## **Romano Guardini A Precursor Of Vatican II:**

**Romano Guardini** Robert Anthony Krieg,1997 Romano Guardini is a 20th century theologian who anticipated Vatican II's commitment to read the signs of the times The author introduces readers to Guardini's pastoral leadership in this book particularly in the liturgical and youth movements Romano Guardini Romano Guardini,2023-03-01 This book is not just a history To be sure it offers an historical account of the life of Romano Guardini 1885-1968 as recounted by Guardini himself However it is not simply about the past Precisely because it deals with the life of a faithful and thoughtful person the book is also about the present and projects itself into the future For as Guardini always insisted leading a thoughtful and faithful life means being oriented toward the good life that is toward the vision of a just and loving community This orientation does not just happen by itself nor can it be imposed or dictated from above but has to be nurtured steadily by hearts open to the voice of the Spirit and the call of truth Seen in this way Romano Guardini occupies a crucial place in the world in his world in ours and in the world to come As he emphasizes beautifully at the end of his memoir *Narratives of My Life* Autobiographical Notes he never considered himself as an isolated individual nor as the spokesman of a dominant ideology or doctrine Rather his work was always energised by and in dialogue with a broader context a context which one of his mentors Max Scheler aptly called the life world

**The Synod of Pistoia and Vatican II** Shaun Blanchard,2020 In this book Shaun Blanchard uses a close study of the Synod of Pistoia 1786 to argue that the roots of the Vatican II reforms must be pushed back beyond the widely acknowledged twentieth century forerunners of the Council beyond Newman and the Tbingen School in the nineteenth century to the eighteenth century in which a variety of reform movements attempted *ressourcement* and *aggiornamento*

**The Cambridge Companion to Vatican II** Richard R. Gaillardetz,2020-05-28 This Companion will assist the reader in apprehending a coherent and synthetic interpretation of the teaching of Vatican II The Legacy of Vatican II Massimo Faggioli,2015 *Romano Guardini* Robert Anthony Krieg,1995 Known for his writings on the liturgy his profound meditation on Jesus Christ and as a spiritual intellectual and cultural guide Guardini has much to say about liturgy today The Road to Vatican II Maureen Sullivan (O.P.),2007 The Second Vatican Council produced a charter for the church of the twentieth century and beyond Part of the council's fascination is that it involves many stories The Road to Vatican II is an attempt to tell the story behind the stories of this landmark in church history Somehow more than 2 500 bishops who often disagreed on the most critical issues managed to produce sixteen documents that touched the very essence of the Catholic faith How is it possible that so much could have been accomplished in four brief council sessions from 1962-1965 How did the church move from Pius IX at Vatican I 1869-70 who espoused a rigid hierarchical model of church to John XXIII at Vatican II 1962-65 who ushered in a collegial *communio* model of church In answering these questions Sullivan's book highlights those theologians whose efforts over the years before the council were actually the seeds of what flourished at the council These theologians were indeed prophets among us often suffering because of their convictions Ultimately they

were instruments of the Holy Spirit in our midst They offered the church a renewed vision of the faith and a methodology to facilitate theological endeavor They also rediscovered in the New Testament a language of life that could speak to contemporary men and women Hence this book presents the incredible theological changes that took place on the road to Vatican II it examines the contributions of some of the key theologians on this road and it finds evidence of their influence in key documents of the Second Vatican Council Book jacket Vatican II Shaun Blanchard,Stephen Bullivant,2023-02-21 Very Short Introductions Brilliant Sharp Inspiring The Second Vatican Council 1962 1965 or Vatican II is arguably the most significant event in the life of the Catholic Church since the Reformation The Council initiated intentionally or not profound changes not simply within Catholic theology but in the religious social and moral lives of the world s billion Catholics It also reconfigured intellectually and practically the Church s engagements with those outside of it most obviously with regard to other religions The sixteen documents formally issued by Vatican II constitute some of the most influential writings of the whole twentieth century Debates over their correct interpretation and authority are constant but they remain an indispensable point of reference for all areas of Catholic life from liturgy and sacraments to the Church s vast network of charitable and educational endeavours the world over In this Very Short Introduction Shaun Blanchard and Stephen Bullivant present the backstory to this event Vatican II is explored in light of the wider history of the Catholic Church and placed in the tumultuous context of the 1960s It distils the research on Vatican II employing the first hand accounts of participants and observers and the official proceedings of the Council to paint a rich picture of one of the most important events of the last century ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **The Turn to The Church in The Twentieth and Twenty-First Centuries** Sjoerd Mulder,2022-04-20 This book investigates the recent renewed theological focus on ecclesiology and the practices of the church In light of the diminishing role of the church in Western society over the last century it considers how theologians have come to view church life as essential to faith and theological thinking The chapters analyze key works by John Milbank Stanley Hauerwas and Nicholas Healy and bring them into conversation with an earlier phase in church history The historical comparison focuses on the renewal of ecclesiology in Roman Catholic theology in the early twentieth century represented by Romano Guardini Odo Casel and Henri de Lubac Outlining how the present turn to the church can be seen as promising the volume provides readers with a sketch of how a church centred theology might assist the church in inhabiting an increasingly post Christian world The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial CC BY NC 4.0 license A Living Sacrifice: Liturgy and Eschatology in Joseph Ratzinger Roland Millare,2022-06-13 A Living Sacrifice focuses on the inherent relationship between eschatology and

