[Reformism or Revolution](#) Alan Woods ,2015-05-15 This book by Alan Woods is a polemic against a well known in Latin American terms intellectual Heinz Dieterich Dieterich claims to have invented a new Socialism of the 21st Century and much else into the bargain He offers a great deal of advice to those involved in the Venezuelan Revolution dressed up in all manner of revolutionary rhetoric However when you clear away all the verbiage that surrounds his new socialist philosophy there remains nothing new at all simply a rehash

of stale petty bourgeois ideas of the past The author of Reformism or Revolution seeks to answer Dieterich's extravagant claims and in doing so defends the real ideas of Marxism on a whole host of questions and in particular the way forward for the Venezuelan and world revolution

Ancient Necropolitics, 2025-01-27 This is the first collection of essays approaching aspects of Greek antiquity and its reception through necropolitics It discovers traces of necropolitics in the unburied and maltreated corpses of the Homeric epics it follows the manifestations of necropower in Greek tragedy historiography and biography and it delves into torture capital punishment and non normative burials in the ancient Greek world It contributes to the debate much of which is only available in modern Greek on recent archaeological evidence notably the iron bound individuals discovered in the Athenian suburb of Phaleron and includes a captivating exploration of necropolitics in Yorgos Lanthimos's Greek tragedy inspired cinema

The Great Awakening and Southern Backcountry Revolutionaries Richard J. Chacon, Michael Charles Scoggins, 2014-07-08 This work documents the impact that the Great Awakening had on the inhabitants of colonial America's Southern Backcountry Special emphasis is placed on how this religious revival furrowed the ground on which the seeds of the American Revolution would sprout The investigation shows how the Great Awakening can be traced to the Europe's Age of Enlightenment This effort also demonstrates how and why this revival spread so rapidly throughout the colonies Special focus is placed on how the Great Awakening impacted the mindset of colonists of the Southern Backcountry Most significantly this research demonstrates how this 18th century revival not only cultivated a sense of American national identity but how it also fostered a colonial mindset against established authority which in turn facilitated the success of the American Revolution Additionally this investigation will document from a cross cultural perspective how religious revivals have fueled other revolutionary movements around the world Such analysis will include the Celtic Druid Revolt the Maji Maji Rebellion of East Africa along with the Mad Man's War in Southeast Asia Lastly the ethical ramifications of minimizing or denying the role that religion played in political and social transformations around the world will be addressed This final point is of paramount importance given current trend in academia to minimize the role that religion played in spurring revolutions while emphasizing material i.e economic causal factors This attempt at divorcing religion from history is misguided and unethical because it is not only misleading but it also fails to fully acknowledge the beliefs and values that motivated individuals to take certain actions in the first place

Roman Error Basil Dufallo, 2018 In the eyes of posterity ancient Rome is deeply flawed The list of censures is long and varied from political corruption and the practice of slavery to religious intolerance and sexual immorality yet for centuries the Romans errors have not only provoked opprobrium but also inspired wayward and novel forms of thought and representation themselves errant in the broad sense of the Latin verb This volume is the first to examine this phenomenon in depth treating examples from history philosophy literature psychoanalysis and art history from antiquity to the present to examine how the Romans faults have become the basis for creative experimentation for rejections of prevailing ideology even for comedy and delight In

demonstrating that the reception of Rome's missteps and mistakes has been far more complex than simply denouncing them as an *exemplum malum* to be shunned and avoided it argues compellingly that these alternative receptions are historically important and enduringly relevant in their own right Roman error comes to signify both ancient misstep and something that we may commit when engaging with Roman antiquity whereby reception may even be conceived as error of a kind while the volume ably addresses popular fascination with a wide range of Roman vices including violence imperial domination and decadence it also asks us to consider what makes certain receptions matter how they matter and why
