Romantic Poets And The Culture Of Posterity:

Romantic Poets and the Culture of Posterity Andrew Bennett, 1999-12-02 This 1999 book examines the way in which the Romantic period's culture of posterity inaugurates a tradition of writing which demands that the poet should write for an audience of the future the true poet a figure of neglected genius can be properly appreciated only after death Andrew Bennett argues that this involves a radical shift in the conceptualization of the poet and poetic reception with wide ranging implications for the poetry and poetics of the Romantic period He surveys the contexts for this transformation of the relationship between poet and audience engaging with issues such as the commercialization of poetry the gendering of the canon and the construction of poetic identity Bennett goes on to discuss the strangely compelling effects which this reception theory produces in the work of Wordsworth Coleridge Keats Shelley and Byron who have come to embody for posterity the figure of the Romantic poet

English Romantic Poets and their Reading Audiences Karsten Runge, 2003-05-25 Thesis M A from the year 2002 in the subject English Language and Literature Studies Literature grade 1 3 A Ruhr University of Bochum Faculty for Philology language English abstract The late eighteenth and early nineteenth centuries were a time of accelerating cultural social economic and political change The outbreak of the French Revolution in 1789 and the passing of the first Reform Bill in 1832 are the political cornerstones of an age that saw the promotion of human rights and civil liberties against established systems of absolutist governments and limited possibilities of political participation Democratic ideas that form the constitutional basis of modern Western societies were developed and circulated in a highly charged political and cultural climate represented defended and contested in a bourgeois public sphere that had only come into being as a space of rational contestation in England in the century between the Glorious Revolution and the French Revolution 1 In philosophy perhaps the most far reaching development in the eighteenth century was the exploration of the individual psyche John Locke's empiricist epistemology was based on the idea that the mind of the infant is like a tabula rasa and that there are no innate ideas or moral principles Instead Locke argued the individual's knowledge springs from his or her own sensory perceptions This epistemology carried with it a serious social problem in effect perceivers were deprived of shared views and isolated in their own perceptions were cut off from the environment that had produced their knowledge Equally isolated from objects and from others Lockian perceivers can be certain of only their individual mental processes Certainty knowledge and truth become at best relational 2 The problem of the individual's position in and relation to a society that was already perceptibly fragmenting as a result of economic developments and increased social mobility was debated by philosophers throughout the eighteenth century David Berkeley the Earl of Shaftesbury and Adam Smith all in their own ways tried to find a solution to

the empirical dilemma they had inherited from Locke and sought to relocate the individual in a social context 3 1 Cf Jürgen Habermas *Strukturwandel der Öffentlichkeit Untersuchungen zu einer Kategorie der bürgerlichen Gesellschaft* Neuwied Luchterhand 1962 2 Regina Hewitt Wordsworth and the Empirical Dilemma New York et al Peter Lang 1990 5f 3 Ibid 7 32

Legacies of Romanticism Carmen Casaliggi, Paul March-Russell, 2013-03-05 This book visits the Romantic legacy that was central to the development of literature and culture from the 1830s onward Although critical accounts have examined aspects of this long history of indebtedness this is the first study to survey both Nineteenth and Twentieth century culture The authors consider the changing notion of Romanticism looking at the diversity of its writers the applicability of the term and the ways in which Romanticism has been reconstituted The chapters cover relevant historical periods and literary trends including the Romantic Gothic the Victorian era and Modernism as part of a dialectical response to the Romantic legacy Contributors also examine how Romanticism has been reconstituted within postmodern and postcolonial literature as both a reassessment of the Modernist critique and of the imperial contexts that have throughout this time frame underpinned the Romantic legacy bringing into focus the contemporaneity of Romanticism and its political legacy This collection reveals the diversity and continuing relevance of the genre in new and exciting ways offering insights into writers such as Browning Ruskin Pater Wilde Lewis MacNeice and Auster