the liturgy in light of Ratzinger's insistence upon the primacy of logos over ethos. When logos is subordinated to ethos, the human person becomes subjected to a materialist ontology that leads to an ethos that is concerned above all by utility and progress, which affects one's approach to understanding the liturgy and eschatology. How a person celebrates the liturgy becomes subject to the individual whim of one person or a group of people. Eschatology is reduced to addressing the temporal needs of a society guided by a narrow conception of hope or political theology. If the human person wants to understand his authentic sacramental logos, then he must first turn to Christ, the incarnate Logos, who reveals to him that he is created for a loving relationship with God and others. The primacy of logos is the central hermeneutical key to understanding the unique vision of Ratzinger's Christocentric liturgical theology and eschatology. This is coupled with a study of Ratzinger's spiritual Christology with a focus on how it influences his theology of liturgy and eschatology through the notions of participation and communion in Christ's sacrificial love. Finally, *A Living Sacrifice* examines Ratzinger's theology of hope, charity, and beauty as well as his understanding of active participation in relationship to the eschatological and cosmic characteristics of the sacred liturgy.

Theology in a Global Context Hans Schwarz, 2005-11. In this book, Hans Schwarz leads us into the web of Christian theology's recent past, from Kant and Schleiermacher to Mbiti and Zizoulas, pointing out all the theologians of the last two hundred years who have had a major impact beyond their own context. With an eye to the blending of theology and biography, Schwarz draws the lines of connection between theologians, their history, and wider theological movements. Publisher:

*Ratzinger's Faith* Tracey Rowland, 2009-08-06. A general introduction to the theology of Pope Benedict XVI, including his approach to issues in moral and political theology, ecclesiology, liturgy, interpretations of the documents of the Second Vatican Council, and the theology of history. Tracey Rowland also addresses the question of Pope Benedict's place in the constellation of contemporary Catholic theologians. It has become a commonplace observation that Pope Benedict has been influenced by the thought of St. Augustine, in contrast to many of his predecessors in the papacy who were much more strongly influenced by St. Thomas Aquinas. Rowland therefore asks in what way Benedict is an Augustinian and how this marked difference in theological perspective may play out in the coming years. Her book includes an extensive thematic bibliography, which will be valuable for students.

Integral Ecology for a More Sustainable World Matthew Eaton, Dennis O'Hara, Michael T. Ross, 2019-10-25. *Laudato Si'* insists on a revolutionary human response to the public challenges of our time concerning the ecological crisis. The volume takes up the revolutionary spirit of Pope Francis and speaks to the economic, technological, political, educational, and religious changes needed to overcome the fragile relationships between humans and Earth. This volume identifies various systemic factors that have produced the anthropogenic ecological crisis that threatens the planet and uses the ethical vision of *Laudato Si'* to promote practical responses that foster fundamental changes in humanity's relationships with Earth and each other. The essays address not only the immediate behavioral changes needed in individual human lives but also the deeper societal changes required if human communities are to live sustainable lives.

within Earth's integral ecology. Thus this volume intentionally focuses on a plurality of cultural contexts and proposes solutions to problems encountered in a variety of global contexts. Accordingly the contributors to this volume are scholars from a breadth of interdisciplinary and cultural backgrounds each exploring an ethical theme from the encyclical and proposing systemic changes to address deeply entrenched injustices. Collectively their essays examine the social, political, economic, gender, scientific, technological, educational, and spiritual challenges of our time as these relate to the ecological crisis.

**God's Diplomats** Victor Gaetan, 2023-07-15 Using inside sources and extensive field reporting about the secretive high stakes world of international diplomacy, Vatican reporter Victor Gaetan takes readers to the Holy See to explicate Pope Francis's diplomacy, show why it works, and to offer readers a startling contrast to the dangerous inadequacies of recent U.S. international decisions.

