Late Republican Rome, 88-31 BC Federico Santangelo, John Murrell, 2023-07-20 A sourcebook on Late Republican Rome 88 31 BC with a range of translated primary texts to support ancient history students *Leadership and Initiative in Late Republican and Early Imperial Rome* , 2022-02-07 What does it mean to be a leader This collection of seventeen studies breaks new ground in our understanding of leadership in ancient Rome by re evaluating the difference between those who began a political action and those who followed or reacted In a significant change of approach this volume shifts the focus from archetypal leaders to explore the potential for individuals of different ranks social statuses ages and genders to seize initiative In so doing the contributors provide new insight into the ways in which the ability to initiate communication invent solutions and prompt others to act resonated in critical moments of Roman history **A History of Rome During the**

Later Republic and Early Principate Abel Hendy Jones Greenidge, 1905 **Lucretius and the Late Republic** J.D. Minyard, 2018-07-17 The crisis Rome experienced in the last decades of the Republic was intellectual as well as political social and military This crisis was marked by conflicts over values and a growing dichotomy between words and things as a result of which the key words of the Roman tradition lost their anchor in the inherited commonly held perception of reality known as the mos maiorum The crisis was therefore also one of the Latin language itself The monograph explores this thesis in discussions of the background and character of Roman intellectual history the nature of the mos maiorum the relationship of the Late Republic to the Mediterranean world the roles of Julius Caesar Catullus Cicero and Lucretius in the crisis and its

Augustan and later consequences The major portion of the discussion is devoted to Lucretius because the *De Rerum Natura* is the clearest example of the extent and nature of the crisis from which it took its origin and gained its form and purpose A principal goal of the essay is to relate Lucretius to the structure of Roman literary and intellectual history It finds the explanation for his work in the nature of that history and the characteristic Roman modes and categories of thought rather than in the general history of Greek philosophy It also offers a new explanation of the relationship of the authors of the Late Republic to each other In so doing it indicates the foundation for a new history of Roman literature and a new conception of the reality and importance of the intellectual history of Rome

Centre and Periphery in the Ancient World Michael J. Rowlands,Mogens Larsen,Kristian Kristiansen,1987-10-22 This collaborative volume is concerned with long term social change Envisaging individual societies as interlinked and interdependent parts of a global social system the aim of the contributors is to determine the extent to which ancient societies were shaped over time by their incorporation in or resistance to the larger system Their particular concern is the dependent relationship between technically and socially more developed societies with a strong state ideology at the centre and the simpler societies that functioned principally as sources of raw materials and manpower on the periphery of the system The papers in the first part of the book are all concerned with political developments in the Ancient Near East and the notion of a regional system as a framework for analysis Part 2 examines the problems of conceptualising local societies as discrete centres of development in the context of both the Near East and prehistoric Europe during the second millennium BC Part 3 then presents a comprehensive analytical study of the Roman Empire as a single system showing how its component parts often relate to each other in uneven even contradictory ways *The Roman Elite and the End of the Republic* Henrik Mouritsen,2022-12-22 Presents a new understanding of the social and political world of the late republic and the reasons for its fall *The Roman Republic* Matthew Dillon,Christopher Matthew,2020-09-22 Essays exploring the role religion played in ancient Roman warfare including destroying enemies gods wartime ceremonies and live burials Religion was integral to the conduct of war in the ancient world and the Romans were certainly no exception No campaign was

undertaken no battle risked without first making sacrifice to propitiate the appropriate gods such as Mars god of War or consulting oracles and omens to divine their plans Yet the link between war and religion is an area that has been regularly overlooked by modern scholars examining the conflicts of these times This volume addresses that omission by drawing together the work of experts from across the globe The chapters have been carefully structured by the editors so that this wide array of scholarship combines to give a coherent comprehensive study of the role of religion in the wars of the Roman Republic Aspects considered in depth will include declarations of war evocation and taking gods away from enemies dedications and ceremonies the cult of the legionary eagle the role of women in Republican warfare omens and divination live burials of people in times of military crisis and the rituals of the Roman triumph PraiseReligion Classical Warfare The Roman Republic The authors take a novel approach in looking at military history of the Roman Republic in terms of the relationship between warriors and religion The ancient world was driven to a high degree by religious belief even to the point of commanders relying on seers to advise them on the eve of battle Very Highly Recommended Firetrench A work of meticulous and detailed scholarship Midwest Book Review **The Neighborhoods of Augustan Rome** J.
