Browning, Victorian Poetics and the Romantic Legacy Dr Britta Martens, 2013-05-28 Taking an original approach to Robert Browning's poetics Britta Martens focuses on a corpus of relatively neglected poems in Browning's own voice in which he reflects on his poetry his self conceptualization and his place in the poetic tradition She analyzes his work in relation to Romanticism Victorian reactions to the Romantic legacy and wider nineteenth century changes in poetic taste to argue that in these poems as in his more frequently studied dramatic monologues Browning deploys varied dramatic methods of self representation often critically and ironically exposing the biases and limitations of the seemingly authoritative speaker Browning The poems thus become devices for Browning's detached evaluation of his own and of others poetics an evaluation never fully explicit but presented with elusive economy for the astute reader to interpret The confrontation between the personal authorial voice and the dramatic voice in these poems provides revealing insights into the poet's highly self conscious conflicted and sustained engagement with the Romantic tradition and the diversely challenging reader expectations that he faces in a post Romantic age As the Victorian most rigorous in his rejection of Romantic self expression Browning is a key transitional figure between the sharply antagonistic periods of Romanticism and Modernism He is also as Martens persuasively demonstrates a poet of complex contradictions and an illuminating case study for addressing the perennial issues of voice authorial authority and self reference

The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration. The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves into Modernism. A glance at the index of each volume quickly reveals the extraordinary richness of the series' total contents. Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross-cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams. Romantic Drama traces creative innovations that deeply altered the understanding of genre at large, fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd. Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments. Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse, including Romanticism's own self-commentary in theoretical statements on the arts, society, life, the sciences, and more. Nor are the discursive dimensions of imaginative literature neglected in the closing volume, Romantic Prose Fiction, where the basic Romantic themes and story types—the romance, the novel, the novella, the short story, and other narrative forms—are considered throughout Europe and the New World. This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations. As an aid to readers, the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix. No other series exists comparable to these volumes, which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries, a heritage still very close to our age.
