Romantic Historiosophy The Philosophy Of:

A Romantic Historiosophy Arthur McCalla, 1998-01-01 This intellectual history study locates the philosophy of history of Pierre Simon Ballanche 1776 1847 within the intellectual religious and social life of Restoration and July Monarchy France and argues for the recognition of Ballanche as an important contributor to that milieu Its four parts blend the topical and evolutionary approaches analyzing dominant themes as they are developed across Ballanche s works and charts Ballanche s complex relation of dependence and independence to the various intellectual currents of the period This study clarifies the thought of a notoriously obscure thinker illuminates the intellectual history of early nineteenth century France and demonstrates how Ballanche s project for religio social regeneration effected a crucial step in the historical mindedness of the Romantic period

The Romantic Machine John Tresch, 2022-12-22 In the years immediately following Napoleon s defeat French thinkers in all fields set their minds to the problem of how to recover from the long upheavals that had been set into motion by the French Revolution Many challenged the Enlightenment s emphasis on mechanics and questioned the rising power of machines seeking a return to the organic unity of an earlier age and triggering the artistic and philosophical movement of romanticism Previous scholars have viewed romanticism and industrialization in opposition but in this groundbreaking volume John Tresch reveals how thoroughly entwined science and the arts were in early nineteenth century France and how they worked together to unite a fractured society Focusing on a set of celebrated technologies including steam engines electromagnetic and geophysical instruments early photography and mass scale printing Tresch looks at how new conceptions of energy instrumentality and association fueled such diverse developments as fantastic literature popular astronomy grand opera positivism utopian socialism and the Revolution of 1848 He shows that those who attempted to fuse organicism and mechanism in various ways including Alexander von Humboldt and Auguste Comte charted a road not taken that resonates today Essential reading for historians of science intellectual and cultural historians of Europe and literary and art historians *The Romantic Machine* is poised to profoundly alter our understanding of the scientific and cultural landscape of the early nineteenth century

Religion and the Post-revolutionary Mind Arthur McCalla, 2023-03-15 The French Revolution swept away the Old Regime along with many of its ideas about epistemology history society and politics In the intellectual ferment that followed debates about religion figured prominently as diverse thinkers grappled with the philosophical and civil status of religion in a post revolutionary age Arthur McCalla demonstrates the central place of religion in the intellectual life of post revolutionary France in *Religion and the Post revolutionary Mind* Certain questions What is the nature of religion Does society rest on religious foundations What ought to be the place of religion in society drew sustained attention from across the political spectrum Id ologues viewed religion as error and sought to eradicate it through the promotion of secular values Catholic Traditionalists understood religion as a body of revealed truths of supernatural origin that ought to be authoritative in all aspects of life Liberals sought to replace Christian orthodoxy with a new public faith

