Romantic South:

Faulkner's Media Romance Julian Murphet, 2017-07-13 This book treats William Faulkner's major fiction from *Flags in the Dust* through to *Absalom Absalom* to a searching reappraisal under the spotlight of a media historical inquiry. It proposes that Faulkner's inveterate attraction to the paradigms of romance was disciplined and masked by the recurrent use of metaphorical figures borrowed from the new media ecology. Faulkner dressed up his romance materials in the technological garb of radio, gramophone, photography and cinema along with the transportational networks of road and air that were being installed in the 1920s. His modernism emerges from a fraught but productive interplay between his anachronistic predilection for chivalric clichés and his extraordinarily knowledgeable interest in the most up to date media institutions and forms. Rather than see Faulkner as a divided author who worked for money in the magazines and studios while producing his serious fiction, in despite of their symbolic economies, this study demonstrates how profoundly his mature art was shot through with the figures and dynamics of the materials he publicly repudiated. The result is a richer and more nuanced understanding of the dialectics of his art.

Romantic Love in Cultural Contexts Victor Karandashev, 2016-12-24 This volume presents a conceptual, historical, anthropological and sociological review of how culture affects our experience and expression of romantic love. What is romantic love and how is it different from and similar to other kinds of love? How is romantic love related to sex and marriage in human history and across contemporary cultures? What cultural factors mediate attraction in love? These are some of the questions the volume explores through its interdisciplinary yet focused lens. Much of the current research evidence suggests that love is a universal emotion experienced by a majority of people in various historical eras and in all the world's cultures. Yet love displays in different ways because culture has an impact on people's conceptions of love and the ways they feel, think and behave in romantic relationships. This volume summarizes classical knowledge on love and culture while at the same time focusing sharply on recent studies and cutting edge research that has advanced the field. Divided into three parts, the volume begins by defining and analyzing the concept of romantic love and interdisciplinary approach to its study in cultural context. Part II traces the origin and evolution of romantic love both in various places throughout the world and various time periods throughout history. Part III presents the revolutionary expansion of romantic love ideas and practices in the late 20th and early 21st centuries in various parts of the world, focusing particularly on the development of romantic love as a cultural ideal of the modern cultures. Finally, the book concludes by summarizing the major achievements in this field of study and predicts future development. A timely and thoughtful addition to the literature, *Romantic Love in Cultural Contexts* delivers thought-provoking insights to researchers in relationship scholarship, sociology, anthropology and cultural studies and all those interested in the universal human concept of love. Overall, I find Dr Victor Karandashev is an excellent and fine scholar who has a firm grasp of both the fundamental principles of cross-cultural research and of anthropology. In our increasingly connected world, *Romantic Love in Cultural Contexts* updates and adds to

the descriptions and explanations of similarities and differences in romantic love across generations and cultures Romantic love encompasses the life span rather than being a phenomenon largely confined to youthful years The topic of this project concerns the deepest of our sentiments and pervades life from birth to death This book contributes to better knowledge of this phenomenon across generations Flix Neto Professor of Psychology Faculdade de Psicologia e de Ciências da Educação Universidade do Porto Portugal **The Romance of Authenticity** Jeff Karem, 2004 To what extent has the demand for a vicarious experience of other cultures fuelled the expectation that the most important task for writers is to capture and convey authentic cultural material This text argues that authenticity is in fact a restrictive category of literary judgment

Forces in American Criticism Bernard Smith,1971 **Gunfight at the Eco-Corral** Robin L. Murray,Joseph K. Heumann,2012-10-01 Most film critics point to classic conflicts good versus evil right versus wrong civilization versus savagery as defining themes of the American Western In this provocative examination of Westerns from *Tumbleweeds* 1925 to *Rango* 2011 Robin L Murray and Joseph K Heumann argue for a more expansive view that moves beyond traditional conflicts to encompass environmental themes and struggles The environment after all is the fundamental stage for most western stories from land rush dramas that pit sod busters against ranchers to conflicts between mining town communities and corporations Because environmental issues lie at the forefront of so many conflicts today Murray and Heumann believe that the Western is ripe for such new examination Drawing on perspectives from both film studies and environmental history the authors show how western films frequently deal with issues related to land use and different ways of looking at the natural world In films as diverse as Gene Autry musicals early John Wayne B Westerns and revisionist critiques such as the 2010 remake of *True Grit* resources are exploited in the name of progress Beginning with an analysis of two iconic Westerns *Shane* and *The Searchers* Murray and Heumann identify the environmental dichotomies previously overlooked by critics that are broached in both films and they clarify the history that lies behind the environmental debates in these films and many others How do Westerns respond to the historical contexts they present And what do those responses suggest about American views of nature and its exploitation The conflicts these movies address grow out of differing views of progress

frequently in relation to technology The authors show that such binary oppositions tend to blur when examined closely demonstrating that environmental issues are often more complex than we realize
