**Romantic Writing and the Empire of Signs** Karen Fang, 2010-02-02 Nineteenth century periodicals frequently compared themselves to the imperial powers then dissecting the globe and this interest in imperialism can be seen in the exotic motifs that surfaced in works by such late Romantic authors as John Keats Charles Lamb James Hogg Letitia Landon and Lord Byron Karen Fang explores the collaboration of these authors with periodical magazines to show how an interdependent relationship between these visual themes and rhetorical style enabled these authors to model their writing on the imperial project Fang argues that in the decades after Waterloo late Romantic authors used imperial culture to capitalize on the contemporary explosion of periodical magazines This proliferation of post Napoleonic writing often referencing exotic locales both revises longstanding notions about literary orientalism and reveals a remarkable synthesis of Romantic idealism with contemporary cultural materialism that heretofore has not been explored Indeed in interlocking case studies that span the reach of British conquest ranging from Greece China and Egypt to Italy and Tahiti Fang challenges a major convention of periodical publication While periodicals are usually thought to be defined by time this account of the geographic attention exerted by late Romantic authors shows them to be equally concerned with space With its exploration of magazines and imperialism as a context for Romantic writing culture and aesthetics this book will appeal not only to scholars of book history and reading cultures but also to those of nineteenth century British writing and history

Haywood,2006-10-26 This book studies the impact of violence on the writing of the Romantic period The focus is on the response of writers to a series of violent events including the revolutions in America and France and the Irish rebellion of 1798 Authors covered include Coleridge Wordsworth Scott Byron Fennimore Cooper Equiano and Helen Maria Williams      Literary Research and the British Romantic Era Peggy Keeran,Jennifer Bowers,2005-10-20 The British Romantic era ca 1775 1830 was a time of contradictions of growth and of diversity in all aspects of English life Romanticism originally referred to the works of six male poets Wordsworth Blake Shelley Coleridge Keats and Byron However current scholarly attempts to demonstrate that the period encompasses a rich and varied range of poets essayists and novelists of both genders have caused the definition to come under debate Not limiting itself to these six figures Literary Research and the British Romantic Era discusses English Scottish Irish and Welsh resources for both primary and secondary research within the Romantic Era including general literary research guides union library catalogs print and online bibliographies manuscripts and archives microfilm and digitization projects eighteenth and nineteenth century journals and newspapers contemporary reviews and electronic texts journals and Web resources Each chapter addresses the best methods to extract relevant information from the research tools employed enabling scholars to find relevant materials The strengths and weakness of core and specialized electronic and print research tools and standard search techniques are also examined      **Style and the Nineteenth-Century British Critic** Professor Jason Camlot,2013-04-28 In analyzing the nonfiction works of writers such as John Wilson J S Mill De Quincy Ruskin Arnold Pater and Wilde Jason Camlot provides an important context for the nineteenth century critic s changing ideas about style rhetoric and technologies of communication In particular Camlot contributes to our understanding of how new print media affected the Romantic and Victorian critic s sense of self as he elaborates the ways nineteenth century critics used their own essays on rhetoric and stylistics to speculate about the changing conditions for the production and reception of ideas and the formulation of authorial character Camlot argues that the early 1830s mark the moment when a previously coherent tradition of pragmatic rhetoric was fragmented and redistributed into the diverse localized sites of an emerging periodicals market Publishing venues for writers multiplied

at midcentury establishing a new stylistic norm for criticism one that affirmed style as the manifestation of English discipline and objectivity The figure of the professional critic soon subsumed the authority of the polyglot intellectual and the later decades of the nineteenth century brought about a debate on aesthetics and criticism that set ideals of Saxon rooted virile style against more culturally inclusive theories of expression

**Romantic Atheism** Martin Priestman, 2000-01-27 Romantic Atheism explores the links between English Romantic poetry and the first burst of outspoken atheism in Britain from the 1780s onwards Martin Priestman examines the work of Blake Coleridge Wordsworth Shelley Byron and Keats in their most intellectually radical periods establishing the depth of their engagement with such discourses and in some cases their active participation Equal attention is given to less canonical writers such poet intellectuals as Erasmus Darwin Sir William Jones Richard Payne Knight and Anna Laetitia Barbauld and controversialists including Holbach Volney Paine Priestley Godwin Richard Carlile and Eliza Sharples these last two in particular representing the close links between punishably outspoken atheism and radical working class politics Above all the book conveys the excitement of Romantic atheism whose dramatic appeals to new developments in politics science and comparative mythology lend it a protean energy belied by the common and more recent conception of loss of faith

