Romanticism and the Human Sciences Maureen N. McLane, 2000-09-14 This study published in 2000 examines the dialogue between Romantic poetry and the human sciences of the period Maureen McLane reveals how Romantic writers participated in a new found consciousness of human beings as a species by analysing their work in relation to discourses on moral philosophy political economy and anthropology Writers such as Wordsworth Coleridge Mary Shelley and Percy Shelley explored the possibilities and limits of human being language and hope They engaged with the work of theorists of the human sciences Malthus Godwin and Burke among them The book offers original readings of canonical works including Lyrical Ballads Frankenstein and Prometheus Unbound to show how the Romantics internalised and transformed ideas about the imagination perfectibility immortality and population which so energised contemporary moral and political debates McLane provides a defence of poetry in both Romantic and contemporary theoretical terms reformulating the predicament of Romanticism in general and poetry in particular Romanticism Carmen Casaliggi, Porscha Fermanis, 2016-05-12 The Romantic period coincided with revolutionary transformations of traditional political and human rights discourses as well as witnessing rapid advances in technology and a primitivist return to nature As a broad global movement Romanticism strongly

impacted on the literature and arts of the late eighteenth and early nineteenth centuries in ways that are still being debated and negotiated today Examining the poetry fiction non fiction drama and the arts of the period this book considers Important propositions and landmark ideas in the Romantic period Key debates and critical approaches to Romantic studies New and revisionary approaches to Romantic literature and art The ways in which Romantic writing interacts with broader trends in history politics and aesthetics European and Global Romanticism The legacies of Romanticism in the twentieth and twenty first centuries Containing useful reader friendly features such as explanatory case studies chapter summaries and suggestions for further reading this clear and engaging book is an invaluable resource for anyone who intends to study and research the complexity and diversity of the Romantic period as well as the historical conditions which produced it The Art of Recollection in Jena Romanticism Laurie Ruth Johnson,2015-02-06 This exploration of Romantic depictions of memory as a faculty of body as well as of mind analyzes representations of remembrance in Jena Romantic texts When these texts pose questions about memory s employment and depiction in art about the aestheticization of recollection they reveal serious doubt about the explanatory ability of the philosophical psychological and aesthetic discourses against which Romantic and modern thought is constructed **Romanticism and the Re-Invention of Modern Religion** Alexander J. B. Hampton,2019-01-17 The fundamental concern of Romanticism which brought about its inception determined its development and set its end was the need to create a new language for religion At the Limits of Romanticism Mary A. Favret,Nicola J. Watson,1994 Examines the feminine the domestic the local collective sentimental and novelistic in the Romantic literary canon This book questions romanticism suppression of the feminine the material and the collective and its opposition to readings centering on these concerns **Sexual Politics and the Romantic Author** Sonia Hofkosh,1998-06-18 Exploring a range of early nineteenth century cultural materials from canonical poetry and critical prose to women s magazines and gift book engravings Sexual Politics and the Romantic Author offers new perspectives on the role of gender in Romanticism s defining paradigms of authorship The Romantic author s claim to individual agency is complicated by its articulation in a market system perceived to be impelled in large part by fantasies of female desire by what women read and write what they buy and sell how they look and where they look for pleasure These studies in the contested public spaces of literary labour elaborate the fundamental if invisible function of the woman as embodiment of authorial ambivalence in writing by Austen Byron Coleridge William Hazlitt Sarah Hazlitt Leigh Hunt Keats Mary Shelley William Wordsworth and others **Romanticism and Philosophy** Sophie Laniel-Musitelli,Thomas Constantinesco,2015-05-22 This volume brings together a wide range of scholars to offer new perspectives on the relationship between Romanticism and philosophy The entanglement of Romantic literature with philosophy is increasingly recognized just as Romanticism is increasingly viewed as European and Transatlantic yet few studies combine these coordinates and consider the philosophical significance of distinctly literary questions in British and American Romantic writings The essays in this book are concerned

with literary writing as a form of thinking investigating the many ways in which Romantic literature across the Atlantic engages with European thought from 18th and 19th century philosophy to contemporary theory The contributors read Romantic texts both as critical responses to the major debates that have shaped the history of philosophy and as thought experiments in their own right This volume thus examines anew the poetic philosophy of Wordsworth Coleridge Blake Shelley and Clare also extending beyond poetry to consider other literary genres as philosophically significant such as Jane Austen s novels De Quincey s autofiction Edgar Allan Poe s tales or Emerson s essays Grounded in complementary theoretical backgrounds and reading practices the various contributions draw on an impressive array of writers and thinkers and challenge our understanding not only of Romanticism but also of what we have come to think of as literature and philosophy

**The Literature of German Romanticism** Dennis F. Mahoney, 2004 Sharply focused essays on the most significant aspects of German Romanticism This volume of sharply focused essays by an international team of scholars deals not only with the most significant literary philosophical and cultural aspects of German Romanticism one of the most influential albeit highly controversial movements in the history of German literature but also with the history and status of scholarship on the literature of the period The introduction and first section establish an overall framework by placing German Romanticism within a European context that includes its English counterpart Goethe and Schiller are considered as are the Jena Romantics The second section is organized according to the traditional distinctions between epic dramatic and lyric modes of writing while realizing that particularly in the Romantic novel there was an attempt to blend these three A final group of essays focuses on German literary Romanticism s relation to other aspects of German culture folklore studies politics psychology natural science gender presentation and representation music and visual art Contributors Gerhard Schulz Arnd Bohm Richard Littlejohns Gerhart Hoffmeister Ulrich Scheck Claudia Stockinger Bernadette Malinowski Fabian Lampart Klaus Peter Gabriele Rommel Martha B Helfer Kristina Muxfeldt Beate Allert Paul Bishop and R H Stephenson Nicholas Saul Dennis F Mahoney is Professor of German and Director of the European Studies Program at the University of Vermont

