## **Roman Provincial And Islamic Law The Origins Of The Islamic Patronate:**

*Roman, Provincial and Islamic Law* Patricia Crone, 2002-07-18 This book tests the hypothesis that Roman law was a formative influence on Islamic law      **The Origins of Islamic Jurisprudence** Harald Motzki, 2021-10-01 The current view among Western scholars of Islam concerning the early development of Islamic jurisprudence was shaped by Joseph Schacht's famous study on the subject published 50 years ago Since then new sources became available which make a critical review of his theories possible and desirable This volume uses one of these sources to reconstruct the development of jurisprudence at Mecca virtually unknown until now from the beginnings until the middle of the second Islamic century New methods of analysis are developed and tested in order to date the material contained in the earliest compilations of legal traditions more properly As a result the origins of Islamic jurisprudence can be dated much earlier than claimed by Schacht and his school

The Beginnings of Islamic Law Lena Salaymeh, 2016-11-14 The Beginnings of Islamic Law is a major and innovative contribution to our understanding of the historical unfolding of Islamic law Scrutinizing its historical contexts the book proposes that Islamic law is a continuous intermingling of innovation and tradition Salaymeh challenges the embedded assumptions in conventional Islamic legal historiography by developing a critical approach to the study of both Islamic and Jewish legal history Through case studies of the treatment of war prisoners circumcision and wife initiated divorce she examines how Muslim jurists incorporated and transformed Near Eastern legal traditions She also demonstrates how socio political and historical situations shaped the everyday practice of law legal education and the organization of the legal profession in the late antique and medieval eras Aimed at scholars and students interested in Islamic history Islamic law and the relationship between Jewish and Islamic legal traditions this book's interdisciplinary approach provides accessible explanations and translations of complex materials and ideas      **The Ashgate Research Companion to Islamic Law** Peri Bearman, 2016-03-16 This unparalleled Companion provides a comprehensive and authoritative guide to Islamic law to all with an interest in this increasingly relevant and developing field The volume presents classical Islamic law through a historiographical introduction to and analysis of Western scholarship while key debates about hot button issues in modern day circumstances are also addressed In twenty one chapters distinguished authors offer an overview of their particular specialty reflect on past and current thinking and point to directions for future research The Companion is divided into four parts The first offers an introduction to the history of Islamic law as well as a discussion of how Western scholarship and historiography have evolved over time The second part delves into the substance of Islamic law Legal rules for the areas of legal status family law socio economic justice penal law constitutional authority and the law of war are all discussed in this section Part three examines the adaptation of Islamic law in light of colonialism and the modern nation state as well as the subsequent re Islamization of national legal systems The final section presents contemporary debates on the role of Islamic law in areas such as finance the diaspora modern governance and medical ethics and the volume concludes by questioning

the role of Sharia law as a legal authority in the modern context By outlining the history of Islamic law through a linear study of research this collection is unique in its examination of past and present scholarship and the lessons we can draw from this for the future It introduces scholars and students to the challenges posed in the past to the magnitude of milestones that were achieved in the reinterpretation and revision of established ideas and ultimately to a thorough conceptual

understanding of Islamic law      **The Oxford Handbook of Islamic Law** Anver M. Emon, Rume Ahmed, 2018-10-25 This volume provides a comprehensive survey of the contemporary study of Islamic law and a critical analysis of its deficiencies Written by outstanding senior and emerging scholars in their fields it offers an innovative historiographical examination of the field of Islamic law and an ideal introduction to key personalities and concepts While capturing the state of contemporary Islamic legal studies by chronicling how far the field has come the Handbook also explains why certain debates recur and indicates fundamental gaps in our knowledge Each chapter presents bold new avenues for research and will help readers appreciate the contested nature of key concepts and topics in Islamic law This Handbook will be a major reference work for scholars and students of Islam and Islamic law for years to come      **The Formation of Islamic Law** Wael B.

