diverse panel of leading scholars in the field. A unique form of organization that brings out systems across the empire such as transport across sea rivers and roads, monetary systems, pottery and foodways, the military construction and technology. Perfect for graduate and advanced undergraduate students of archaeology and the history of the Roman Empire. A Companion to the Archaeology of the Roman Empire will also earn a place in the libraries of professional archaeologists in other fields including Mayanists, medievalists and Far Eastern scholars seeking comparanda and bibliography on other imperial structures.