**Romantic Moderns: English Writers, Artists and the Imagination from Virginia Woolf to John Piper** Alexandra Harris, 2010-11-01 Winner of the 2010 Guardian First Book Award a groundbreaking reassessment of English cultural life in the thirties and forties In the 1930s and 1940s while the battles for modern art and modern society were being fought in Paris and Spain it seemed to some a betrayal that John Betjeman and John Piper were in love with a provincial world of old churches and tea shops Alexandra Harris tells a different story eclectically passionately wittily urgently English artists were exploring what it meant to be alive at that moment and in England They showed that the modern need not be at war with the past constructivists and conservatives could work together and even the Bauhaus migr L szl Moholy Nagy was beguiled into taking photos for Betjeman s nostalgic An Oxford University Chest A rich network of personal and cultural encounters was the backdrop for a modern English renaissance This great imaginative project was shared by writers painters gardeners

architects critics and composers Piper abandoned purist abstracts to make collages on the blustery coast Virginia Woolf wrote in her last novel about a village pageant on a showery summer day Evelyn Waugh Elizabeth Bowen and the Sitwells are also part of the story along with Bill Brandt and Graham Sutherland Eric Ravilious and Cecil Beaton **Friedrich Schlegel and the Emergence of Romantic Philosophy** Elizabeth Millán,2012-02-01 This book addresses the philosophical reception of early German Romanticism and offers the first in depth study in English of the movement s most important philosopher Friedrich Schlegel presenting his philosophy against the background of the controversies that shaped its emergence Elizabeth Mill n Zaiibert begins by distinguishing early German Romanticism from classical German Idealism under which it has all too often been subsumed and then explores Schlegel s romantic philosophy and his rejection of first principles by showing how he responded to three central figures of the post Kantian period in Germany Jacobi Reinhold and Fichte as well as to Kant himself She concludes with a comprehensive critique of the aesthetic and epistemological consequences of Schlegel s thought with special attention paid to his use of irony **Classic and Romantic German Aesthetics** J. M. Bernstein,2003 This 2002 volume offers translations of major works of classic and romantic German aesthetics

Post-Political and its Discontents Japhy Wilson,2015-04-29 Our age is celebrated as the triumph of liberal democracy Yet it is also marked by a narrowing of party differences a decline in voter participation a rise in nationalist and religious fundamentalisms and an explosion of popular protests that challenge technocratic governance and the power of markets in the name of democracy itself This book seeks to make sense of this situation by critically engaging with the influential theory of the post political developed by Chantal Mouffe Jacques Ranciere Slavoj Zizek and others Through a multi dimensional and fiercely contested assessment of contemporary depoliticization The Post Political and Its Discontents urges us to confront the closure of our political horizons and to re imagine the possibility of emancipatory change Late Europeans and Melancholy Fiction at the Turn of the Millennium Ian Ellison,2022-04-01 This book is the first comparative study of novels by Patrick Modiano W G Sebald and Antonio Muñoz Molina Drawing on many literary figures movements and traditions from the Spanish Golden Age to German Romanticism to French philosophy via Jewish modernist literature Ian Ellison offers a fresh perspective on European fiction published around the turn of the millennium Reflecting on what makes European fiction European this book examines how certain novels understand themselves to be culturally and historically late expressing a melancholy awareness of how the past and present are irreconcilable Within this framework however it considers how backwards facing tradition oriented self consciousness burdened by a sense of exhaustion in European culture and the violence of its past may yet suggest the potential for re enchantment in the face of obsolescence **Orientalist Poetics** Emily A. Haddad,2017-03-02 Orientalist Poetics is the only book on literary orientalism that spans the nineteenth century in both England and France with particular attention to poetry and poetics It convincingly demonstrates orientalism s centrality to the evolution of poetry and poetics in both nations and provides a singularly comprehensive and definitive analysis of the

aesthetic impact of orientalism on nineteenth century poetry Because it examines the poetry of the entire century across both national literatures the book is in a unique position to articulate the essential part orientalism plays in major developments of nineteenth century poetics Through probing discussions of an array of prominent nineteenth century poets including Shelley Southey Byron Hugo Musset Leconte de Lisle Wordsworth Hemans Gautier Tennyson Arnold and Wilde Emily A Haddad reveals how orientalism functions as a diffuse avant garde a crucial medium for the cultivation and refinement of a broad range of experimental positions on poetry and poetics Haddad argues that while orientalist poems are often viewed mainly as artefacts of European attitudes towards the East and imperialism poetic representations of the Islamic Orient also provide an indispensable matrix for the reexamination of such aesthetically fundamental issues as the purpose of poetry the value of mimesis and the relationship between nature and art *Orientalist Poetics* effectively bridges the gap between the analysis of poetics and the analysis of orientalism In showing that major poetic developments have roots in orientalism Haddad's book offers a valuable and innovative revisionist view of nineteenth century literary history
