## **Rommel Great Commanders:**

*Great Military Commanders - Erwin Rommel*, 2018-09-17 Erwin Rommel was a German general and military theorist. Popularly known as the Desert Fox, he served as field marshal in the Wehrmacht of Nazi Germany during World War II. A biography that every student of military history should read. This book gives out the life, military career, and military leadership of this great Military Commander. This book is a compilation of high quality articles from the Internet. [Great Commanders \[Illustrated Edition\]](#) Dr. Christopher Gabel, 2014-08-15. Includes 3 maps and 7 illustrations. The command of military forces in combat is unlike any other field of human endeavor. If war is the ultimate form of human competition, then the commander is the ultimate competitor. The commander operates in an environment of chance, uncertainty, and chaos in which the stakes are quite literally life and death. He or she contends against an adversary who is using every means, fair or foul, to foil his plans and bring about his defeat. The commander is ultimately responsible for every variable that factors into military success or failure: training, logistics, morale, equipment, planning, and execution. The commander reaps the lion's share of plaudits in victory but also must accept the blame in defeat, warranted or not. Very often, the line that separates fame and ignominy is slender indeed. It is not difficult to identify great commanders, though the overwhelming majority of generals who win battles are never considered great. Something more than a favorable ratio of wins to losses is needed to establish greatness. The truly great commander is generally considered to be one who attains the unexpected or the unprecedented, one who stands above his contemporaries through his skill on the battlefield or through the sheer magnitude of his accomplishments. The commanders selected were masters of warfare in their particular time and environment. Each capitalized upon the social, political, economic, and technological conditions of his day to forge successful military forces and win significant and noteworthy victories that profoundly altered the world in which he lived. Dr. Christopher R. Gabel. The Great Commanders covered by this volume are Alexander the Great, Genghis Khan, Napoleon, John J. Pershing, Erwin Rommel, and Curtis E. LeMay. **Rommel's Desert Commanders** Samuel W. Mitcham, 2008-07-07. New perspective on the most famous campaign of the legendary Desert Fox. Details on the contributions and animosities of Rommel's subordinates. Includes accounts of Tobruk, Gazala, El Alamein, and other battles in Libya and Egypt in 1941 and 1942. German Field Marshal Erwin Rommel achieved immortality as the Desert Fox, battling and usually defeating numerically superior enemies. Until now, historians have generally overlooked the talented cast of characters who supported Rommel during this campaign. Distinguished military historian Samuel Mitcham recounts the battles of the Afrika Korps through the men who served Rommel as staff officers and commanders of divisions, regiments, and battalions, soldiers like Ludwig Crwell and Walter Nehring, two of World War II's best panzer commanders, and Ernst G. Bader, who wore a kilt and carried a broadsword into battle. *Rommel's Desert Commanders* Samuel W. Mitcham Jr., 2007-02-28. Perhaps the most famous and admired soldier to fight in World War II was Field Marshal Erwin Rommel, who achieved immortality as the Desert Fox. Rommel's first

field command during the war was the 7th Panzer Division also known as the Ghost Division which he led in France in 1940. During this campaign the 7th Panzer suffered more casualties than any other division in the German Army at the same time inflicting a disproportionate number of casualties upon the enemy. It took 97 486 prisoners captured 458 tanks and armored vehicles 277 field guns 64 anti tank guns and 4 000 to 5 000 trucks. It captured or destroyed hundreds of tons of other military equipment shot down 52 aircraft destroyed 15 more aircraft on the ground and captured 12 additional planes. It destroyed the French 1st Armored Division and the 4th North African Division punched through the Maginot Line extension near Sivry and checked the largest Allied counteroffensive of the campaign at Arras. When France surrendered the Ghost Division was within 200 miles of the Spanish border. No doubt about it Rommel had proven himself a great military leader who was capable of greater things. His next command in fact would be the Afrika Korps where the legend of the Desert Fox was born. Rommel had a great deal of help in France much more than his published papers suggest. His staff officers and company battalion and regimental commanders were an extremely capable collection of military leaders that included 12 future generals two of them SS and two colonels who briefly commanded panzer divisions but never reached general rank. They also included Colonel Erich von Unger who would no doubt have become a general had he not been killed in action while commanding a motorized rifle brigade on the Eastern Front in 1941 as well as Karl Hanke a Nazi gauleiter who later succeeded Heinrich Himmler as the last Reichsfuehrer SS. No historian has ever recognized the talented cast of characters who supported the Desert Fox in 1940. No one has ever attempted to tell their stories. This book remedies that deficiency.

