Roman Trier and the Treveri Edith Mary Wightman,1970 **Gallia Belgica** Edith Mary Wightman,1985-01-01 *Rome* Greg Woolf,2021-06-19 Rome in the archaic age was a minor satellite between the Etruscan and Greek world This book traces the expansion of Roman influence first within Italy then around the Mediterranean world and finally at breakneck speed deep into Europe out to the Atlantic along the edge of the Sahara and down the Red Sea But there had been other empires that had expanded rapidly what made Rome remarkable was that it managed to sustain its position for so long Rome's Fall poses less of a mystery than its survival Understanding how this happens involves understanding the building blocks of imperial society slavery cities the economy and also the chaotic narrative of growth civil war stability near disaster and then a managed downsizing Rome An empire's story tells the story of Rome in chapters that alternate with examination of key features of Roman society This new edition is based on the very latest research including studies of climate change and ecology and deals at greater length than the first edition did with the later Roman empire and with the material culture of empire **The Gods of the Celts** Miranda Aldhouse Green,2011-09-30 The presence of gods was felt in every corner of the Celtic world and influenced all areas of life in Celtic society This fascinating book delves into these corners to examine all aspects of the gods ritual customs cult objects and sacred places of the ancient Celtic peoples Miranda Green introduces the Celts and the evidence that they left behind placing them in their geographical and chronological context and continues on to look at Celtic cults of the sun and sky animals and animism mother goddesses water gods and healers as well as examining the influence of religion on war death and fertility Embracing the whole of the Celtic world from Ireland to Australia and covering from 500 BC to AD 400 this is a rewarding overview of the evidence for Celtic religions beliefs and practices which uses modern scholarship to bring a mysterious and captivating part of European history to life *Rome in the Pyrenees* Simon Esmonde Cleary,2007-11-13 Drawing from the extensive excavation that he has carried out on the site for many years Simon Esmonde Cleary an acknowledged authority on this period and region presents the first full length book published in English on a Roman Gallic town Dacia Ioana A. Religion in Republican Italy Celia E. Schultz, Paul B. Harvey, 2006-12-14 This book explores how recent findings and research provide a richer understanding of religious activities in Republican Rome and contemporary central Italic societies including the Etruscans during the period of the Middle and Late Republic While much recent research has focused on the Romanization of areas outside Italy in later periods this volume investigates religious aspects of the Romanization of the Italian peninsula itself The essays strive to integrate literary evidence with archaeological and epigraphic material as they consider the nexus of religion and politics in early Italy the impact of Roman institutions and practices on Italic society the reciprocal impact of non Roman practices and institutions on Roman custom and the nature of Roman as opposed to Latin Italic or Etruscan religion in the period in question The resulting volume illuminates many facets of religious praxis in Republican Italy while at the same time complicating the categories we use to discuss it

Wax Tablets of the Mind Jocelyn Penny Small,1997 In this volume Jocelyn Small argues that literacy is a complex combination of various skills not just the ability to read and write the technology of writing the encoding and decoding of text symbols the interpretation of meaning the retrieval and display systems which organise how meaning is stored and memory *Wax Tablets of the Mind* explores the relationship between literacy orality and memory in classical antiquity not only from the point of view of antiquity but also from that of modern cognitive psychology Jocelyn Small examines the contemporary as well as the ancient debate about how the writing tools we possess interact and affect the product why they should do so and how the tasks required of memory change and develop with literacy s increasing output and evoking technologies *The Oxford Classical Dictionary* Simon Hornblower, Antony Spawforth, Esther Eidinow, 2012-03-29 The revised third edition of the *Oxford Classical Dictionary* is the ultimate reference on the classical world containing over 6 200 entries The 2003 revision includes minor corrections and updates and all Latin and Greek words in the text are now translated into English Culture and Religion in Merovingian Gaul, A.D. 481-751 Yitzhak Hen, 2023-09-29 Although often depicted as a barbaric and uncivilised society in the full pejorative meaning of these words Merovingian Gaul was clearly a Christian society and a direct continuation of the Roman civilisation in terms of social standards morals and culture Using insights provided by social history archaeology palaeography and anthropology this book studies the problem of Christianisation in early Medieval Gaul from a cultural point of view While exploiting a huge range of primary and secondary material Dr Hen does not confine himself to a functional analysis of various cultural and religious activities in Merovingian Gaul but goes on to assess the consequences and implications of such activities for the people themselves and for the subsequent developments in the Carolingian period **Barbarians and Romans** Justine Davis Randers-Pehrson, 2024-12-06 *Barbarians and Romans* 1983 examines the rise of the barbarian tribes and the consequent decline of the Roman Empire The author contends that the two sides were not bent on destroying each other and that after years of accommodation and alienation a new world would emerge that had its foundations not only in Rome but also in Germanic culture The book ranges across the Roman world and from the rulers to the ruled combining the study of monuments and artefacts with the literary evidence of the period *The Religious Worlds of the Laity in Late Antique Gaul* Lisa Kaaren Bailey, 2016-04-07 Christianity in the late antique world was not imposed but embraced and the laity were not passive members of their religion but had a central role in its creation This volume explores the role of the laity in Gaul bringing together the fields of history archaeology and theology First this book follows the ways in which clergy and monks tried to shape and manufacture lay religious experience They had themselves constructed the category of the laity which served as a negative counterpart to their self definition Lay religious experience was thus shaped in part by this need to create difference between categories The book then focuses on how the laity