Antisemitism, Christian Ambivalence, and the Holocaust Kevin P. Spicer, 2007-05-31 Thirteen essays exploring the role of antisemitism in the political and intellectual life of Europe. In recent years the mask of tolerant secular multicultural Europe has been shattered by new forms of antisemitic crime. Though many of the perpetrators do not profess Christianity, antisemitism has flourished in Christian Europe. In this book thirteen scholars of European history, Jewish studies, and Christian theology examine antisemitism's insidious role in Europe's intellectual and political life. The essays reveal that annihilative antisemitic thought was not limited to Germany but could be found in the theology and liturgical practice of most of Europe's Christian churches. They dismantle the claim of a distinction between Christian anti-Judaism and neo-pagan antisemitism and show that at the heart of Christianity, hatred for Jews overwhelmingly formed the milieu of twentieth century Europe. This volume's inclusion of essays on several different Christian traditions as well as the Jewish perspective on Christian antisemitism make it especially valuable for understanding varieties of Christian antisemitism and ultimately the practice and consequences of exclusionary thinking in general. In bringing a range of theological and historical perspectives to bear on the question of Christian and Nazi antisemitism, the book broadens our view on the question and is of great value to historians and theologians alike. Maria Mazzenga, Catholic University of America, H. Catholic, February 2009. Sheds light on and offers steps to overcome the locked-in conflict between Jews and Christians along the antisemitic path from Calvary to Auschwitz and beyond. Zev Garber, Los Angeles Valley College and American Jewish University, Shofar: An Interdisciplinary Journal of Jewish Studies, Vol. 27, No. 1, Fall 2008.

**Messiaen the Theologian** Andrew Shenton, 2017-07-05 For Olivier Messiaen, music was a way of expressing his faith. He considered it his good fortune to have been born a Catholic and declared that the illumination of the theological truths of the Catholic faith is the first aspect of my work, the noblest and no doubt the most useful. Messiaen is one of the most widely performed and recorded composers of the twentieth century and his popularity is increasing, but the theological component of his music has so far largely been neglected or dealt with superficially and continues to provide a serious impediment to understanding and appreciating his music for some of his audience. *Messiaen the Theologian* makes a significant contribution to Messiaen studies by providing cultural and historical

context to Messiaen's theology. An international array of Messiaen scholars cover a wide variety of topics including Messiaen's personal spirituality, the context of Catholicism in France in the twentieth century and comparisons between Messiaen and other artists such as Dante and T. S. Eliot. Interdisciplinary methodologies such as exegesis, theological studies and analysis are used to contribute to the understanding of several major works including *l'air sur l'eau*, *Sept Haïkous* and *Saint François d'Assise*. By approaching Messiaen and his music from such important and original perspectives, this book will be of interest not only to musicians and theologians but also to readers interested in the connection between spirituality and the arts.

**Key Theological Thinkers** Svein Rise, 2016-04-22. The 20th and 21st centuries have been characterized by theologians and philosophers rethinking theology and revitalizing the tradition. This unique anthology presents contributions from leading contemporary theologians including Rowan Williams, Fergus Kerr, Aidan Nichols, G. R. Evans and Tracey Rowland, who offer portraits of over fifty key theological thinkers in the modern and postmodern era. Distinguished by its broad ecumenical perspective, this anthology spans arguably one of the most creative periods in the history of Christian theology and includes thinkers from all three Christian traditions: Protestant, Catholic and Orthodox. Each individual portrait in this anthology includes a biographical introduction, an overview of theological or philosophical writing, presentation of key thoughts and contextual placing of the thinker within 20th-century religious discourse. Overview articles explore postmodern theology, radical orthodoxy, ecumenical theology, feminist theology and liberation theology. A final section includes portraits of important thinkers who have influenced Christian thought from other fields, not least from Continental philosophy and literature.

**Hannah Arendt and Theology** John Kiess, 2016-02-25. Hannah Arendt is regarded as one of the most important political philosophers of the twentieth century. Famous for her account of the banality of evil, her wide-ranging work explored such themes as totalitarianism, the Holocaust, statelessness and human rights, revolutions and democratic movements, and the various challenges of modern technological society. Recent years have seen a growing appreciation of her complex relationship to theological sources, especially Augustine, the subject of her doctoral dissertation, and a thinker with whom she contended throughout her life. This book explores how Arendt's critical and constructive engagements with theology inform her broader thought, as well as the lively debates her work is stirring in contemporary Christian theology on such topics as evil, tradition, love, political action and the life of the mind. A unique interdisciplinary investigation bridging Arendt studies, political philosophy and Christian theology, *Hannah Arendt and Theology* considers how the insights and provocations of this public intellectual can help set a constructive theological agenda for the twenty-first century.

**Faith and Fascism** Jorge Dagnino, 2017-03-21. This is a study of the *Federazione Universitaria Cattolica Italiana* (FUCI) between 1925 and 1943, the organisation of Catholic Action for the university sector. The FUCI is highly significant to the study of Catholic politics and intellectual ideas, as a large proportion of the future Christian Democrats who ruled the country after World War II were formed within the ranks of the federation. In broader terms, this is a contribution to the historiography of

Fascist Italy and of Catholic politics and mentalities in Europe in the mid twentieth century It sets out to prove the fundamental ideological political social and cultural influences of Catholicism on the making of modern Italy and how it was inextricably linked to more secular forces in the shaping of the nation and the challenges faced by an emerging mass society Furthermore the book explores the influence exercised by Catholicism on European attitudes towards modernisation and modernity and how Catholicism has often led the way in the search for a religious alternative modernity that could countervail the perceived deleterious effects of the Western liberal version of modernity
