The theories of its origin (1925)** Roth Clausning,1965 **Theory and History** Jairus Banaji,2010 The twelve essays in this book demonstrate the importance of bringing history back into historical materialism They combine the discussion of Marx s categories with historical work on a wide range of themes and periods the early middle ages Asiatic regimes agrarian capitalism etc *A History of Roman Literature (2 vols.)* M. von Albrecht,2019-09-16 Michael von Albrecht s A History of Roman Literature originally published in German can rightly be seen as the long awaited counterpart to Albin Lesky s Geschichte der Griechischen Literatur In what will probably be the last survey made by a single scholar the whole of Latin literature from Livius Andronicus up to Boethius comes to the fore Literature is taken here in its broad antique sense and therefore also includes e g rhetoric philosophy and history Special attention has been given to the influence of Latin literature on subsequent centuries down to our own days Extensive indices give access to this monument of learning The introductions in Von Albrecht s texts together with the large bibliographies