**Knight's Cross** David Fraser, 2008-07 Erwin Rommel was the outstanding Axis field commander of the Second World War respected even admired by his opponents. Here it seemed to the Allies was a supremely professional soldier chivalrous decent largely untainted by the crimes of the Nazi regime carrying out his duty with often dazzling success. David Fraser's definitive study brings to Rommel's career not only the insights of an acclaimed biographer but also those of a distinguished soldier. He shows how inspiringly spontaneous and superficially haphazard Rommel's style of leadership could be how his hallmarks of boldness of manoeuvre ferocity in attack and tenacity in pursuit which characterised his great campaign in North Africa were evident from his earliest battles in the First World War. Knight's Cross is first and foremost the biography of a soldier but Rommel reached a position in which he almost inevitably became embroiled in politics including his alleged involvement in the plot to kill Hitler which condemned him in the eyes of the Fuhrer he had served so loyally. Rommel is not to David Fraser a flawless hero his failing as well as his genius are recorded here. But he had that instinct for battle and leadership which set him apart from contemporaries and places him among the truly great commanders of history. **Nazi Germany's Best Generals** Charles River Editors, 2017-11-17 Includes pictures. Includes accounts of the fighting in the war. Includes online resources and a bibliography for further reading. One of his biographers called him a complex man a born leader a brilliant soldier a devoted husband a proud father intelligent instinctive brave compassionate vain egotistical and

arrogant As that description suggests every account of Erwin Rommel's life must address what appears to be its inherent contradictions Fittingly and in the same vein he remains one of the best remembered generals of World War II and history at large despite the fact he was on the losing side and he was defeated at the most famous battle of his career the decisive Battle of El Alamein While there is a great division when it comes to historical opinion with respect to Rommel's merits as a general as well as the moral choices he made both historians and the public continue to be intrigued by this man who has been dead for over 70 years People at large continue to consider Rommel one of the greatest generals of the 20th century an opinion shared by many of his contemporaries on both sides of World War II For example British General Harold Alexander hinted at both his strengths and weaknesses commenting He was a tactician of the greatest ability with a firm grasp of every detail of the employment of armour in action and very quick to seize the fleeting opportunity and the critical turning point of a mobile battle I felt certain doubts however about his strategic ability in particular as to whether he fully understood the importance of a sound administrative plan Happiest while controlling a mobile force directly under his own eyes he was liable to overexploit immediate success without sufficient thought for the future Heinz Wilhelm Guderian was one of the most respected commanders and theoreticians of World War II An innovative tank commander he was a pioneer of German Blitzkrieg tactics and therefore a hugely influential figure in the way the war was fought Guderian's profile was not always what might have been expected for a man of his abilities and influence warrant due to the shape of his career The reasons for Guderian's time out of command are tied to the reason for his lower profile he was a traditional German career officer rather than an ideologically driven Nazi willing to challenge Adolf Hitler's opinions on military matters This together with his outspoken attitude led to his loss of favor and dismissal from command At the same time being a career military man rather than a Nazi officer also meant Guderian was not as directly involved in the atrocities of the war and he did not gain the infamy of his SS contemporaries which ensured the ongoing fame of men far less deserving of recognition Albert Kesselring holds a strange place in the history of World War II A commander in the Luftwaffe he is remembered as much for the skill with which he oversaw the German armies as for his mastery of the air fleets Called Uncle Albert by many of his men and Smiling Albert by the Allies he was widely respected by men on both sides of the war and loved by many of his troops yet he was responsible for massacres in occupied Italy for which he was condemned to death during the post war trials Ultimately his sentence was commuted to one of life imprisonment making him one of the few top Nazi leaders to pen memoirs after the war but it goes without saying that Kesselring's time was marked by controversy Kesselring had the skills of a politician and a diplomat as well as those of a soldier which carried his career through both World War I and World War II and during the Second World War he served in almost every theater of the fighting in Europe He was undoubtedly a gifted commander but one who served at a time when the German military was tainted with the evils of Nazism

