Edward Gibbon

Roman History S Lxxi Lxxx 71 80:

The History of the Decline and Fall of the Roman Empire Edward Gibbon, 1996-08-01 Edward Gibbon's *Decline and Fall of the Roman Empire* compresses thirteen turbulent centuries into an epic narrative shot through with insight, irony and incisive character analysis. Sceptical about Christianity, sympathetic to the barbarian invaders and the Byzantine Empire, constantly aware of how political leaders often achieve the exact opposite of what they intend, Gibbon was both alert to the broad pattern of events and significant revealing details. For more than seventy years, Penguin has been the leading publisher of classic literature in the English speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

El cambio climático en la historia de la humanidad

Benjamin Lieberman & Elizabeth Gordon, 2021-10-20 Lejos de ser una circunstancia que afecte únicamente al mundo actual, los seres humanos de las sociedades pasadas han sufrido o se han beneficiado de los numerosos cambios climáticos que han acaecido en el pasado. El clima y sus variaciones son un factor fundamental que ha condicionado el devenir del mundo, la conformación de su pasado y su futuro. La estrecha relación entre el ser humano y el cambio climático es un aspecto imprescindible para comprender la aventura histórica desde las primeras culturas prehistóricas hasta el presente en todas las regiones del planeta, desde Europa a América pasando por China o el Próximo Oriente. Las variaciones climáticas han extinguido culturas y han alzado imperios, para luego dejarlos caer, pero también han abierto nuevos horizontes a la humanidad. Erigiéndose así en protagonistas de la Historia en ocasiones de una mayor relevancia que los grandes personajes que la siembran. Un magnífico trabajo de síntesis histórica y científica. Lieberman y Gordon muestran cómo fructíferos pueden ser los esfuerzos de colaboración entre científicos y humanistas. Frank Zelko, Universidad de Vermont, EE.UU. Este libro es una lectura obligada para cualquiera que busque un mayor conocimiento de la historia del clima y lo que nos puede enseñar. Michael E. Mann, Universidad Estatal de Pensilvania, EE.UU. Un libro para conocer el papel del clima en las migraciones, los conflictos, las culturas y las economías. Sam White, Universidad Estatal de Ohio, EE.UU.

The Oxford Francis Bacon XIX, 2024-12-14 This volume belongs to the new critical edition of the complete works of Francis Bacon, 1561-1626. The edition presents the works in broadly chronological order and in accordance with the principles of modern textual scholarship. This volume comprises the first critical edition since the nineteenth century of *New Atlantis*, Bacon's posthumously published semi-utopian fable of reformed knowledge. *New Atlantis* is set on an imaginary island whose central institution, Salomon's House, is a fictional embodiment of the kind of research institute Bacon dreamed of founding in order to pursue his vast project, the *Instauratio magna*, and one which generates works that both expand knowledge and benefit humankind. This edition

establishes an authoritative text based on fresh collation of multiple copies of the 1626 edition in close comparison with the 1628 edition Thorough bibliographical analysis of the 1626 copy text elucidates the book's passage through the printing house David Colclough's detailed Introduction sets New Atlantis in the contexts of Bacon's works and of contemporary models of information gathering and management including Iberian examples in the Old and New Worlds An extensive commentary examines Bacon's sources traces analogues across his works especially with *Sylva sylvarum* alongside which New Atlantis was originally printed provides context and background glosses obsolete or unusual terms and considers critical interpretations of the text **The Acts of the Apostles** Richard Belward Rackham,1904 **Proceedings - Dorset**