**Madness and the Romantic Poet** James Whitehead, 2017 Madness and the Romantic Poet examines the longstanding and enduringly popular idea that poetry is connected to madness and mental illness The idea goes back to classical antiquity but it was given new life at the turn of the nineteenth century The book offers a new and much more complete history of its development than has previously been attempted alongside important associated ideas about individual genius creativity the emotions rationality and the mind in extreme states or disorder ideas that have been pervasive in modern popular culture More specifically the book tells the story of the initial growth and wider dissemination of the idea of the Romantic mad poet in the nineteenth century how and why this idea became so popular and how it interacted with the very different fortunes in reception and reputation of Romantic poets their poetry and attacks on or defences of Romanticism as a cultural trend generally again leaving a popular legacy that endured into the twentieth century Material covered includes nineteenth century journalism early literary criticism biography medical and psychiatric literature and poetry A wide range of scientific and pseudoscientific thinkers are discussed alongside major Romantic authors including Wordsworth Coleridge Blake Hazlitt Lamb Percy Bysshe Shelley Keats Byron and John Clare Using this array of sources and figures the book asks was the Romantic mad genius just a sentimental stereotype or a romantic myth Or does its long popularity tell us something serious about Romanticism and the role it has played or has been given in modern culture

Romanticism and Caricature Ian Haywood, 2013-10-24 Ian Haywood explores the Golden Age of caricature through the close reading of key iconic prints by artists including James Gillray George and Robert Cruikshank and Thomas Rowlandson This approach both illuminates the visual and ideological complexity of graphic satire and demonstrates how this art form transformed Romantic era politics into a unique and compelling spectacle of corruption monstrosity and resistance New light

is cast on major Romantic controversies including the revolution debate of the 1790s the impact of Thomas Paine's infidel Age of Reason the introduction of paper money and the resulting explosion of executions for forgery the propaganda campaign against Napoleon the revolution in Spain the Peterloo massacre the Queen Caroline scandal and the Reform Bill crisis Overall the volume offers important new insights into the relationship between art satire and politics in a key period of history

**Law, Equity and Romantic Writing** Michael Demson, Regina Hewitt, 2024-09-30 This provocative and timely volume examines the activity of seeking justice through literature during the age of revolutions from 1750 to 1850 a period which was marked by efforts to expand political and human rights and to rethink attitudes towards poverty and criminality While the chapters revolve around legal topics they concentrate on literary engagements with the experience of the law revealing how people perceived the fairness of a given legal order and worked with and against regulations to adjust the rule of law to the demands of conscience The volume updates analysis of this conflict between law and equity by drawing on the concept of epistemic injustice to describe the harm done to personal identity and collective flourishing by the uneven distribution of resources and the wish to punish breaches of order It shows how writing and reading can foment inquiries into the meanings of justice and equity and aid efforts to humanise the rule of law

Intellectual Politics and Cultural Conflict in the Romantic Period Alex Benichol, 2016-05-23 Intellectual Politics and Cultural Conflict in the Romantic Period maps the intellectual formation of English plebeian radicalism and Scottish philosophic Whiggism over the long eighteenth century and examines

their associated strategies of critical engagement with the cultural social and political crises of the early nineteenth century. It is a story of the making of a wider British public sphere out of the agendas and discourses of the radical and liberal publics that both shaped and responded to them. When juxtaposed these competing intellectual formations illustrate two important expressions of cultural politics in the Romantic period as well as the peculiar overlapping of national cultural histories that contributed to the ideological conflict over the public meaning of Britain's industrial modernity. Alex Benchimol's study provides an original contribution to recent scholarship in Romantic period studies centred around the public sphere recovering the contemporary debates and national cultural histories that together made up a significant part of the ideological landscape of the British public sphere in the early nineteenth century. The Eighteenth-century Novel, 2001

Biographical Misrepresentations of British Women Writers Brenda Ayres, 2017-11-08. This book is an investigation of the biases, contradictions, errors, ambiguities, gaps and historical contexts in biographies of controversial British women who published during the long nineteenth century; many of them left unchecked and perpetuated from publication to publication. Fourteen scholars analyze the agenda, problems and strengths of biographical material, highlighting the flaws, deficiencies and influences that have distorted the portraits of women such as Lady Mary Wortley Montagu, Mary Wollstonecraft, Mary Hays, Sydney Owenson, Letitia Elizabeth Landon, Felicia Hemans, Elizabeth Barrett Browning, Caroline Norton, Elizabeth Gaskell, Charlotte Brontë, Lady Florence Dixie, George Eliot and Edith Simcox. Through exposing distortions, this fascinating study demonstrates that biographies are often more about the biographer than they are about the biographee and that they are products of the time in which they are written. *The Revolution in Popular Literature* Ian Haywood, 2004-07-08. This book takes a new look at the evolution of popular literature in Britain in the Romantic and Victorian periods. Making use of a wide range of archival and primary sources, he argues that radical politics played a decisive role in the transformation of popular literature. By charting the key moments in the history of cheap literature, the book casts new light on the many neglected popular genres and texts: the pig's meat anthology, the female-authored didactic tale and Chartist fiction. **The Romantic Era Literary Preface** Mary Herrington-Perry, 2001
