## **Romisches Reich Deutscher Nation:**

**Heiliges römisches Reich deutscher Nation** Karl Zeumer, 1910      **German Literature, History and the Nation** Christian Emden, David R. Midgley, 2004 This is the second of three volumes based on papers given at the Fragile Tradition conference in Cambridge 2002 Together they provide a conspectus of current research on the cultural historical and literary imagination of the German speaking world across the whole of the modern period This volume highlights the connections between cultural identity and the sense of nationhood which are to be found in literary writing the history of ideas and the interaction between European cultures from the late Middle Ages to the present day It focuses particularly on the way myths of cultural identity are passed on and transformed historically on the fashioning of various models of modern German identity with reference to the cultures of Greece France England and Renaissance Italy on the reflection of 19th century nationalism in literary writing and ideas about language and on the ways in which cultural values have asserted themselves in relation to moments of catastrophe and abrupt political change in the 1920s the 1940s and the 1990s      *The First World War and German National Identity* Jan Vermeiren, 2016-07-18 An innovative study of the impact of the wartime alliance between Imperial Germany and Austria Hungary on German national identity      *The Habsburg Legacy* Ritchie Robertson, Edward Timms, 1994 With the collapse of Communism in Eastern Europe and the break up of the Soviet Union nationalism and its effects are once more at the forefront of attention However to understand more fully what is happening now it is valuable to look back into the past and examine the construction and collapse of the multi national Habsburg Empire After examining how the Holy Roman Empire became the Austrian Empire at the beginning of the nineteenth century this collection of essays charts the subsequent growth of distinctive regional identities in Hungary Galicia Trieste and Croatia before looking at the official attempts to define ethnic identity and what harm resulted from their good intentions Differing constructions of Austrian identity among Jewish novelists women writers and art historians besides the literary works of Hofmannsthal and Musil are then analysed as are the attempts to devise a new Austrian identity under the semi fascist rule of the 1930s and the early years of the post war Second Republic Concluding with a general analysis contrasting the gradual integration of nations in present day western Europe with the dissolution of multi national states in the east Austrian Studies 5 is both a challenging reappraisal of a fallen Empire and a timely reflection of an on going question Book Jacket      **Germany and the Holy Roman Empire** Joachim Whaley, 2012 In the first single author account of German history from the Reformation to the early nineteenth century since Hajo Holborn's study written in the 1950s Dr Whaley provides a full account of the history of the Holy Roman Empire Volume I extends from From Maximilian I to the Peace of Westphalia      **The Legacy of Roman Law in the German Romantic Era** James Q. Whitman, 2014-07-14 Well after the process of codification had begun elsewhere in nineteenth century Europe ancient Roman law remained in use in Germany expounded by brilliant scholars and applied in both urban and rural courts The survival of this flourishing Roman legal culture into the industrial era is a familiar

fact but until now little effort has been made to explain it outside the province of specialized legal history James Whitman seeks to remedy this neglect by exploring the broad political and cultural significance of German Roman law emphasizing the hope on the part of German Roman lawyers that they could in some measure revive the Roman social order in their own society Discussing the background of Romantic era law in the law of the Reformation Whitman makes the great German tradition of legal scholarship more accessible to all those interested in German history Drawing on treatises already known to legal historians as well as on previously unexploited records of legal practice Whitman traces the traditions that allowed nineteenth century German lawyers like Savigny to present themselves as uniquely impartial and unpolitical This book will be of particular interest to students of the many German thinkers who were trained as Roman lawyers among them Marx and Weber Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

*The Holy Roman Empire, Reconsidered* Jason Philip Coy, Benjamin Marschke, David Warren Sabean, 2010-10-01 The Holy Roman Empire has often been anachronistically assumed to have been defunct long before it was actually dissolved at the beginning of the nineteenth century The authors of this volume reconsider the significance of the Empire in the sixteenth seventeenth and eighteenth centuries Their research reveals the continual importance of the Empire as a stage and audience for symbolic performance and communication as a well utilized problem solving and conflict resolving supra governmental institution and as an imagined political religious and cultural world for contemporaries This volume by leading scholars offers a dramatic reappraisal of politics religion and culture and also represents a major revision of the history of the Holy Roman Empire in the early modern period

