## **Roman Mind At Work:**

**The Mind at Work** Mike Rose, 2005-07-26 Featuring a new preface for the 10th anniversary As did the national bestseller *Nickel and Dimed* Mike Rose's revelatory book demolishes the long held notion that people who work with their hands make up a less intelligent class He shows us waitresses making lightning fast calculations carpenters handling complex spatial mathematics and hairdressers plumbers and electricians with their aesthetic and diagnostic acumen Rose an educator who is himself the son of a waitress explores the intellectual repertory of everyday workers and the terrible social cost of undervaluing the work they do Deftly combining research interviews and personal history this is one of those rare books that has the capacity both to shape public policy and to illuminate general readers [The Roman Mind at Work](#) Paul Lachlan MacKendrick, 1980 *the roman mind at work* paul mackendrick, 1958 **Habits of the Mind** James W. Sire, 2022-04-05 Can the intellectual life be a legitimate Christian calling James Sire brings wit and wisdom to this question in his deeply personal exploration of how to think well for the glory of God and the sake of his kingdom showing how to cultivate intellectual virtues habits of the mind that will strengthen you in pursuit of your calling **The Earliest Romans** Ramsay MacMullen, 2011-08-19 An inviting exploration of Rome's founding centuries *World Of Rome* Michael Grant, 2011-07-14 An informative and accessible guide to the Roman world Grant is justly recognised as an expert and civilized guide to the ancient world THE ECONOMIST The Romans changed the Western world and theirs became the first golden age This is their empire of magnificence and corruption the republic the dictators and the slaves the civilization and the Pax Romana the brutality and the collapse [A Mind for what Matters](#) Frederick Fyvie Bruce, 1990 Anybody who has published more than forty books and nearly 2 000 articles and who has been called the greatest evangelical scholar of our time is a figure to be reckoned with Such is F F Bruce who towers like a giant over the field of contemporary biblical scholarship *Christianity and Political Philosophy* Frederick D. Wilhelmsen, 2017-07-12 Each chapter in *Christianity and Political Philosophy* addresses a philosophical problem generated by history Frederick D Wilhelmsen discusses the limits of natural law Cicero and the politics of the public orthodoxy the problem of political power and the forces of darkness Sir John Fortescue and the English tradition Donoso Cortes and the meaning of political power the natural law tradition and the American political experience Eric Voegelin and the Christian tradition and Jaffa the School of Strauss and the Christian tradition Wilhelmsen is convinced that mainstream philosophy's suppression of the Christian experience or its reduction of Christianity to myths deprives both Christianity and philosophy He argues that Christianity opened up an entirely new range of philosophical questions and speculation that today are part and parcel of the intellectual tradition of the West Wilhelmsen remains relevant because political philosophy in America today is following the historic cycle of political philosophy's importance as things get worse for the nation because it is internally riven by ideological and spiritual conflicts there is a greater need for the political philosopher to raise and explore profound questions and reassert forgotten truths about man

and society the soul and God and good and evil as well as the ground of political order This is the latest book in Transaction s esteemed Library of Conservative Thought series      **The Stoic Tradition from Antiquity to the Early Middle Ages** Marcia I. **Journeys of the Mind** Peter Brown, 2025-10-28 A beautifully written personal account of the discovery of late antiquity by one of the world's most influential and distinguished historians The end of the ancient world was long regarded by historians as a time of decadence decline and fall In his career long engagement with this era the widely acclaimed and pathbreaking historian Peter Brown has shown however that the neglected half millennium now known as late antiquity was in fact crucial to the development of modern Europe and the Middle East In Journeys of the Mind Brown recounts his life and work describing his efforts to recapture the spirit of an age As he and other scholars opened up the history of the classical world in its last centuries to the wider world of Eurasia and northern Africa they discovered previously overlooked areas of religious and cultural creativity as well as foundational institution building A respect for diversity and outreach to the non European world relatively recent concerns in other fields have been a matter of course for decades among the leading scholars of late antiquity Documenting both his own intellectual development and the emergence of a new and influential field of study Brown describes his childhood and education in Ireland his university and academic training in England and his extensive travels particularly in the eastern Mediterranean and the Middle East He discusses fruitful interactions with the work of scholars and colleagues that include the British anthropologist Mary Douglas and the French theorist Michel Foucault and offers fascinating snapshots of such far flung places as colonial Sudan midcentury Oxford and prerevolutionary Iran With Journeys of the Mind Brown offers an essential account of the grand endeavor to reimagine a decisive historical moment

**Readers and Reading Culture in the High Roman Empire** William A. Johnson, 2010-06-03 In Readers and Reading Culture in the High Roman Empire William Johnson examines the system and culture of reading among the elite in second century Rome The investigation proceeds in case study fashion using the principal surviving witnesses beginning with the communities of Pliny and Tacitus with a look at Pliny's teacher

Quintilian from the time of the emperor Trajan Johnson then moves on to explore elite reading during the era of the Antonines including the medical community around Galen the philological community around Gellius and Fronto with a look at the curious reading habits of Fronto's pupil Marcus Aurelius and the intellectual communities lampooned by the satirist Lucian Along the way evidence from the papyri is deployed to help to understand better and more concretely both the mechanics of reading and the social interactions that surrounded the ancient book The result is a rich cultural history of individual reading communities that differentiate themselves in interesting ways even while in aggregate showing a coherent reading culture with fascinating similarities and contrasts to the reading culture of today *A Mind at Sea* John Fry, 2013-11-25 A unique biography of a nineteenth century shipping magnate set during a forgotten era a time when Quebec was one of the world's great shipbuilding centres and tidal seaports
