    *The Romanization of Britain* Martin Millett,1992-06-11 This book sets out to provide a new synthesis of recent archaeological work in Roman Britain     *The Romanization of Britain* Martin Millett,2025-01-16 The Romanization of Britain was greeted on first publication as an innovative study of cultural change and interaction offering a bold new perspective on Roman Britain based on archaeological evidence It set out to explore the social dynamics of cultural change from a local perspective by looking at the patterns of interaction between provincial peoples and imperial power Drawing together a wide range of excavated data as well as textual evidence it provided a new synthesis of the province whilst offering an alternative way of understanding cultural change in the Roman Empire more widely Its publication served to catalyse debate stimulating very considerable discussion and generating a wide variety of responses in a range of publications This revised edition adds a new introductory essay exploring the genesis of this classic work and reviewing the subsequent debate while also recalibrating the author s perspective on cultural change within the wider Roman provinces     *The Oxford Handbook of Roman Britain* Martin Millett,Louise Revell,Alison Jane Moore,2016 This handbook is currently in development with individual articles publishing online in advance of print publication At this time we cannot add information about unpublished articles in this handbook however the table of contents will continue to grow as additional articles pass through the review process and are added to the site Please note that the online publication date for this handbook is the date that the first article in the title was published online Roman Britain is a critical area of research within the provinces of the Roman empire Within the last 15 20 years the study of Roman Britain has been transformed through an enormous amount of new and interesting work which is not reflected in the main stream literature     <u>Community and Identity at the Edges of the Classical World</u> Aaron W. Irvin,2020-10-13 A timely and academically significant contribution to scholarship on community identity and globalization in the Roman and Hellenistic worlds Community and Identity at the Edges of the Classical World examines the construction of personal and communal identities in the ancient world exploring how globalism multi culturalism and other macro events influenced micro identities throughout the Hellenistic and Roman empires This innovative volume discusses where contact and the sharing of ideas was occurring in the time period and applies modern theories based on networks and communication to historical and archaeological data A new generation of international scholars challenge traditional views of Classical history and offer original perspectives on the impact globalizing trends had on localized areas insights that resonate with similar issues today This singular resource presents a broad multi national view rarely found in western collected volumes including Serbian Macedonian and Russian scholarship on the Roman Empire as well as on Roman and Hellenistic archaeological sites in Eastern Europe Topics include Egyptian identity in the Hellenistic world cultural identity in Roman Greece Romanization in Slovenia Balkan Latin the provincial organization of cults in Roman Britain and Soviet studies of Roman Empire and imperialism Serving as a synthesis of contemporary scholarship on the wider

topic of identity and community this volume Provides an expansive materialist approach to the topic of globalization in the Roman world Examines ethnicity in the Roman empire from the viewpoint of minority populations Offers several views of metascholarship a growing sub discipline that compares ancient material to modern scholarship Covers a range of themes time periods and geographic areas not included in most western publications Community and Identity at the Edges of the Classical World is a valuable resource for academics researchers and graduate students examining identity and ethnicity in the ancient world as well as for those working in multiple fields of study from Classical Hellenistic and Roman historians to the study of ethnicity identity and globalizing trends in time      Herod and Augustus David M. Jacobson,Nikos Kokkinos,2009 Nineteen studies illuminating Herod s role in the Augustan client network and his remarkable achievements as expressed in his extensive building programme Josephus record is examined here in the light of the available documentary and archaeological evidence      **Roman Finds** Richard Hingley,Steven Willis,2007-04-10 Studies on finds in Roman Britain and the Western Provinces have come to greater prominence in the literature of recent years The quality of such work has also improved and is now theoretically informed and based on rich data sets Work on finds over the last decade or two has changed our understanding of the Roman era in profound ways and yet despite such encouraging advances and such clear worth there has to date been little in the way of a dedicated forum for the presentation and evaluation of current approaches to the study of material culture The conference at which these papers were initially presented has gone some way to redressing this and these papers bring the very latest studies on Roman finds to a wider audience Twenty papers are here presented covering various themes      **Britannia** John Creighton,2006-01-31 Completely re evaluates evidence for the rule of the kings of Late Iron Age Britain      **Frontiers of Colonialism** Christine D. Beaule,2017-07-11 For decades archaeologists have limited studies of frontiers and colonialism to a single polity empire or epoch This has been especially true of historical archaeologists but in this intriguing collection Beaule assembles archaeologists from around the world to determine the commonalities and differences of colonialism across the self imposed divide of contact v pre contact The work considers the expanding frontiers of the Romans Iroquois Egyptians Filipinos and the more familiar Mayan and Incan empires The goal of this volume is to expand the theoretical interpretations and perspectives to all archaeologists working in frontier colonial contexts not just those of the European empires      From the Sword to the Plough Nico Roymans,1996 Siedlung Landwirtschaft Arch obotanik Romanisierung Siedlungsgeschichte      **The Shapwick Project, Somerset** Christopher Gerrard,2017-10-24 This book provides an introduction to the Shapwick Project s objectives geographical background and previous work in the Somerset It deals with excavations in the outlying parish and focuses on work in the village at Shapwick House      **Boundaries, Borders and Frontiers in Archaeology** Bryan Feuer,2016-02-17 Until fairly recently archaeological research has been directed primarily toward the centers of societies rather than their perimeters Yet frontiers and borders precisely because they are peripheral promote interaction between people of different polities and

