Cost Containment and Efficiency in National Health Systems John Rapoport, Philip Jacobs, Egon Jonsson, 2008-12-03

Written by a local health economics expert each of the eight chapters in this timely handbook and ready reference describes the national healthcare system of a different industrialized country In each case the 4 5 specific policies with the highest impact on that respective country over the past 20 30 years are identified In addition the economic characteristics of each policy are described and where possible its success evaluated discussing the current policy agenda A final chapter summarizes and synthesizes the major points of the analysis While the main focus is on economics this guide is written in non technical language for an audience of health policy decision makers or students of health policy making it an invaluable contribution to the current debate surrounding the control of rising healthcare related costs in the developed world

CASE STUDIES IN CANADIAN HEALTH POLICY AND MANAGEMENT, SECOND EDITION Raisa Deber, Catherine Mah, 2014-04-09 Covering a wide range of issues the 22 cases included in Case Studies in Canadian Health Policy and Management constitute an exceptional resource for bringing real life policy questions into the classroom Based on actual events the cases have been developed with input from mid career professionals with strong field experience and extensively tested in Raisa B Deber s graduate case study seminar at the University of Toronto Each case features both a substantive health policy issue and a selection of key concepts and methods appropriate to examining public policy public health and health care management issues In each case the authors provide a summary of the case and the related policy issues a description of events suggested questions for discussion supporting information and both works cited and further reading Suitable for graduate and undergraduate classrooms in programs in a variety of fields Case Studies in Canadian Health Policy and Management is an exceptional educational resource This second edition features all new cases as well as adding an introductory chapter that provides a framework and tools for health policy analysis in Canada **Toward the Health of a Nation** Leslie A. Boehm, 2020-10-22 Canadians view their healthcare recognized throughout the world as an exemplary system as iconic and integral to their identity In *Toward the Health of a Nation* Leslie Boehm recounts the first seventy years in the life of one of the foundations of Canada s healthcare system the Institute of Health Policy Management and Evaluation at the University of Toronto Boehm a graduate of IHPME and an instructor there throughout his career charts the institute s history from its inception in 1947 as the Department of Hospital Administration to the present day The first program of its kind in Canada and one of the few in the world the school was founded at a time when the issue of healthcare was becoming a significant part of national and provincial discussions and policies Initially concentrating on hospital management and professional degrees it has expanded to offer academic degrees and facilitate important research into health systems policies and outcomes In *Toward the Health of a Nation* Boehm demonstrates the excellence of the program its faculty and its graduates as well as their accomplishments in major government initiatives and royal commissions In the seventy years since

IHPME's inception healthcare has grown to become a major part of government and business activity and it will only increase in coming years. An in-depth history of a major program in graduate health education, *Toward the Health of a Nation* highlights how important healthcare is to a modern functional society.

Canadian Newspaper Ownership in the Era of Convergence Walter C. Soderlund, Kai Hildebrandt, 2005-06. Canadian Newspaper Ownership in the Era of Convergence investigates the current state of Canada's newspaper industry in light of recent developments: increasing concentration of ownership, multi-media convergence, and controversy over the actions of proprietors. Case studies examine how Conrad Black's acquisition of newspapers in the mid-1990s, bringing his total ownership to over half of the country's dailies, followed by the subsequent purchase of the most important of these by CanWest Global, has actually influenced the content of newspapers. Canadian Newspaper Ownership revisits social responsibility in the context of the changed media landscape as a means of prescribing how newspaper owners and employees might conduct themselves in the public interest.

Memory and Control of Action, 2011-10-10. *Memory and Control of Action* **Universality and Social Policy in Canada** Daniel Béland, Gregory P. Marchildon, Michael J. Prince, 2019-05-31. Bringing together top scholars in the field, *Universality and Social Policy in Canada* provides an overview of the universality principle in social welfare. The contributors survey the many contested meanings of universality in relation to specific social programs, the field of social policy, and the modern welfare state. The book argues that while universality is a core value undergirding certain areas of state intervention, most notably health care and education, the contributory principle of social insurance and the selectivity principle of income assistance are also highly significant precepts in practice.

Access to Care, Access to Justice Kent Roach, Lorne Sossin, Colleen M. Flood, 2005-01-01. Edited by Colleen Flood, Lorne Sossin, and Kent Roach, the collection explores the role that courts may begin to play in health care and how this new role is of crucial importance to the Canadian public and their governments.

Social Fabric Or Patchwork Quilt Jeff Keshen, Raymond Benjamin Blake, 2006-01-01. Both historical and contemporary features of Canadian social welfare are explored in this wide-ranging and in-depth collection. *Social Fabric or Patchwork Quilt* explores the evolution of the Canadian social welfare state from a system based upon voluntarism and philanthropy to one in which the State's involvement has increased considerably. It also shows how the roles of governments at all levels have changed in recent times. Chapters describe the developing Canadian welfare state from Confederation to the present. Beginning with an integrative framework in the general introduction, the selected essays represent many perspectives: chronological, regional, multidisciplinary, and ideological. An important feature of this collection is the consideration of providers and recipients. Such wide-ranging outlooks are possible given the diverse backgrounds of contributors, which include historians, sociologists, social workers, public policy experts, and political scientists. As well as historical and sociological studies, topics include key programs discussed in detail, the quality of services received by principal target groups, new directions in research, some contributions even revisit foundational older works and key government documents.