Romanticism, Memory, and Mourning Mark Sandy, 2016-04-08 The subject of Romanticism *Memory and Mourning* could not be timelier with Žižek's recent proclamation that we are living in the end times and in an era which is preoccupied with the process and consequences of ageing We mourn both for our pasts and futures as we now recognise that history is a continuation and record of loss Mark Sandy explores the treatment of grief loss and death across a variety of Romantic poetic forms including the ballad sonnet epic elegy fragment romance and ode in the works of poets as diverse as Smith Hemans Blake Wordsworth Coleridge Byron Shelley Keats and Clare Romantic

meditations on grief however varied in form and content are self consciously aware of the complexity and strength of feelings surrounding the consolation or disconsolation that their structures of poetic memory afford those who survive the imaginary and actual dead Romantic mourning Sandy shows finds expression in disparate poetic forms and how it manifests itself both as the spirit of its age rooted in precise historical conditions and as a proleptic power of lasting transhistorical significance Romantic meditations on grief and loss speak to our contemporary anxieties about the inevitable but unthinkable event of death itself

Romanticism, Self-Canonization, and the Business of Poetry Michael Gamer, 2017-02-17 This is the first book to examine how Romantic writers transformed poetic collections to reach new audiences In a series of case studies Michael Gamer shows Romantic poets to be fundamentally social authors working closely with booksellers intimately involved in literary production and resolutely concerned with current readers even as they presented themselves as disinterested artists writing for posterity Exploding the myth of Romantic poets as naive unworldly or unconcerned with the practical aspects of literary production this study shows them instead to be engaged with intellectual property profit and loss and the power of reprinting to reshape literary reputation Gamer offers a fresh perspective on how we think about poetic revision placing it between aesthetic and economic registers and foregrounding the centrality of poetic collections rather than individual poems to the construction of literary careers

Shelley's Music Paul A. Vatalaro, 2016-01-13 First published in 2009 This book argues that the images of and allusions to music in Shelley's writing demonstrate his attempt to infuse the traditionally masculine word with the traditionally feminine voice and music This further extends to his even more fundamental desire to integrate the object voice with his own subjectivity For Shelley what plagues this integration is the prospect of losing both the poet's authority and the subjectivity upon which it relies This book asserts that the resultant deadlock and instability paradoxically becomes Shelley's ultimate goal creating a steady state of suspension that finally preserves both his authority and his humanity

Shelley or Coleridge must confront the role biography has played in the canonization of each Each archive is saturated with stories of the life prematurely cut off or in Coleridge s case of promise wasted in indolence One confronts reminiscences of contemporaries who describe subjects singularly unsuited to this world as well as still stranger materials death masks bits of bone locks of hair a heart initially preserved by circles and then circulating more widely often in tandem with bits of the literary corpus Especially when it centers on the early deaths of Keats and Shelley biographical interest tends to be dismissed as a largely Victorian and sentimental phenomenon that we should by now have put behind us And yet a line of verse by these poets can still trigger associations with biographical detail in ways that spark pathos or produce intimations of prolepsis or fatality even for readers suspicious of such effects Biographical fascination the untoward and involuntary clinging of attention to the biographical subject is thus posthumous in Keats s evocative sense of the term its life equivocally sustained beyond its period Lives of the Dead Poets takes seriously the biographical fascination that has dogged the prematurely arrested figures of three romantic poets Arising in tandem with a sense of the threatened end of poetry s allotted period biographical fascination personalizes the precariousness of poetry binding poetry the poet function and readers to an irrecoverable singularity Reading romantic poets together with the modernity of Benjamin and Baudelaire Swann shows how poets afterlives offer an opening for poetry s survival from its first nineteenth century death sentences into our present *Minor Literature in Late Romanticism* James Najarian,2025-07-31 This book intervenes in the current

discussion concerning so called minor English literature of the late 1820s and early 1830s Writing in the late Romantic period this study charts the declining economic market for individual poetry volumes as other markets were developing It examines selected authors over a short time period who consciously placed their works as minor arguing that minor is not only a category that has been used to classify the literary reputation of authors long after their deaths but a position that authors adopt themselves Minor poets turn from long ambitious works to shorter lyrics on a limited number of subjects They respond to the Romantic ideology and its emphasis on individual vision achievement and reputation but choose instead the minor This book explores the work of Charles Lamb as a theorist of the minor as well as Thomas Hood Felicia Hemans Winthrop Mackworth Praed and Mary Mitford as exemplars of this style It links their work to literary Romanticism and yet

responds to it in a strategically self limited way by posing as ancillary **Nineteenth-Century Poetry and Literary Celebrity** E. Eisner,2009-09-16 While artistically ambitious poets of the era are often characterized as preferring a lasting future fame to contemporary popularity this book reveals that a sophisticated strategic and fascinated engagement with new modes of fame was central to the experiments with literary form of poets such as Byron Keats Shelley and Barrett Browning