**The Holy Roman Empire, 1495-1806: A European Perspective**, 2012-07-25 In the early modern period the Holy Roman Empire or Reich was one of the oldest and largest European states Its importance was magnified by its location at the heart of the continent by the extensive international connections of its leading families and by the involvement of foreign rulers in its governance This book breaks new ground in its collective exploration of aspects of cross border and transnational interaction and of political and diplomatic social and cultural relations There are essays on important turning points especially 1648 and 1806 on the patterns of rulership of the emperors themselves on areas which lay on the margin of the Reich on neighbouring countries which interacted with the Empire and on visual and material culture Contributors are Wolfgang Burgdorf Olivier Chaline Heinz Duchhardt Jeroen Duindam Robert Evans Sven Externbrink Robert Frost Lothar Heilmann Thomas DaCosta Kaufmann Petr Materna Nicolette Mout Thomas Munck Grzegorz Palka Adam Perkowski Friedrich Pollero Blythe Alice Raviola Peter Schröder Kim Siebenhütter Peter H Wilson and Thomas Winkelbauer

*Trauma of Defeat* James Martin Skidmore, 2005 This is the first book length study to consider Ricarda Huch's historical political thought and assess Huch's place within the lively historiographical discourses of the 1920s One of the most famous writers of her day Huch 1864-1947 was known for her poetry fiction and histories of German Romanticism and the Thirty Years War Like many of her generation Huch was shaken by Germany's defeat in the First World War and this shock motivated her to use her historiography to address Germany's post war situation Convinced that the German nation possessed an identity best expressed by the ideals of Romanticism Huch attributed Germany's decline to the westernization of German political culture absolutism and centralization had replaced the theoretical perfection of the decentralized early Holy Roman Empire of the German Nation Her Weimar histories of medieval and nineteenth century Germany urged a defeated and traumatized nation to return to a path that had been abandoned during the Wilhelmine Empire Topics explored include Huch's use of Nietzschean monumentalism a comparison with popular historians of the period e.g. E. Kantorowicz the echoes of her political thought in her poetry and fiction and her complex relationship to German nationalism

**World History as the History of Foundations, 3000 BCE to 1500 CE** Michael Borgolte, 2019-10-29 In *World History as the History of Foundations 3000 BCE to 1500 CE* Michael Borgolte investigates the origins and development of foundations from Antiquity to the end of the Middle Ages In his survey foundations emerge not as mere legal institutions but rather as total social phenomena which touch upon manifold aspects including politics the economy art and religion of the cultures in which they emerged Cross cultural in its approach and the result of decades of research this work represents by far the most comprehensive account of the history of foundations that has hitherto been published

**Official Publications of Present-day Germany** Otto Neuburger, 1944

**Transatlantic Images and Perceptions** David E. Barclay, Elisabeth Glaser-Schmidt, 2003-02-13 Over the last two centuries Germans and Americans have been rivals friends opponents and most recently allies This 1997 cross disciplinary collection of essays analyses how German and American views of each other developed and periodically shifted providing a fresh analysis of the often complex German American relationship The images that resulted from encounters between the two countries frequently reflected significant cross currents of the contemporary relations and often foreshadowed important trends The nine German and eight American contributors to this volume analysed travelogues private letters diaries diplomatic reports and newspaper articles from the wake of US independence through the reunification of Germany and also post 1945 movies that reflect these cross cultural encounters and illustrate how political agendas prejudices stereotypes and pragmatic forces influenced individual group and mass perceptions of the other society

