Le roman au XVIIe siècle Nathalie Grande, 2002 **Romans et romanciers du XVIIe siècle**, 1968 *Recueil de préfaces de romans du XVIIIe siècle* Christian Angelet, Jan Herman, Société française d'étude du XVIIIe siècle, 1999

If Furetiere 1619-1688 hadn't been friends with Racine and Boileau if he hadn't been famous for his Dictionary and for his battle with the Academie Francaise it is unlikely that we would still be speaking of the Roman bourgeois 1666 Its qualities are decidedly few One cannot even say in its favour that it bears witness to a period and a moment in our literary history So writes Antoine Adam in his magisterial history of 17th century French literature But whatever one might feel about the aesthetic value of the Roman bourgeois and following Adam it is usually classified as a precocious though failed example of narrative realism sadly out of step with the classicism of its time can we really say that it bears no witness to its period Craig Moyes shows on the contrary how within the disarticulated narrative of the Roman bourgeois Furetiere the titular abbot the sitting academician the secret lexicographer the experimental novelist was uniquely placed to explore a changing literary economy marked most spectacularly by the trial of Nicolas Fouquet 1661-1664 the decline of aristocratic largesse and the subsequent centralization of artistic patronage around the personal reign of Louis XIV and the new administration of Colbert

The Renaissance in the Nineteenth Century Victoria University (Toronto, Ont.). Centre for Reformation and Renaissance Studies, 2003 The nineteenth century witnessed rapid economic and social developments profound political and intellectual upheaval and startling innovations in art and literature As Europeans peered into an uncertain future they drew upon the Renaissance for meaning precedents and identity Many claimed to find inspiration or models in the Renaissance but as we move across the continent's borders and through the century's decades we find that the Renaissance was many different things to many different people This collection brings together the work of sixteen authors who examine the many Renaissances conceived by European novelists and poets artists and composers architects and city planners political theorists and politicians businessmen and advertisers The essays fall into three groups Aesthetic Recoveries of Strategic Past The Renaissance in Nineteenth Century Culture Wars and Material Culture and Manufactured Memories Livre, pouvoirs et société à Paris au XVIIe siècle (1598-1701). Tome 1 / Préface de Roger Chartier Henri-Jean Martin, 1999 Au XVIIe siècle Paris est le plus grand centre d'édition de l'Europe Interprétation globale d'un phénomène touchant la fois l'économie la politique et la vie intellectuelle et religieuse ce livre se veut une explication du mouvement du siècle et de l'esprit classique Il