Hallaq, 2016-12-05 The fourteen studies included in this volume have been chosen to serve several purposes simultaneously At a basic level they aim to provide a general if not wholly systematic coverage of the emergence and evolution of law during the first three and a half centuries of Islam On another level they reflect the different and at times widely divergent scholarly approaches to this subject matter These two levels combined will offer a useful account of the rise of Islamic law not only for students in this field but also for Islamicists who are not specialists in matters of law comparative legal historians and others At the same time however and as the Introduction to the work argues this collection of distinguished contributions illustrates both the achievements and the shortcomings of paradigmatic scholarship on the formative period of Islamic law      Method

and Theory in the Study of Islamic Origins Herbert Berg, 2003-08-01 This volume deals with the methodological and theoretical issues of the study of Islamic origins Each of the twelve articles examines a different aspect of Islamic origins early Islamic history including the life of the Prophet the Sunna and ad th tafs r and the Qur n and the rise of Islamic law Both sceptical or revisionist scholars and sanguine or traditionalist scholars examine and employ the various contemporary theories on the development of Islam in the first 3 centuries A H In so doing they seek to exemplify the sources and methodologies used to support these theories and to discuss their relative merits      *Islamic Law in Action* Kristen Stilt, 2012-01-12 A dynamic account of the practice of Islamic law this book focuses on the actions of a particular legal official the muhtasib whose vast jurisdiction included all public behavior In the cities of Cairo and neighboring Fustat during the Mamluk period 1250 1517 the men who held the position of muhtasib acted as regulators of markets and public spaces generally They traversed their jurisdictions carrying out the duty to command right and forbid wrong and were as much a part of the legal landscape as the better known figures of judge and mufti Taking directions from the rulers the sultan

foremost among them they were also guided by legal doctrine as formulated by the jurists combining these two sources of law in one face of authority The daily workings of the law are illuminated by the reports of the muhtasib in the vivid Mamluk era chronicles which often also captured the responses of the individuals who encountered the official The book is organized around actions taken by the muhtasib in the areas of Muslim devotional and pious practices crimes and offenses the management of Christians and Jews market regulation and consumer protection the specific markets for essential bread currency and taxes and public order The case studies presented show that while legal doctrine was clearly relevant to the muhtasib's actions the policy demands of the sultan were also quite significant and rules from both sources of authority intersected with social political economic and personal factors to create full and vibrant scenarios that reveal the practice of Islamic law

**The Anthropology of Islamic Law** Aria Nakissa, 2019-04-05 The Anthropology of Islamic Law shows how hermeneutic theory and practice theory can be brought together to analyze cultural legal and religious traditions These ideas are developed through an analysis of the Islamic legal tradition which examines both Islamic legal doctrine and religious education The book combines anthropology and Islamicist history using ethnography and in depth analysis of Arabic religious texts The book focuses on higher religious learning in contemporary Egypt examining its intellectual ethical and pedagogical dimensions Data is drawn from fieldwork inside al Azhar University Cairo University's Dar al Ulum and the network of traditional study circles associated with the al Azhar mosque Together these sites constitute the most important venue for the transmission of religious learning in the contemporary Muslim world The book gives special attention to contemporary Egypt and also provides a broader analysis relevant to Islamic legal doctrine and religious education throughout history

**Late Ottoman Origins of Modern Islamic Thought** Andrew Hammond, 2022-11-17 In this major contribution to Muslim intellectual history Andrew Hammond offers a vital reappraisal of the role of Late Ottoman Turkish scholars in shaping modern Islamic thought Focusing on a poet a sheikh and his deputy Hammond re-evaluates the lives and legacies of three key figures who chose exile in Egypt as radical secular forces seized power in republican Turkey Mehmed Akif Mustafa Sabri and Zahid Kevseri Examining a period when these scholars faced the dual challenge of non-conformist trends in Islam and Western science and philosophy Hammond argues that these men alongside Said Nursi who remained in Turkey were the last bearers of the Ottoman Islamic tradition Utilising both Arabic and Turkish sources he transcends disciplinary conventions that divide histories along ethnic

linguistic and national lines highlighting continuities across geographies and eras Through this lens Hammond is able to observe the long neglected but lasting impact that these Late Ottoman thinkers had upon Turkish and Arab Islamist ideology

*Forgiveness: An Interdisciplinary Dialogue*, 2020-05-06      *Islamic Imperial Law* Benjamin Jokisch, 2011-12-01 Die bisherige Forschung geht davon aus dass das islamische Recht von unabhängigen Juristen entwickelt wurde Dabei sind mitunter Einflüsse aus fremden Rechtssystemen eingebracht worden doch eine gezielte Rezeption galt stets als ausgeschlossen In einer Vergleichsanalyse die auf der Grundlage einer massiven Interaktion der Kulturen in jener Zeit basiert lässt sich nun nachweisen dass das erste monumentale Rechtswerk im Islam die *Zahir al-Riwaya* des *ayb n* strukturell und inhaltlich auf dem *Rh* ton beruht einer griechischen Version jenes Regelwerkes das später in Europa als *Corpus Iuris Civilis* Verbreitung fand Inspiriert durch die byzantinische Reichsrechtsidee kodifizierten muslimische Staatsjuristen in Bagdad das islamische Reichsrecht das aber angesichts der Opposition frommer *berlieferer* durch Traditionen legitimiert werden musste Nachdem sich das Reichsrecht in weiten Teilen des Kalifats etabliert hatte bewirkte der revolutionäre Triumph der Orthodoxie Mitte des 9. Jahrhunderts dessen *bergang* in ein Juristenrecht das nun in den Händen unabhängiger Gelehrter lag

