Professor of American and African American Studies at Yale University **An American Odyssey** Mary Schmidt Campbell, 2018-08-06 By the time of his death in 1988 Romare Bearden was most widely celebrated for his large scale public murals and collages which were reproduced in such places as Time and Esquire to symbolize and evoke the black experience in America As Mary Schmidt Campbell shows us in this definitive defining and immersive biography the relationship between art and race was central to his life and work a constant driving creative tension Bearden started as a cartoonist during his college years but in the later 1930s turned to painting and became part of a community of artists supported by the WPA As his reputation grew he perfected his skills studying the European masters and analyzing and breaking down their techniques finding new ways of applying them to the America he knew one in which the struggle for civil rights became all absorbing By the time of the March on Washington in 1963 he had begun to experiment with the Projections as he called his major collages in which he tried to capture the full spectrum of the black experience from the grind of daily life to broader visions and aspirations Campbell's book offers a full and vibrant account of Bearden's life his years in Harlem his studio was above the Apollo theater to his travels and commissions along with illuminating analysis of his work and artistic career Campbell who met Bearden in the 1970s was among the first to compile a catalogue of his works An American Odyssey goes far beyond that offering a living portrait of an artist and the impact he made upon the world he sought both to recreate and celebrate

Postcolonial Odysseys Maeve Tynan, 2011-05-25 Postcolonial Odysseys Derek Walcott's Voyages of Homecoming highlights the importance of the trope of voyaging in Derek Walcott's poetics primarily as it pertains to the poet's engagement with classical verse Focusing specifically on the engagement with Homeric myth and The Odyssey in particular it articulates the manner in which Walcott's postcolonial reconfigurations of epic verse both highlights the endurance of the classics as well as demonstrating how cultural practices can remake and transform ancient texts Concomitant with the poet's presentation of self as divided this study traces opposing forces in operation within this trope a centrifugal force that corresponds to the outward journey away from his island home in search of greater publishing opportunities and broader readerships and a centripetal force corresponding to the return journey or homecoming The enabling potential of Greek myth is marked by a similar to-ing and fro-ing in Walcott's verse as he repeatedly engages with and simultaneously disavows

Homeric configurations Insisting on the reciprocal nature of poetic appropriation the act of rewriting also signalling new ways of rereading Walcott's appropriations effectively enter into a critical dialogue with Homeric verse Further depth to Walcott's rewriting of Homer is provided by an analysis of the mediating influence of Euro American modernism Through an examination of the postcolonial aftermath of modernism it challenges the perceived exclusivity of each illustrating this premise through case studies of Walcott's relation to both Romare Bearden and James Joyce This study is therefore interdisciplinary and inter artistic in nature transgressing the borderline between poetry and prose and that of literary and artistic disciplines Highlighting the permeability of such boundaries it investigates the journey of Odysseus as prototypical wanderer through time and space from oral to print culture from word to image **Romare Bearden in Black-and-white** Gail Gelburd, Thelma Golden, Albert Murray, 1997 In 1977 Bearden created a series of 20 collages based on Homer's Odyssey Romare Bearden A Black Odyssey is the first full scale exhibition since their original presentation thirty years ago
