Beyond the Frontiers Sergio Gonzalez Sanchez, Alexandra Gugliemi, 2017-03-31 This first thematic volume of the new series TRAC Themes in Roman Archaeology brings renowned international experts to discuss different aspects of interactions between Romans and barbarians in the northwestern regions of Europe Northern Europe has become an interesting arena of academic debate around the topics of Roman imperialism and Roman barbarian interactions as these areas comprised Roman provincial territories the northern frontier system of the Roman Empire limes the vorlimes or buffer zone and the distant barbaricum This area is today host to several modern European nations with very different historical and academic discourses on their Roman past a factor in the recent tendency towards the fragmentation of approaches and the application

of postcolonial theories that have favored the advent of a varied range of theoretical alternatives Case studies presented here span across disciplines and territories from American anthropological studies on transcultural discourse and provincial organization in Gaul to historical approaches to the propagandistic use of the limes in the early 20th century German empire from Danish research on warrior identities and Roman Scandinavian relations to innovative ideas on culture contact in Roman Ireland and from new views on Romano Germanic relations in Central European Barbaricum to a British comparative exercise on frontier cultures The volume is framed by a brilliant theoretical introduction by Prof Richard Hingley and a comprehensive concluding discussion by Prof David Mattingly

Beyond the Romans Irene Selsvold, Lewis

Webb, 2020-04-09 This latest volume in the TRAC Themes in Theoretical Roman Archaeology series takes up posthuman theoretical perspectives to interpret Roman material culture These perspectives provide novel and compelling ways of grappling with theoretical problems in Roman archaeology producing new knowledge and questions about the complex relationships and interactions between humans and non humans in Roman culture and society Posthumanism constitutes a multitude of theoretical positions characterised by common critiques of anthropocentrism and human exceptionalism In part they react to the dominance of the linguistic turn in humanistic sciences These positions do not exclude the human but instead stress the mutual relationship between matter and discourse Moreover they consider the agency of non humans e g animals material culture landscapes climate and ideas their entanglement with humans and the situated nature of research Posthumanism has had substantial impacts in several fields including critical studies archaeology feminist studies even politics but have not yet emerged in any fulsome way in Classical Studies and Classical Archaeology This is the first volume on these themes in Roman Archaeology aimed at providing valuable perspectives into Roman myth art and material culture displacing and complicating notions of human exceptionalism and individualist subjectivity Contributions consider non human agencies particularly animal material environmental and divine agencies critiques of binary oppositions and gender roles and the Anthropocene Ultimately the papers stress that humans and non humans are entangled and imbricated in larger systems we are all post human

The Mystery of Romans Mark D. Nanos, 1996-01-01 Paul's letter to the Romans says Nanos is an example of Jewish correspondence addressing believers in Jesus who are steeped in Jewish ways whether of Jewish or gentile origin Arguing against those who think Paul was an apostate from Judaism Nanos maintains Paul's continuity with his Jewish heritage Several key arguments here are Those addressed in Paul's letter were still an integral part of the Roman synagogue communities The weak are non Christian Jews while the strong included both Jewish and gentile converts to belief in Jesus Paul as a practicing devout Jew insists on the rules of behavior for the righteous gentiles Christian subordination to authorities Romans 13:1-7 is intended to enforce submission to leaders of the synagogues not Roman government officials

Paul behaves in a way to confirm the very Jewish portrait of him in Acts going first to the synagogues

Coinage and Identity in the Roman Provinces C. J. Howgego, Volker Heuchert, Andrew M. Burnett, 2005 Coins were the most deliberate of all symbols of public communal identities yet the Roman historian will look in vain for any good introduction to or systematic treatment of the subject Sixteen leading international scholars have sought to address this need by producing this authoritative collection of essays which ranges over the whole Roman world from Britain to Egypt from 200 BC to AD 300 The subject is approached through surveys of the broad geographical and chronological structure of the evidence through chapters which focus on ways of expressing identity and through regional studies which place the numismatic evidence in local context