cultures with a wide range of potential outcomes Much work has begun to redress this disparity of focus Drawing on contemporary and ethnographic accounts historical data and archaeological evidence this book covers more than 30 years of research on boundaries borders and frontiers beginning with The Northern Mycenaean Border in Thessaly in 1983 The author discusses various theoretical and methodological issues concerning peripheries as they apply to the archaeological record Political economic social and cultural processes in border and frontier zones are described in detail Three case study societies are examined China Rome and Mycenaean Greece **Cultural Identity and Archaeology** Paul Graves-Brown,Siân Jones,Clive Gamble,1996 Cultural identity is a key area of debate in contemporary Europe Despite widespread use of the past in the construction of ethnic national and European identity theories of cultural identity have been neglected in archaeology Focusing on the interrelationships between concepts of cultural identity today and the interpretation of past cultural groups Cultural Identity and Archaeology offers proactive archaeological perspectives in the debate surrounding European identities This fascinating and thought provoking book covers three key areas It considers how material remains are used in the interpretation of cultural identities for example pan Celtic culture and Bronze Age Europe Finally it looks at archaeological evidence for the construction of cultural identities in the European past The authors are critical of monolithic constructions of Europe and also of the ethnic and national groups within it in place of such exclusive cultural political and territorial entities the book argues for a consideration of the diverse hybrid and multiple nature of European cultural identities *Cultural Identity and Archaeology* P. Graves-Brown,Sian Jones,C.S. Gamble,2013-04-15 International contributors UK Spain Sweden Norway Poland Very topical explores the question of European identity and asks who were the first Europeans Some contributors are very well known eg Colin Renfrew John Collis Kristian Kristiansen **Vindolanda. A Roman Military Settlement as a Legal Model of Integration** Giuseppe Di Donato,2023 *The Power of Urban Water* Nicola Chiarenza,Annette Haug,Ulrich Müller,2020-05-05 Water is a global resource for modern societies and water was a global resource for pre modern societies The many different water systems serving processes of urbanisation and urban life in ancient times and the Middle Ages have hardly been researched until now The numerous contributions to this volume pose questions such as what the basic cultural significance of water was the power of water in the town and for the town from different points of view Symbolic aesthetic and cult aspects are taken up as is the role of water in politics society and economy in daily life but also in processes of urban planning or in urban neighbourhoods Not least the dangers of polluted water or of flooding presented a challenge to urban society The contributions in this volume draw attention to the complex manifold relations between water and human beings This collection presents the results of an international conference in Kiel in 2018 It is directed towards both scholars in ancient and mediaeval studies and all those interested in the diversity of water systems in urban space in ancient and mediaeval times **Ancient History: Key Themes and Approaches** Neville Morley,2002-09-09 Ancient History Key Themes and Approaches is a sourcebook of

writings on ancient history It presents over 500 of the most important stimulating and provocative arguments by modern writers on the subject and as such constitutes an invaluable reference resource The first section deals with different aspects of life in the ancient world such as democracy imperialism slavery and sexuality while the second section covers the ideas of key ancient historians and other writers on classical antiquity Overall this book offers an invaluable introduction to the most important ideas theories and controversies in ancient history and a thought provoking survey of the range of views and approaches to the subject **Hadrian's Wall and the End of Empire** Rob Collins,2012-08-21 There is no synthetic or comprehensive treatment of any late Roman frontier in the English language to date despite the political and economic significance of the frontiers in the late antique period Examining Hadrian s Wall and the Roman frontier of northern England from the fourth century into the Early Medieval period this book investigates a late frontier in transition from an imperial border zone to incorporation into Anglo Saxon kingdoms using both archaeological and documentary evidence With an emphasis on the late Roman occupation and Roman military it places the frontier in the broader imperial context In contrast to other works Hadrian s Wall and the End of Empire challenges existing ideas of decline collapse and transformation in the Roman period as well as its impact on local frontier communities Author Rob Collins analyzes in detail the limitanei the frontier soldiers of the late empire essential for the successful maintenance of the frontiers and the relationship between imperial authorities and local frontier dynamics Finally the impact of the end of the Roman period in Britain is assessed as well as the influence that the frontier had on the development of the Anglian kingdom of Northumbria Law in the Roman Provinces Kimberley Czajkowski,Benedikt Eckhardt,Meret Strothmann,2020-05-28 The study of the Roman Empire has changed dramatically in the last century with significant emphasis now placed on understanding the experiences of subject populations rather than a sole focus on the Roman imperial elites Local experiences and interactions between periphery and centre are an intrinsic component in our understanding of the empire s function over and against the earlier top down model But where does law fit into this new decentralized picture of empire This volume brings together internationally renowned scholars from both legal and historical backgrounds to study the operation of law in each region of the Roman Empire from Britain to Egypt from the first century BCE to the end of the third century CE Regional specificities are explored in detail alongside the emergence of common themes and activities in a series of case studies that together reveal a new and wide ranging picture of law in the Roman Empire balancing the practicalities of regional variation with the ideological constructs of law and empire *The Oxford encyclopedia of ancient Greece and Rome. - Vol. 1 - 7* Michael Gagarin,2010 **Wroxeter, the Cornovii and the Urban Process. Volume 2: Characterizing the City. Final Report of the Wroxeter Hinterland Project, 1994-1997** Roger H. White,C. Gaffney,V. L. Gaffney,2013-03-15 In the mid 1990s the site of the Roman city of Viroconium Cornoviorum at Wroxeter Shropshire was subjected to intensive geophysical survey This volume reports on the archaeological interpretation of this work marrying the geophysical data with a detailed analysis of the existing aerial