Bohac Clarke, Veronika,2018-12-28 With its growing recognition in education the importance of Integral Theory is slowly entering mainstream academia through interdisciplinary and transdisciplinary research Addressing the theory s complexity is important for researchers to learn how to apply it in their classrooms and promote a more inclusive educational environment Integral Theory and Transdisciplinary Action Research in Education provides emerging research exploring the theoretical and practical aspects of the Integral Theory model and its applications within educational contexts With a diverse array of research problems approached through an inclusive theory framework and featuring coverage on a broad range of topics such as graduate student research inclusion culture and organizational learning processes this publication is ideally designed for graduate students educators academicians researchers scholars educational administrators and policymakers seeking current research on the utility and promise of Integral Theory as a meta framework for methodological pluralism and transdisciplinary research **The Bombing Of Brittany: Solving The Wrong Problem** Major Jeremiah S.

Heathman,2014-08-15 As a result of the Allied bombing campaign against Nazi submarine bases during the Second World War the cities of Brest Lorient and Saint Nazaire were nearly completely destroyed Despite thousands of bombing missions all three submarine bunkers still stand today This monograph examines the effectiveness of the Allied bombing campaign against German submarine bases in Brittany by analyzing the campaign through the use of a design methodology Research is broken down into three frames the operational approach the operational environment and the problem frame The first frame provides an account of the bombing missions and effects Next an overview of the operational environment is conducted by exploring the historical context of Brittany German construction efforts and Allied institutional barriers The study concludes

by examining the problem frame which entails how the Allies perceived their operational problem and developed an approach based on their understanding Ultimately the Allies failed to accurately identify their problem and developed an ineffective approach towards defeating the threat Had the Allies incorporated design thinking into their planning and execution they may have developed an effective campaign towards defeating the Nazi U boat threat rather than solving the wrong problem

Building State Capability Matt Andrews, Lant Pritchett, Michael Woolcock, 2017-01-19 This is an open access title available under the terms of a CC BY NC ND 4.0 licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations Governments play a major role in the development process and constantly introduce reforms and policies to achieve developmental objectives Many of these interventions have limited impact however schools get built but children don't learn IT systems are introduced but not used plans are written but not implemented These achievement deficiencies reveal gaps in capabilities and weaknesses in the process of building state capability This book addresses these weaknesses and gaps It starts by providing evidence of the capability shortfalls that currently exist in many countries showing that many governments lack basic capacities even after decades of reforms and capacity building efforts The book then analyses this evidence identifying capability traps that hold many governments back particularly related to isomorphic mimicry where governments copy best practice solutions from other countries that make them look more capable even if they are not more capable and premature load bearing where governments adopt new mechanisms that they cannot actually make work given weak extant capacities The book then describes a process that governments can use to escape these capability traps Called PDIA problem driven iterative adaptation this process empowers people working in governments to find and fit solutions to the problems they face The discussion about this process is structured in a practical manner so that readers can actually apply tools and ideas to the capability challenges they face in their own contexts These applications will help readers devise policies and reforms that have more impact than those of the past

Where to from Here? Stephen Duckett, 2012-02-09 Universal healthcare perhaps the most distinguishing feature of Canada's public policy is under fire criticized for its heavy expense and questionable sustainability In *Where to From Here Keeping Medicare Sustainable* Stephen Duckett defends Canadian Medicare addressing key concerns and refuting criticism while also acknowledging flaws in the system and room for improvement Duckett argues that while the fundamentals of Medicare are sound a great deal of change is necessary to keep it sustainable This book envisions a Medicare that is not static and simply responsive to problems but an active shifting system that keeps up with the evolving needs of a rapidly changing time Duckett systematically lays out proposals for incremental change across a range of areas including primary care hospitals and the health workforce *Where to From Here* Presents an unflinching defense of one of Canada's iconic policies while keeping a clear eye on the future of the nation's health

Treating Health Care Raisa Deber, 2018-01-18 Canada has been among the world leaders in recognizing the multiple factors that impact health Focusing on Canada's

health care system Raisa B Deber provides brief descriptions of some key facts and concepts necessary to understand health care policy in Canada and place it in an international context An accessible guide Treating Health Care unpacks key concepts to provide informed discussions that help us understand and diagnose Canada s health care system and to clarify which proposed changes are likely to improve it and which are not This book provides background information to clarify such concepts as determinants of health how health systems are organized and financed including international comparisons health economics health ethics and roles and responsibilities of different stakeholders including government providers and patients It then addresses some key issues including equity efficiency access and wait times quality improvement and patient safety and coverage and payment models Using analysis rather than advocacy Deber provides a toolkit to help understand health care and health policy