experienced their religion how they interpreted it and how their decisions shaped the nature of the Church and of their faith This part of the study pays careful attention to the diversity of the laity in this period their religious environments ritual engagement behaviours knowledge and beliefs The first volume to examine laity in this period in Gaul a key region for thinking about the transition from Roman rule to post Roman society *The Religious Worlds of the Laity in Late Antique Gaul* fills an important gap in current literature *The Roman World 44 BC-AD 180* Martin Goodman, 2013-06-17 *The Roman World 44 BC AD 180* deals with the transformation of the Mediterranean regions northern Europe and the Near East by the military autocrats who ruled Rome during this period The book traces the impact of imperial politics on life in the city of Rome itself and in the rest of the empire arguing that despite long periods of apparent peace this was a society controlled as much by fear of state violence as by consent Martin Goodman examines the reliance of Roman emperors on a huge military establishment and the threat of force He analyses the extent to which the empire functioned as a single political economic and cultural unit and discusses region by region how much the various indigenous cultures and societies were affected by Roman rule The book has a long section devoted to the momentous religious changes in this period which witnessed the popularity and spread of a series of elective cults and the emergence of rabbinic Judaism and Christianity from the complex world of first century Judaea This book provides a critical assessment of the significance of Roman rule for inhabitants of the empire and introduces readers to many of the main issues currently faced by historians of the early empire This new edition incorporating the finds of recent scholarship includes a fuller narrative history expanded sections on the history of women and slaves and on cultural life in the city of Rome many new illustrations an updated section of bibliographical notes and other improvements designed to make the volume as useful as possible to students as well as the general reader **Burial and Memorial in Late Antiquity**, 2024-10-02 *Burial and Memorial* explores funerary and commemorative archaeology AD 284-650 across the late antique world This second volume includes papers exploring all aspects of funerary archaeology from scientific samples in graves to grave goods and tomb robbing and a bibliographic essay It brings into focus neglected regions not usually considered by funerary archaeologists in NW Europe such as the Levant where burial archaeology is rich in grave goods to Sicily and Sardinia where post mortem offerings and burial manipulations are well attested We also hear from excavations in Britain from Canterbury and London and see astonishing fruits from the application of science to graves recently excavated in Trier *The Celtic World* Miranda Green, 2012-12-06 *The Celtic World* is a detailed and comprehensive study of the Celts from the first evidence of them in the archaeological and historical record to the early post Roman period The strength of this volume lies in its breadth it looks at archaeology language literature towns warfare rural life art religion and myth trade and industry political organisations society and technology *The Celtic World* draws together material from all over pagan Celtic Europe and includes contributions from British European and American scholars Much of the material is new research which is previously unpublished The book addresses some important issues Who were the

ancient Celts Can we speak of them as the first Europeans In what form does the Celtic identity exist today and how does this relate to the ancient Celts For anyone interested in the Celts and for students and academics alike The Celtic World will be a valuable resource and a fascinating read