A Short History of the Roman Mass Uwe Michael Lang, 2024-09-10 This book is a short introduction to the development of the Roman Rite of Mass the most widely used of the Church's liturgical rites from its origins in early Christianity until the present day Over the centuries the form of Mass most Catholics are familiar with has been shaped by the Apostolic See of Rome in contact and exchange with other local churches Understanding this rich and complex history will help not only the clergy in their sacramental ministry but all the faithful in participating consciously and fruitfully in the liturgy of the Church In the wake of the liturgical reforms initiated by Pope Pius XII in the mid 20th century fully embraced by the Second Vatican Council and implemented in the postconciliar period there has been an intense and often controversial debate on continuity and rupture in liturgical development Amid this debate the long and complex history of the Roman liturgy is not always sufficiently acknowledged The refinement of the Roman Mass as this book shows has been marked both by continuity and by change From its formative period in late antiquity the ritual shape of the Roman Mass was affected by religious social cultural political and economic transformations But changes are to be expected over such a long period of time and the wide geographical area where this rite has been used It is the essential continuity that stands out This work challenges the conventional narrative that the liturgy of the Western church moved from early dynamic development through medieval decline to early modern stagnation and was only revived in the wake of the Second Vatican Council a narrative that still has considerable traction both in academic publications and among the wider public

A Companion to the Archaeology of the Roman Republic Jane DeRose Evans, 2013-03-29 A Companion to the Archaeology of the Roman Republic offers a diversity of perspectives to explore how differing approaches and methodologies can contribute to a greater understanding of the formation of the Roman Republic Brings together the experiences and ideas of archaeologists from around the world with multiple backgrounds and areas of interest Offers a vibrant exploration of the ways in which archaeological methods can be used to explore different elements of the Roman Republican period Demonstrates that the Republic was not formed in a vacuum but was influenced by non Latin speaking cultures from throughout the Mediterranean region Enables archaeological thinking in this area to be made accessible both to a more general audience and as a valuable addition to existing discourse Investigates the archaeology of the Roman Republican period with reference to material

culture landscape technology identity and empire **Jews and Their Roman Rivals** Katell Berthelot, 2024-08-20 How encounters with the Roman Empire compelled the Jews of antiquity to rethink their conceptions of Israel and the Torah Throughout their history Jews have lived under a succession of imperial powers from Assyria and Babylonia to Persia and the Hellenistic kingdoms **Jews and Their Roman Rivals** shows how the Roman Empire posed a unique challenge to Jewish thinkers such as Philo Josephus and the Palestinian rabbis who both resisted and internalized Roman standards and imperial ideology Katell Berthelot traces how long before the empire became Christian Jews came to perceive Israel and Rome as rivals competing for supremacy Both considered their laws to be the most perfect ever written and both believed they were a most pious people who had been entrusted with a divine mission to bring order and peace to the world Berthelot argues that the rabbinic identification of Rome with Esau Israel's twin brother reflected this sense of rivalry She discusses how this challenge transformed ancient Jewish ideas about military power and the use of force law and jurisdiction and membership in the people of Israel Berthelot argues that Jewish thinkers imitated the Romans in some cases and proposed competing models in others Shedding new light on Jewish thought in antiquity **Jews and Their Roman Rivals** reveals how Jewish encounters with pagan Rome gave rise to crucial evolutions in the ways Jews conceptualized the Torah and conversion to Judaism

Paul against the Nations Neil Elliott, 2023-11-10 In these essays some of them never published before Neil Elliott presents an understanding of Romans at odds with the traditional Protestant understanding a treatise on justification by faith or the New Perspective Paul's argument with Jewish ethnocentrism The letter that emerges here is an urgent response to a historical situation Paul engages what would quickly become the supersessionist norm in gentile Christianity shaped by the Roman construal of subject peoples Gathered here for the first time these studies rely on rhetorical criticism broad attention to Roman imperial ideology and postcolonial criticism to argue for a strikingly new perspective on Romans
