Britain and Danubian Europe in the Era of World War II, 1933-1941 Andras Becker, 2021-03-24 This book is a study of British official attitudes towards the Danubian countries Hungary Czechoslovakia Romania and Yugoslavia from Hitler's rise to power in 1933 to the year 1941 a period that marked serious but fruitless British political and economic efforts to unite this unruly part of Europe against Nazi ascendancy Set against an international backdrop of regional revanchist revisionist and irredentist tendencies particularly in Hungary and Bulgaria the book explores how these movements affected international relations in the region as they aimed to overturn the territorial order set down in Versailles following the Great War to restore the status quo of a more glorious national past Offering fresh insights into the British East Central and South East European relationship the book charts the shifts in British official policy towards Danubian Europe amidst competing regional nationalisms and the sudden and abrupt shifts in British global priorities during the early part of World War II

**The Balkans** Misha Glenny, 2012-09-25 This unique and lively history of Balkan geopolitics since the early nineteenth century gives readers the essential historical background to recent events in this war torn area No other book covers the entire region or offers such profound insights into the roots of Balkan violence or explains so vividly the origins of modern Serbia Croatia Bosnia Greece Bulgaria Romania and Albania Misha Glenny presents a lucid and fair minded account of each national group in the Balkans and its struggle for statehood The narrative is studded with sharply observed portraits of kings guerrillas bandits generals and politicians Glenny also explores the often catastrophic relationship between the Balkans and the Great Powers raising some disturbing questions about Western intervention

*Oil and the Great Powers* Anand Toprani, 2019-04-04 The history of oil is a chapter in the story of Europe's geopolitical decline in the twentieth century During the era of the two world wars a lack of oil constrained Britain and Germany from exerting their considerable economic and military power independently Both nations efforts to restore the independence they had enjoyed during the Age of Coal backfired by inducing strategic over extension which served only to hasten their demise as great powers Having fought World War I with oil imported from the United States Britain was determined to avoid relying upon another great power for its energy needs ever again Even before the Great War had ended Whitehall implemented a strategy of developing alternative sources of oil under British control Britain's key supplier would be the Middle East already a region of vital importance to the British Empire whose oil potential was still unproven As it turned out there was plenty of oil in the Middle East but Italian hostility after 1935 threatened transit through the Mediterranean A shortage of tankers ruled out re routing shipments around Africa forcing Britain to import oil from US controlled sources in the Western Hemisphere and depleting its foreign exchange reserves Even as war loomed in 1939 therefore Britain's quest for independence from the United States had failed Germany was in an even worse position than Britain It could not import oil from overseas in wartime due to the threat of blockade while accumulating large stockpiles was impossible because of the economic and financial costs The Third

Reich went to war dependent on petroleum synthesized from coal domestic crude oil and overland imports primarily from Romania German leaders were confident however that they had enough oil to fight a series of short campaigns that would deliver to them the mastery of Europe This plan derailed following the victory over France when Britain continued to fight This left Germany responsible for Europe's oil requirements while cut off from world markets A looming energy crisis in Axis Europe the absence of strategic alternatives and ideological imperatives all compelled Germany in June 1941 to invade the Soviet Union and fulfill the Third Reich's ultimate ambition of becoming a world power a decision that ultimately sealed its fate

*Whose Democracy?* Sabrina P. Ramet, 1997 The years since the collapse of communism in 1989 have witnessed a dangerous renewal of religious intolerance and nationalist demands across Eastern Europe In this provocative application of moral philosophy to the analysis of contemporary political processes in the region Sabrina Ramet draws upon the literature of Natural Law to demonstrate that liberal democracy depends on a delicate balance between individual and societal rights Exploring the situation of Hungarians in Slovakia Albanians in Kosovo theoretically inclined Catholic bishops in Poland Serbs in Croatia and contending forces in post Dayton Bosnia Ramet contends that the terms of dispute in these cases can be deceptive She illustrates that claims made on the basis of what she calls the doctrine of collective rights actually subvert the liberal democratic project

The Axis Empire in Southeast Europe, 1939-1945 Jean W. Sedlar, 2007 This book presents a comprehensive overview of World War II in the Balkans Yugoslavia Greece Albania Romania and Bulgaria Among topics discussed are German wartime political dominance the Axis victory and military occupation guerrilla resistance and finally the German retreat

