The Romantic Imagination Frederick Burwick, Jürgen Klein, 1996 **Die Wende Von Der Aufklärung Zur Romantik 1760-1820** Horst Albert Glaser, György Mihály Vajda, 2000 This volume is the twelfth to date in a series of works in French or English presenting the epochs and movements of a Comparative History of Literatures in European Languages *Histoire Comparée des Littératures de Langues Européennes* The original intention of the editors was to publish a four volume history of European literature from 1760 1820 and the first of these volumes *Des Lumières au Romantisme Genres en Vers* appeared as long ago as 1982 The volumes *Genres en Prose* and *Théâtre* are still awaited In their absence the present volume *Epoche im _berblick* attempts a more comprehensive and rigorous treatment of the period and its historiographical problems than was initially planned providing the reader with an overview of sixty eventful years of European literary history years in which German Classicism coincided with the birth initially in Germany and England of Romanticism And at the centre of this turbulent period of European intellectual and literary history stands the French Revolution **The Evidence of the imagination** Donald H. Reiman, Michael C. Jaye, Betty T. Bennett, 1978 *Neoclassical Satire and the Romantic School 1780-1830* Rolf P. Lessenich, 2012 Romanticism was not only heterogeneous and disunited It also had to face the hostile counter movement of the Enlightenment and Augustan Neoclassicism still going strong at the time of and in the decades following the French Revolution due to support from the ruling Establishment the ancien régime of the Crown and Church of England Neoclassicists regarded Romanticism as a heteretical amalgam of dissenting new schools which threatened the monopoly of the Classical Tradition The acrimonious debates in aesthetics and politics were conducted with the traditional strategies of the classical *ars disputandi* on both sides Under the duress of the heaviest satirical attacks Romanticism began gradually to see itself as one movement giving rise to the problematic opposition of Classical and Romantic The construction of this rough divide however was indispensable for the clarification of different positions in the hubbub of conflicting voices and has also proved critical in literary and cultural studies which cannot do without such subsumptions The Classical Tradition encompassing Christianity emerges as an ongoing event from Greek and Latin antiquity running through to our time **Romanticism and Visuality** Sophie Thomas, 2007-12-12 This book investigates the productive crosscurrents between visual culture and literary texts in the Romantic period focusing on the construction and manipulation of the visual the impact of new visual media on the literary and historical imagination and on fragments and ruins as occupying the shifting border between the visible and the invisible It examines a broad selection of instances that reflect debates over how seeing should itself be viewed instances from Daguerre's Diorama to the staging of Coleridge's play *Remorse* to the figure of the Medusa in Shelley's poetry and at the Phantasmagoria in which the very act of seeing is represented or dramatized In reconsidering literary engagements with the expanding visual field this study argues that the popular culture of Regency Britain reflected not just emergent and highly capitalized forms of mass entertainment but also a lively interest in the

aesthetic and conceptual dimensions of looking What is commonly thought to be the Romantic resistance to the visible gives way to a generative fascination with the visual and its imaginative even spectacular possibilities *Wordsworth Translated* John Williams, 2011-11-03 British writers of the Romantic Period were popular in Germany throughout the nineteenth century and translations of Scott Burns Moore Hemans and Byron among others became widespread This study analyses the reception of William Wordsworth's poetry in 19th century Germany in relation to other romantic poets Research into Anglo-German cultural relations has tended to see Wordsworth as of little or no interest to Germany but new research shows that Wordsworth was clearly of interest to German poets translators and readers and that there was significantly more knowledge of and respect for Wordsworth's poetry and interest in his ideas and beliefs than has previously been recognised Williams focuses particularly on the work of Friedrich Jacobsen Ferdinand Freiligrath and Marie Gothein who span the early middle and late years of the century respectively and establishes the wider presence of many others translating anthologising and commenting on Wordsworth poetry and beliefs

Medusa David Leeming, 2013-06-01 With her repulsive face and head full of living venomous snakes Medusa is petrifying quite literally since looking directly at her turned people to stone Ever since Perseus cut off her head and presented it to Athena she has been a woman of many forms a dangerous female monster that had to be destroyed an erotic power that could annihilate men and thanks to Freud a woman whose hair was a nest of terrifying penises that signaled castration She has been immortalized by artists from Leonardo da Vinci to Salvador Dal and was the emblem of the Jacobins after the French Revolution Today she's viewed by feminists as a noble victim of patriarchy and used by Versace in the designer's logo for men's underwear haute couture and exotic dinnerware She even gives her name to a sushi roll on a Disney resort menu Why does Medusa continue to have this power to transfix us David Leeming seeks to answer this question in *Medusa* a biography of the mythical creature Searching for the origins of Medusa's myth in cultures that predate ancient Greece Leeming explores how and why the mythical figure of the gorgon has become one of the most important and enduring ideas in human

history From an oil painting by Caravaggio to Clash of the Titans and Dungeons and Dragons he delves into the many depictions of Medusa ultimately revealing that her story is a cultural dream that continues to change and develop with each new era Asking what the evolution of the Medusa myth discloses about our culture and ourselves this book paints an illuminating portrait of a woman who has never ceased to enthrall