Romanticism Gendered Andrea Fischerová,2020-11-09 This study focuses on the six writing men who have been throughout decades regarded as the alpha and omega of British Romanticism Byron Coleridge Keats Scott Shelley and Wordsworth It sees these men as a representative cohort of their time and examines their letters as results of a reading process Although letters are usually seen as additional sources of reference in literary studies in this book they are treated as the dominant information material correspondence enables to reconsider British Romanticism on the basis of the epistolary communication of the first half of the nineteenth century The target information from the letters are references to women writers and to their writings A detailed analysis of the correspondence manages to answer the question whether male Romantics regarded writing women as provoking from time to time as Duncan Wu assumes and whether the gender identity of the woman author influenced the way male readers read her literary works The examination of the correspondence thus takes a gendered perspective on British Romanticism This approach to the target research data discloses a long list of almost 120 names of women writers from different periods and of different literary genres Whereas the male readers in question have acquired a well established stable long term position within literary history the women were often marginalized even forgotten The study presents plentiful examples proving the discrepancies between what the twenty first century reader regards as the core of women s Romantic literary tradition and what the Romantic reader did The following women writers are discussed in the study in detail Susannah Centlivre Anne Finch Lady Winchelsea Ann Radcliffe Mary Robinson Felicia Hemans Mary Shelley Joanna Baillie Maria Edgeworth Maria Jane Jewsbury Catherine Grace Godwin and Emmeline Fisher

Romanticism and the Rise of English Andrew Elfenbein, 2008-10-30 Named a CHOICE

Outstanding Academic Title for 2009 Romanticism and the Rise of English addresses a peculiar development in contemporary literary criticism the disappearance of the history of the English language as a relevant topic Elfenbein argues for a return not to older modes of criticism but to questions about the relation between literature and language that have vanished from contemporary investigation His book is an example of a kind of work that has often been called for but rarely realized a social philology that takes seriously the formal and institutional forces shaping the production of English This results not only in a history of English but also in a recovery of major events shaping English studies as a coherent discipline This book points to new directions in literary criticism by arguing for the need to reconceptualize authorial agency in light of a broadened understanding of linguistic history

Modernity's Mist Emily Rohrbach, 2015-12-01 Modernity s Mist explores an understudied aspect of Romanticism its future oriented poetics Whereas Romanticism is well known for its relation to the past Emily Rohrbach situates Romantic epistemological uncertainties in relation to historiographical debates that opened up a radically unpredictable and fast approaching future As the rise of periodization made the project of defining the spirit of the age increasingly urgent the changing sense of futurity rendered the historical dimensions of the present deeply elusive While historicist critics often are interested in what Romantic writers and their readers would have known Rohrbach draws attention to moments when these writers felt they could not know the historical dimensions of their own age Illuminating the poetic strategies Keats Austen Byron and Hazlitt used to convey that sense of mystery Rohrbach describes a poetic grammar of future anteriority of uncertainty concerning what will have been Romantic writers she shows do not simply reflect the history of their time their works make imaginable a new way of thinking the historical present when faced with the temporalities of modernity

Romanticism and Time Sophie Laniel-Musitelli, Céline Sabiron, 2021-03-10 Eternity is in love with the productions of time This original edited volume takes William Blake s aphorism as a basis to explore how British Romantic literature creates its own sense of time It considers Romantic poetry as embedded in and reflecting on the march of time regarding it not merely as a reaction to the course of events between the late eighteenth and mid nineteenth centuries but also as a form of creative engagement with history in the making The authors offer a comprehensive overview of the question of time from a literary perspective applying a diverse range of critical approaches to Romantic authors from William

Blake and Percy Shelley to John Clare and Samuel Rogers Close readings uncover fresh insights into these authors and their works including *Frankenstein* the most familiar of Romantic texts Revising current thinking about periodisation the authors explore how the Romantic poetics of time bears witness to the ruptures and dislocations at work within chronological time They consider an array of topics such as ecological time futurity operatic time or the temporality of Venice As well as surveying the Romantic canon's evolution over time these essays approach it as a phenomenon unfolding across national borders Romantic authors are compared with American or European counterparts including Beethoven Irving Nietzsche and Beckett *Romanticism and Time* will be of great value to literary scholars and students working in Romantic Studies It will be of further interest to philosophers and historians working on the connections between philosophy history and literature during the nineteenth century