Robinson, 2010-11-04 Volume One of The New Cambridge History of Islam which surveys the political and cultural history of Islam from its Late Antique origins until the eleventh century brings together contributions from leading scholars in the field The book is divided into four parts The first provides an overview of the physical and political geography of the Late Antique Middle East The second charts the rise of Islam and the emergence of the Islamic political order under the Umayyad and the Abbasid caliphs of the seventh eighth and ninth centuries followed by the dissolution of the empire in the tenth and eleventh Regionalism the overlapping histories of the empire's provinces is the focus of Part Three while Part Four provides a cutting edge discussion of the sources and controversies of early Islamic history including a survey of numismatics archaeology and material culture      **Narratives of Arab Secularism** Youssef M.

Choueiri, 2022-11-16 This book offers a new interpretation of the rich narratives of Arab secularism contending that secularism as a set of ideas and a social movement is destined to loom large on the political and legal horizon of most Arab states Youssef M Choueiri provides a study of three moments in the development of secularism in the Arab World the Machiavellian the Alfierian and the Gramscian It is within such a scope that secularism in its interaction with state building projects women's emancipation and religion is treated as an intellectual current and a discursive entity embedded in the political process of its diverse societies Through the chapters Choueiri demonstrates how secularism occupies a pivotal presence in the religious and political life of the Arab world exploring such interrelated configurations as indigenous contributions diverse reforms and the impact of Western states He concludes that secularism has become a moral prerequisite and a required vehicle in creating the necessary conditions for the success of democracy in the Middle East

Narratives of Arab Secularism tackles the complexity and contemporary ramifications of the subject in a way that no previous single study has been able to. It will be relevant to both students and academics dealing with topics related to the Middle East including religion, politics, anthropology and history. **Muslims** Andrew Rippin, Associate Professor of Religious Studies. Andrew Rippin, 2014-04-08. This concise and authoritative guide provides a complete survey of Islamic history and thought from its formative period to the present day. It examines the unique elements which have combined to form Islam in particular the Qur'an and the influence of Muhammad and traces the ways in which these sources have interacted historically to create Muslim theology and law as well as the alternative visions of Islam found in Shi'ism and Sufism. Combining core source materials with coverage of current scholarship and of recent events in the Islamic world, Andrew Rippin introduces this hugely diverse and widespread religion in a succinct, challenging and refreshing way. Using a distinctive critical approach which promotes engagement with key issues from fundamentalism and women's rights to problems of identity and modernity, it is ideal for students seeking to understand Muslims and their faith. The improved and expanded third edition now contains brand new sections on twenty first century developments from the Taliban to Jihad and Al Qaeda and includes updated references throughout.

Maqasid Al-shariah as Philosophy of Islamic Law Jasser Auda, 2008-01-01. In this path breaking study, Jasser Auda presents a systems approach to the philosophy and juridical theory of Islamic law based on its purposes, intents and higher objectives (maqasid). For Islamic rulings to fulfill their original purposes of justice, freedom, rights, common good and tolerance in today's context, Auda presents maqasid as the heart and the very philosophy of Islamic law. He also introduces a novel method for analysis and critique, one that utilizes relevant features from systems theory such as wholeness, multidimensionality, openness and especially purposefulness of systems. This book will benefit all those interested in the relationship between Islam and a wide variety of subjects such as philosophy of law, morality, human rights, interfaith commonality, civil society, integration, development, feminism, modernism, postmodernism, systems theory and culture.

Islamic Law, Tribal Customary Law and Waqf Aharon Layish, 2023-10-30. In this collected volume, Aharon Layish demonstrates that legal documents are an essential source for legal and social history. Since the late nineteenth century, Islamic law has undergone tremendous transformations, some of which have strongly affected the basic features of its nature. The changes include the transformation of Islamic law from a jurists' law to a statutory law, the abolishment of waqf, the Islamization of tribal customary law, the creation of Sudanese legal methodologies strongly inspired by the Salaf traditions or Western law, and the emergence of an Israeli version of Islamic law.