consonant with liberal values But these blocs were not monolithic and McCalla reveals the complexities of each one as well as the dialogues and rivalries among them The categories established by the concepts of religion these thinkers constructed continue to shape debates over liberationist critiques liberal pluralism la cit and political theology The place of religion in civil society is again a matter of urgent debate Religion and the Post revolutionary Mind provides essential historical context for thinking about the status of religion in the contemporary world **"The Artist and the State, 1777?855 "** Daniel R. Guernsey, 2017-07-05 The Artist and the State 1777 1855 The Politics of Universal History in British French Painting is the first book length study to examine political uses of universal history or the philosophy of history in European art from 1777 to 1855 Daniel R Guernsey discusses a range of mural paintings and sculptural works produced in England and France between the American Revolution and the Universal Exposition of 1855 comparing the ways artists such as James Barry Eug Delacroix Paul Chenavard David d Angers and Gustave Courbet expressed linear or cyclical histories of progress and decline By considering the work of these important European artists together he reveals not only the rich artistic interaction that took place between England and France as well as Germany at this time but also how the notion of universal history was to become a major preoccupation in the work of these individual artists each one participating in shaping a highly significant mode of eighteenth and nineteenth century political art *Esotericism and the Academy* Wouter J. Hanegraaff, 2012-01-19 The neglected history of how intellectuals since the Renaissance have approached ideas of the occult which challenged biblical religion From Paris to Pompeii Göran Blix, 2013-09-04 In the early nineteenth century as amateur archaeologists excavated Pompeii Egypt Assyria and the first prehistoric sites a myth arose of archaeology as a magical science capable of unearthing and reconstructing worlds thought to be irretrievably lost This timely myth provided an urgent antidote to the French anxiety of amnesia that undermined faith in progress and it armed writers from Chateaubriand and Hugo to Michelet and Renan with the intellectual tools needed to affirm the indestructible character of the past From Paris to Pompeii reveals how the nascent science of archaeology lay at the core of the romantic experience of history and shaped the way historians novelists artists and the public at large sought to cope with the relentless change that relegated every new present to history In postrevolutionary France the widespread desire to claim that no being city culture or language was ever definitively erased ran much deeper than mere nostalgic and reactionary impulses G ran Blix contends that this desire was the cornerstone of the substitution of a weak secular form of immortality for the lost certainties of the Christian afterlife Taking the iconic city of Pompeii as its central example and ranging widely across French romantic culture this book examines the formation of a modern archaeological gaze and analyzes its historical ontology rhetoric of retrieval and secular theology of memory before turning to its broader political implications **Handbook of Spiritualism and Channeling** , 2015-03-31 Bringing together scholars from different disciplines and geographies the Brill Handbook of Spiritualism and Channeling presents modern spirit possession in a variety of contexts Weaving together the interrelated movements of Spiritualism along

with its specific Franco and Latin American currents articles explore the nineteenth century beginnings of séances and trance mediumship Channelling an heir to Spiritualism begun in the 1970s and still flourishing today is brought into direct conversation with its predecessors with a view to showing both continuity and disjuncture as the products of new cultural and religious needs The Brill Handbook marks the first extensive collection on these two interrelated movements and examines themes such as gender race performance and technology in each instance Secular Spirituality Lynn L. Sharp, 2006-01-01 Secular Spirituality challenges the traditional dichotomy between Enlightenment reason and religion It follows French romantic socialists and spiritists search for a new spirituality based on reincarnation as a path to progress for individuals and society Leaders like Allan Kardec argued for social reform spiritist groups strove for equality and women mediums challenged gender roles Lynn L. Sharp looks closely at what it meant to practice spiritism analysing the movement's social and political critique and explaining the popularity of the new belief She explores points of convergence and conflict in the interplay between spiritism and science spiritism and psychology and spiritism and the Catholic church to argue that the nineteenth century was not as disenchanted as has been thought Secular Spirituality successfully places spiritism within a larger cultural conversation going beyond the leaders of the movement to look at the way spiritism functioned for its followers **After Kant** Michael Sonenscher, 2023-07-11 Tracing the origins of modern political thought through three sets of arguments over history morality and freedom In this wide ranging work Michael Sonenscher traces the origins of modern political thought and ideologies to a question raised by Immanuel Kant about what is involved in comparing individual human lives to the whole of human history How can we compare them or understand the results of the comparison Kant's question injected a new future oriented dimension into existing discussions of prevailing norms challenging their orientation toward the past This reversal made Kant's question a bridge between three successive sets of arguments between the supporters of the ancients and moderns the classics and romantics and the Romans and the Germans Sonenscher argues that the genealogy of modern political ideologies from liberalism to nationalism to communism can be connected to the resulting discussions of time history and values mainly in France but also in Germany Switzerland and Britain in the period straddling the French and Industrial revolutions What is the genuinely human content of human history Everything begins somewhere democracy with the Greeks or the idea of a res publica with the Romans but these local arrangements have become vectors of values that are apparently universal The intellectual upheaval that Sonenscher describes involved a struggle to close the gap highlighted by Kant between individual lives and human history After Kant is an examination of that struggle's enduring impact on the history and the historiography of political thought **Restoring the Temple of Vision** Marsha Keith Schuchard, 2002-01-01 This book uncovers the early Jewish Scottish and Stuart sources of ancient Cabalistic Freemasonry Drawing on architectural technological political and religious documents it provides the historical context for Masonic traditions of visionary Temple building and mystical fraternity **Magic and Divination at the Courts of Burgundy and**