**Germany: The Long Road West** Heinrich August

Winkler,2006-10-12 Vivid succinct and highly accessible Heinrich Winkler's magisterial history of modern Germany offers the history of a nation and its people through two turbulent centuries It is the story of a country that while always culturally identified with the West long resisted the political trajectories of its neighbours This first volume of two begins with the origins and consequences of the medieval myth of the Reich which was to experience a fateful renaissance in the twentieth century and ends with the collapse of the first German democracy Winkler offers a brilliant synthesis of complex events and illuminates them with fresh insights He analyses the decisions that shaped the country's triumphs and catastrophes interweaving high politics with telling vignettes about the German people and their own self perception With a second volume that takes the story up to reunification in 1990 Germany The Long Road West will be welcomed by scholars students and anyone wishing to understand this most complex and contradictory of countries The Emperor's Old Clothes Barbara Stollberg-Rilinger,2015-08 For many years scholars struggled to write the history of the constitution and political structure of the Holy Roman Empire This book argues that this was because the political and social order could not be understood without considering the rituals and symbols that held the Empire together What determined the rules and whether they were followed depended on complex symbolic ritual actions By examining key moments in the political history of the Empire the author shows that it was a vocabulary of symbols not the actual written laws that formed a political language indispensable in maintaining the common order *Arabic Script on Christian Kings* Isabelle Dolezalek,2017-06-12 Isabelle Dolezalek wurde für Ihre Arbeit mit dem 2018 ICMA Annual Book Prize des International Center of Medieval Art ausgezeichnet Auf zahlreichen mittelalterlichen Objekten finden sich arabische Inschriften Nur wenige davon wurden jedoch für lateinisch christliche Auftraggeber produziert Die normannischen und staufischen Könige aus Sizilien bilden eine bemerkenswerte Ausnahme Welche Assoziationen sollte der Gebrauch arabischer Textilinschriften bei den zeitgenössischen Betrachtern im 12 und 13 Jahrhundert hervorrufen Wie wurden die Inschriften in späteren Zeiten rezipiert Die transkulturell und interdisziplinär ausgerichtete Studie beleuchtet praktische und politische Entscheidungen die der Produktion der sizilischen Textilinschriften zugrunde liegen und lenkt so das Augenmerk auf ein Ornament das konventionelle kulturelle Grenzen nicht nur überschreitet sondern grundlegend in Frage stellt **Baroque and the Political Language of Formalism (1845 - 1945): Burckhardt, Wölfflin, Gurlitt, Brinckmann, Sedlmayr** Evonne Levy,2015-12-22 This study in intellectual history places the art historical concept of the Baroque amidst world events political thought and the political views of art historians themselves Exploring the political biographies and writings on the Baroque primarily its architecture of five prominent Germanophone figures Levy gives a face to art history showing its concepts arising in the world From Jacob Burckhardt's still debated Jesuit style to Hans Sedlmayr's Reichsstil the Baroque concepts of these German Swiss and Austrian art historians all politically conservative and two of whom joined the Nazi party were all taken shape in reaction to immediate social and political circumstances A central argument of the book is that basic terms of architectural history drew from a long

established language of political thought This vocabulary applied in the formalisms of W Ifflin and Gurlitt has endured as art history's unacknowledged political substrate for generations Classic works like W Ifflin's *Kunstgeschichtliche Grundbegriffe* are interpreted anew here supported by new documents from the papers of each figure *Studies in the History of the Law of Nations* Charles Henry Alexandrowicz, 2013-11-11 [The Routledge Research Companion to Johann Sebastian Bach](#) Robin Leaver, 2016-11-25 The Ashgate Research Companion to Johann Sebastian Bach provides an indispensable introduction to the Bach research of the past thirty-five years It is not a lexicon providing information on all the major aspects of Bach's life and work such as the Oxford Composer Companion J S Bach Nor is it an entry-level research tool aimed at those making a beginning of such studies The valuable essays presented here are designed for the next level of Bach research and are aimed at masters and doctoral students as well as others interested in coming to terms with the current state of Bach research Each author covers three aspects within their specific subject area firstly to describe the results of research over the past thirty-five years concentrating on the most significant and controversial such as the debate over Smend's NBA edition of the B minor Mass Blume's conclusions with regard to Bach's religion in the wake of the new chronology Rifkin's one-to-a-vocal-part interpretation the rediscovery of the Berlin Singakademie manuscripts in Kiev the discovery of hitherto unknown manuscripts and documents and the re-evaluation of previously known sources Secondly each author provides a critical analysis of current research being undertaken that is exploring new aspects reinterpreting earlier assumptions and/or opening up new methodologies For example Martin W B Jarvis has suggested that Anna Magdalena Bach composed the cello suites and contributed to other works of her husband another controversial hypothesis whose newly proposed forensic methodology requires investigation On the other hand research into Bach's knowledge of the Lutheran chorale tradition is currently underway which is likely to shed more light on the composer's choices and usage of this tradition Thirdly each author identifies areas that are still in need of investigation and research
