**The History of the Roman Emperors** Robert Lynam,1850      **A Pocket Dictionary of Roman Emperors** Paul Roberts,2006 The Roman Empire was one of the greatest political powers of the ancient world encircling the entire Mediterranean Sea and lasting for nearly five centuries This illustrated dictionary traces the history of twenty seven of the empire s supreme rulers Meet Trajan who pushed the empire s frontiers to their greatest extent Hadrian who built his famous wall and the Pantheon Septimius Severus the African emperor who rebuilt Rome and the empire after ruinous wars and Constantine who reunited the empire and made Christianity the official religion Then read about the emperors who were mad bad and dangerous to know Nero who murdered his relatives and swept away much of Rome to build his Palace and Caligula and Domitian who were infamous for their cruelty and extreme behavior **BOOK JACKET**      *Roman Emperors* Mario Bartolini,2023-01-05 Roman Emperors is a concise chronological guide to the emperors who ruled the Roman Empire It covers the period from the establishment of the Empire by Augustus in 27 BCE to the abdication of Romulus Augustus in 476 CE an event that marks the official end of the existence of the Roman Empire as a political entity in Western Europe After a useful introduction to the late Republic and its transformation into the Empire each of the eighty five emperors customarily recognized as legitimate are presented in the order in which they reigned This includes both Eastern and Western emperors for those periods where the empire was divided and each one is illustrated A useful glossary of technical terms is also provided      *Emperors and Ancestors* Olivier Hekster,2015 Ancestry played a continuous role in the construction and portrayal of Roman emperorship in the first three centuries AD Emperors and Ancestors is the first systematic analysis of the different ways in which imperial lineage was represented in the various media through which images of emperors could be transmitted Looking beyond individual rulers Hekster evaluates evidence over an extended period of time and differentiates

between various types of sources such as inscriptions sculpture architecture literary text and particularly central coinage which forms the most convenient source material for a modern reconstruction of Roman representations over a prolonged period of time The volume explores how the different media in use sent out different messages The importance of local notions and traditions in the choice of local representations of imperial ancestry are emphasized revealing that there was no monopoly on image forming by the Roman centre and far less interaction between central and local imagery than is commonly held Imperial ancestry is defined through various parallel developments at Rome and in the provinces Some messages resonated outside the centre but only when they were made explicit and fitted local practice and the discourse of the medium The construction of imperial ancestry was constrained by the local expectations of how a ruler should present himself and standardization over time of the images and languages that could be employed in the media at imperial disposal Roman emperorship is therefore shown to be a constant process of construction within genres of communication representation and public symbolism
