Customer Experience is the new buzzword of marketing While the various facets of Customer Experience It argues if it is a cost or an investment While the world is still waking up to Customer Experience some companies had built a formidable brand by ensuring a flawless Customer Experience Customer Experience is not an end in itself but a continuous journey The book aims to elaborate on this by various global examples **Customer Karma** Arjun Sen,2016-09-23 In Arjun Sen s most recent book Customer Karma Why stop at a one night stand when you can have a lifetime relationship with your customer he uncovers the blind spots of many well intentioned companies in the customer dating game Arjun draws upon his broad experience in marketing branding and customer relationships to offer impactful customer centered insights for business professionals of all levels Arjun successfully piques your curiosity and keeps you coming back for more with his first hand industry stories that demonstrate the power of genuinely connecting with clients This book has something in it for anyone who intends to attract and keep customers or someone who wants to build meaningful customer relationships Arjun playfully crosses the boundary of polite business correctness to reveal the biggest vulnerability of businesses not knowing on a personal level anything about customers they are pursuing or specifically what makes them tick He akin businesses to a dater and parallels the process of courting a date and should be a similar process to courting a customer He brings tremendous value in his explanations of how to connect with customers in a way that requires awareness and authenticity Arjun excels in his ability to shift his perspective and reframe situations so that the reader can see things as both the business and the customer His first hand experiences are relatable and applicable to seemingly every business Arjun cleverly examines plausible and real life business scenarios through the lens of karma which he defines as outcomes based on one s own efforts and actions The reader is left with a deeper understanding of what works to cultivate lifelong customer relationships using dating relationships as the litmus test for authenticity and sincerity Customer Karma is a must read for any business that wants to attract effectively serve and retain life long customers Good karma is cultivated by heart felt good action When companies genuinely invest in their customers they are rewarded with good karma of customer loyalty the abundant returns This formula works with every relationship and in every area of your life But knowing the formula is not good enough as Arjun emphasizes that Customer Karma is about action not words Businesses build good Customer Karma only when they actually put their customers first in all their actions Two Factor Theory of Customer Service DAVID L. ELWOOD,2013-12-18 In the Two Factor Theory of Customer Service author David L Elwood nudges the entire field of

customer service toward becoming a professional discipline Customer service is not a casual do it if you think of it aspect of business customer service is a real business product that stands beside the primary product of every business enterprise it is inescapable and it is inextricably tied to profits Elwood uses easy to follow ideas that open the door to fresh persuasive perceptions of the fundamental dimensions of customer service events accessible emotional temporal informational solutional aptitudinal and relational The essence of Elwoods message is that the more clearly and deeply one understands customer service events the more effective he or she will become at delivering customer service straight to the customer And as powerful empirical research findings have shown delivery of Superior Customer Service goes hand in hand with superior profits The Two Factor Theory of Customer Service will delight everyone looking for a systematic approach to understanding and classifying the seemingly unending differences found in published examples of Superior Customer Service and it will brighten the pathway for each provider seeking to increase profits Without question you ARE in the customer service business the only question is whether you are doing it well Want a quick read at the airport terminal thatll entertain more than transform Two Factor Theory of Customer Service isnt it Elwood skips the clichs while delivering a perfect balance of theory and immediate application that will change how you see your customers and more importantly how your customers will see you again and again and again Jay Martinson Ph D Chair Communications Department Olivet Nazarene University

Designing Future-Oriented Airline

Businesses Nawal K. Taneja, 2016-04-22 Designing Future Oriented Airline Businesses is the eighth Ashgate book by Nawal K Taneja to address the ongoing challenges and opportunities facing all generations of airlines Firstly it challenges and encourages airline managements to take a deeper dive into new ways of doing business Secondly it provides a framework for identifying and developing strategies and capabilities as well as executing them efficiently and effectively to change the focus from cost reduction to revenue enhancement and from competitive advantage to comparative advantage Based on the author's own extensive experience and ongoing work in the global airline industry as well as through a synthesis of leading business practices both inside and outside of the industry Designing Future Oriented Airline Businesses sets out to demystify numerous concepts being discussed within the airline industry and to facilitate managements to identify and articulate the boundaries of their business models It provides material from which managements can set about answering the key questions especially with respect to strategies capabilities and execution and pursue an effective redesign of their business As with the author's previous books the primary audience is senior level practitioners of differing generations of airlines worldwide as well as related businesses The material presented continues to be at a pragmatic level not an academic exercise to lead managements to ask themselves and their teams some critical thought provoking questions