Mapping St. Petersburg Julie A. Buckler, 2018-06-05 Pushkin s palaces or Dostoevsky s slums Many a modern day visitor to St Petersburg has one or more likely both of these images in mind when setting foot in this stage set like setting for some of the world s most treasured literary masterpieces What they overlook is the vast uncharted territory in between In *Mapping St Petersburg* Julie Buckler traces the evolution of Russia s onetime capital from a conceptual hierarchy to a living cultural system a topography expressed not only by the city s physical structures but also by the literary texts that have helped create it By favoring noncanonical works and underdescribed spaces Buckler seeks to revise the literary monumentalization of St Petersburg with Pushkin and Dostoevsky representing two traditional albeit opposing perspectives to offer an off center view of a richer less familiar urban landscape She views this grand city the product of Peter the Great s ambitious vision not only as a geographical entity but also as a network of genres that carries historical and cultural meaning We discover the busy messy middle ground of this hybrid city through an intricate web of descriptions in literary works nonfiction writings such as sketches feuilletons memoirs letters essays criticism and urban legends lore songs and social practices all of which add character and depth to this refurbished imperial city

Dark Romanticism Silvia Riccardi, 2025-07-10 This book explores the dark regions of Romantic imagination in late

eighteenth and early nineteenth century literature and art It uncovers the palpable and pleasing anxiety about the human body in the works of Henry Fuseli William Blake and Mary Shelley focusing on the negotiations of pleasure and pain life and death beauty and monstrosity Each of the works examined revolves in some manner around the breakdown of an idealized body in order to illuminate the transition from organic to fragmented form This approach involves reorienting conventional accounts of Romanticism around the emergence of a visual paradigm Engaging with cultures of print aesthetic discourse anatomical art as well as natural historical knowledge circulating in England at the turn of the century Dark Romanticism cultivates visual literacy and argues that literary and pictorial elements are inseparable when imagination is at work

To Write as a Boxer Kurt Campbell, 2019-04-18 This book recuperates the narrative of Andrew Jephtha a Cape Town born boxer who was the first black fighter to win a British welterweight title in 1907 As a result of that victory Jephtha was permanently blinded and took to preparing a book titled A South African Boxer in Britain 1910 This volume explores the relationship between the life of a pugilist and his textual production and locates the complex negotiations of a pugilist by situating Jephtha in a larger arc of the care of the self extending from Greco Roman aesthetics to the present In the process it investigates the strategies of care that were integral to opposing confronting and living in the increasingly racialised world of the early 1900s

The Final Curtain Harry Garlick, 2023-11-20 Death is the one subject about which our culture is still reticent Consequently many ceremonies about death are not examined in an open enquiring and direct way The state funeral that large public ritualized statement about death is accepted in our society while its deeper significances remain unexamined because it is seen as something of an historical curiosity a survival from an earlier age associated with the traditions of that society This well illustrated study of a number of state funerals of the Medicis and the Habsburgs in the Renaissance of the Duke of Albemarle in the seventeenth century of the Duke of Wellington and Abraham Lincoln in the nineteenth century and of President Kennedy and Diana Princess of Wales in the twentieth century and the mythical structures and traditions they represent examines two aspects in particular the strongly political undertones of the public statements and the theatrical elements of the public ritual

The Unfamiliar Shelley Timothy Webb, 2016-12-05 Stimulated by new editions of Shelley s writings and the evidence of notebooks the editors have assembled an outstanding group of international Shelley scholars to work through the implications of recent advances in scholarship With particular attention to texts that have been neglected or underestimated the contributors consider many important aspects of Shelley s prolific and remarkably diverse output including the verse letter plays prose essays satire pamphlets political verse romance prefaces translations from the Greek prose style artistic representations fragments and early writings Revaluations of Shelley s youthful works often criticized for their over exuberance pay dividends as they reveal Shelley s early maturation as a writer and also shed light on his later achievement Taken as a whole the collection makes evident that Shelley s reputation has been based largely on surprisingly imperfect and incomplete edited publications driven by Victorian taste and culture A writer very different from the one we

thought we knew emerges from these essays which are sure to inspire more reappraisals of Shelley's work **The Return of Nature** Preston Cohen, Erika Naginski, 2014-07-09 The Return of Nature asks you to critique your conception of nature and your approach to architectural sustainability and green design What do the terms mean Are they de facto design requirements Or are they unintended design replacements The book is divided into five parts giving you multiple viewpoints on the role of the relations between architecture nature technology and culture A detailed case study of a built project concludes each part to help you translate theory into practice This holistic approach will allow you to formulate your own theory and to adjust your practice based on your findings Will you provoke change design architecture that responds to change or both Coedited by an architect and a historian the book features new essays by Robert Levit Catherine Ingraham Sylvia Lavin Barry Bergdoll K Michael Hays Diane Lewis Andrew Payne Mark Jarzombek Jean Francois Chevrier Elizabeth Diller Antoine Picon and Jorge Silvetti Five case studies document the work of MOS Architects Michael Bell Architecture Steven Holl Architects George L Legendre and Preston Scott Cohen **Encyclopedia of Life Writing** Margaretta Jolly, 2013-12-04 First published in 2001 This is the first substantial reference work in English on the various forms that constitute life writing As this term suggests the Encyclopedia explores not only autobiography and biography proper but also letters diaries memoirs family histories case histories and other ways in which individual lives have been recorded and structured It includes entries on genres and subgenres national and regional traditions from around the world and important auto biographical writers as well as articles on related areas such as oral history anthropology testimonies and the representation of life stories in non verbal art forms