**Storms over the Balkans during the Second World War** Alfred J. Rieber, 2022-03-10 In a new interpretation of the history of the Balkans during the Second World War Alfred J. Rieber explores the tangled political rivalries cultural clashes and armed conflicts among the great powers and the indigenous people competing for influence and domination The study takes an original approach to the region based on the geography social conditions and imperial rivalries that spans several centuries culminating in three wars during the first half of the twentieth century Against this background Rieber focuses on leadership personified by Mussolini Hitler Stalin Churchill and Tito as the key to explaining events For each one the Balkans represented a strategic prize vital for the fulfilment of their ambitious war aims For the local forces the destabilization of the war offered the opportunity to reorder societies expel ethnic minorities and expand national borders Storms over the Balkans during the Second World War illustrates how the leaders of the external powers were forced to improvise their tactics and compromise their ideologies under the pressure of

war and the competing claims of their allies and clients Neither the Axis nor the Allied camps were uniform blocs and deep divisions ran through the ranks of the resistance and those collaborating with the occupying powers These tensions contributed to the failure of all the participants in the struggle to achieve their aims The complexities of the wartime experiences help to explain the persistence of memories and unfulfilled aspirations that continue to haunt the region The study is based on extensive research in new sources in seven languages

*Global Perspectives on Media Events in Contemporary Society* Fox, Andrew,2016-02-25 Media events have been described as broadcasts that involve an engaged audience viewing the same event simultaneously though this definition is still relevant the way media outlets interact with and react to their audiences has greatly changed This is in part due to the emergence of social media platforms which allow a participatory audience something that genre specific

television channels now rely on. Because these genre specific 24 hour channels seek to hook viewers with hyperbolic presentation and the illusion of large media events the original definition must be adapted. *Global Perspectives on Media Events in Contemporary Society* seeks to re define the role of the media in relaying information about current events within a modern context. Determining what constitutes as and the proper presentation of a media event is of great importance given the ubiquity of media consumption. This book approaches the topic from historical ceremonial and globally cultural perspectives while addressing news sports and other significant current events. It is a vital resource for students and teachers of communication media and journalism professionals in the media industry policy makers and sociologists. *Jahrbuch des Simon-Dubnow-Instituts / Simon Dubnow Institute Yearbook XV/2016* Raphael Gross, Magnus Klaue, Markus Kirchhoff, Gil S. Rubin, Jörg Deventer, 2017-08-14. Das Jahrbuch 2016 des Simon Dubnow Instituts widmet sich in zwei Schwerpunkten aus unterschiedlichen Blickwinkeln Stationen j discher beziehungsweise israelischer Diplomatiegeschichte. Der erste Schwerpunkt befasst sich mit Problemfeldern bei der Ausgestaltung des modernen Staatensystems seit dem 19. Jahrhundert die f r die europ ischen Judenheiten von zentraler Bedeutung waren. Gezeigt wird wie und in welcher Form Fragen von Staatsb rgerschaft Emanzipation Minderheitenschutz und humanit rer Intervention in den modernen Debatten zur internationalen Politik hervortraten und welche L sungsans tze j dische Protagonisten entwickelten. Der zweite Schwerpunkt untersucht mit dem deutsch israelischen Wissenschaftsaustausch seit 1959 einen besonders belasteten Fall internationaler Beziehungen. Anl sslich des f nftzigsten Jahrestages der diplomatischen Kontaktaufnahme zwischen beiden L ndern werden vor allem die Widerspr che und Ungleichzeitigkeiten der wissenschaftlichen Zusammenarbeit in den Blick genommen. Inwiefern wurde an Traditionen deutsch j dischen Geisteslebens angekn pft und wie bildete sich der Zivilisationsbruch des Holocaust in ihnen nach. Im Allgemeinen Teil und in den Rubriken des Jahrbuchs finden sich Beitr ge zur politischen Ideengeschichte zur Nationalismusforschung Staatsbildung und Minderheitenfrage zur Buber Scholem Kontroverse und zur deutsch j dischen Nachkriegsgeschichte. **Letterature di frontiera** ,1997 **The Papacy in the Age of Totalitarianism, 1914-1958** John Pollard, 2014-10-31. The Papacy in the Age of Totalitarianism 1914 1958 examines the most momentous years in papal history. Popes Benedict XV 1914 1922 Pius XI 1922 1939 and Pius XII 1939 1958 faced the challenges of two world wars and the Cold War and threats posed by totalitarian dictatorships like Italian Fascism German National Socialism and Communism in Russia and China. The wars imposed enormous strains upon the unity of Catholics and the hostility of the totalitarian regimes to Catholicism lead to the Church facing persecution and martyrdom on a scale similar to that experienced under the Roman Empire and following the French Revolution. At the same time these were years of growth development and success for the papacy. Benedict healed the wounds left by the modernist witch hunt of his predecessor and re established the papacy as an influence in international affairs through his peace diplomacy during the First World War. Pius XI resolved the Roman Question with Italy and put papal finances on a sounder footing. He also helped

reconcile the Catholic Church and science by establishing the Pontifical Academy of Sciences and took the first steps to move the Church away from entrenched anti-Semitism Pius XI continued his predecessor's policy of the indigenisation of the missionary churches in preparation for decolonisation Pius XII fully embraced the media and other means of publicity and with his infallible promulgation of the Assumption in 1950 he took papal absolutism and centralism to such heights that he has been called the last real pope Ironically he also prepared the way for the Second Vatican Council
