Romance Of Risk Why Teenagers Do The Things They Do:

The Romance Of Risk Lynn Ponton,1997 Through 15 riveting case studies a leading figure in adolescent psychiatry offers a provocative new way of thinking about parenting teens These case studies vary from puzzling to horrifying but Dr Lynn Ponton points to risk as a unifying theme Dr Ponton suggests ways that parents can redirect this natural impulse into healthy and safe channels

The 7 Best Things Smart Teens Do John Friel,Linda D. Friel,2011-04-01 In therapists John and Linda Friel gave parents an easy to understand guide to overcome the seven worst mistakes even good parents make while raising children Now they ve written a book for teens based on the same formula it includes the seven worst things even smart and outwardly successful teens do and shows teens how they can change these behaviors and assure their success in life as they grow towards adulthood This book was written expressly for teenagers as a unique roadmap into adulthood It was designed to stimulate the brain as well as the heart because teenagers who listen to both can eventually negotiate adolescence successfully It will appeal to teenagers who like to think wonder question and challenge as well as to teenagers who feel that they haven t quite figured out this life thing The Friels show teens the seven things they need to do in order to overcome common roadblocks they face or will face These are Become competent don t expect to have self esteem without becoming competent Master your feelings don t let your feelings run the show Break the silence don t silently scream instead of making yourself known Get healthy power don t avoid learning about power Face the serious stuff don t hide the really important things you re experiencing Find an identity don t avoid the struggle to find yourself Learn to stake out the extremes don t live only in the extremes Written in clear straightforward language and including many interesting and colorful story interludes this book is an easy to use powerful tool for all teens

The Romance Of Risk Lynn E Ponton,2008-08-06 Dr Lynn Ponton has devoted her clinical practice to a particular community teenagers in trouble Whether these kids are struggling with peers experimenting with drugs stealing cars or having unprotected sex they have something in common they are all involved in unhealthy risk taking And their parents are scared How did my child get involved in this dangerous situation they ask And what can I do Their fears are justified today s teens have more opportunities for taking dangerous risks than ever before But in The Romance of Risk Dr Ponton refutes the traditional idea that risk taking is primarily an angry power struggle with parents so called teenage rebellion and re defines it as a potentially positive testing process whereby challenge and risk are the primary tools adolescents use to find out who they are and determine who they will become This new perspective is revealed in a series of mesmerizing tales about individual adolescents and their families Among others we meet Jill a 13 year old thrill seeking runaway Hannah a privileged daughter of suburbia who suffers from anorexia and Joe a high school senior with a serious drinking problem Through these stories we come to understand Dr Ponton s startling observation that teenagers must confront and experience challenge and risk along the path to self discovery For adolescents the powerful allure of the adult world is equaled only by the fear of failing to find a place in it

Parents can ease that transition into adulthood however by promoting healthy risk taking so that dangerous options will be avoided In *The Romance of Risk* parents will learn how they can begin to understand rather than fear adolescent risk taking and how to communicate with their children about it After all teenagers will always romanticize risk But with the support and guidance of parents and other adults odds are the risks they take will be the right ones **A New Theory of Teenagers**