**Beyond Normandy: Rommel's Legacy** Pasquale De Marco, 2025-03-17 Erwin Rommel the Desert Fox is one of the most iconic military commanders of

World War II His daring exploits in North Africa and his defense of Normandy against the Allied invasion have made him a legend But who was the real Rommel Was he a brilliant general or a ruthless war criminal This book explores Rommel s life and career in detail examining his military campaigns his leadership style and his personal life It also discusses the controversies surrounding his legacy and tries to understand why he remains such a fascinating figure to this day Rommel was born in 1891 in Heidenheim Germany He joined the German army in 1910 and served with distinction in World War I After the war he remained in the military and rose through the ranks In 1940 he was given command of the Afrika Korps a German expeditionary force sent to North Africa to aid the Italian army Rommel quickly proved to be a brilliant military commander He led the Afrika Korps to a series of victories against the British culminating in the capture of Tobruk in June 1942 Rommel s successes in North Africa made him a national hero in Germany and earned him the nickname Desert Fox However Rommel s luck eventually ran out In October 1942 the British launched a massive offensive against the Afrika Korps at El Alamein Rommel was forced to retreat and eventually evacuate his troops from North Africa In 1944 Rommel was given command of the German forces defending Normandy against the Allied invasion He was tasked with holding the Allies at bay long enough for the Germans to build up their defenses in France Rommel knew that the odds were stacked against him but he was determined to do his duty The Allies landed in Normandy on June 6 1944 Rommel s forces fought bravely but they were outnumbered and outgunned After a month of fighting Rommel was forced to retreat The Allies liberated Paris in August 1944 and Rommel was dismissed from his command Rommel was implicated in the July 20 plot to assassinate Hitler and he was forced to commit suicide in October 1944 He was 53 years old This book is the definitive biography of Erwin Rommel It is a must read for anyone interested in military history World War II or the life of one of the most fascinating figures of the 20th century If you like this book write a review *The Armour of Rommel's Afrika Korps* Ian

Baxter,2019-05-30 A pictorial history of the armoured vehicles used by the Nazis during their occupation of North Africa in World War II The Deutsche Afrika Korps best known as simply Afrika Korps earned a well deserved reputation as a superb fighting machine While this was founded on the leadership and tactical genius of its legendary commander Erwin Rommel and the fighting skills of its officers and men another vital element was its equipment and armour This superbly illustrated Images of War book reveals the full range of German armored vehicles that saw service in North Africa from 1941 to mid 1943 As well as the formidable panzers such as the Tiger and Panther tanks there were Sturmartillerie equipments reconnaissance vehicles half tracks armored cars Panzerkampfwagens and motorcycles All had their roles to play While the Allies ultimately triumphed in North Africa the combination of German design and engineering with superb generalship and fighting spirit very nearly changed the course of the Second World War in 1942 Military historians and equipment enthusiasts will find this a fascinating and authoritative book Another great addition to the Images of War series A must have for anyone with an interest in the Afrika Korps during World War Two Armorama com **Gazala 1942** Ken Ford,2011-03-15

Illustrated by contemporary photos and specially commissioned maps this book is a fascinating account of Rommel's greatest victory. Following a lull in the desert war which saw the Germans and British reinforce their armies, Rommel suddenly attacked British fortifications with an assault on the northern sector of the British line near Gazala. Pinning down the British in the north and outflanking the 1st Free French Brigade, Rommel succeeded in encircling the main British positions, trapping them in what became known as The Cauldron. With thousands of British soldiers killed or taken prisoner, this was a devastating defeat for the Allies. Accompanied by contemporary photographs and maps depicting the movement of both armies, Ken Ford provides a masterful study of Rommel, the Desert Fox, at the height of his powers as he swept the British army back to the site of their final stand at El Alamein. **Rommel's Desert War** Samuel W. Mitcham, 2007-08-16. The most famous battles of one of World War II's most legendary commanders. Told largely from Rommel's perspective using his papers and letters. *United States Army Combat Forces Journal*, 1953. *Chief of Staff, Vol. 2* David Zabecki, 2013-11-15. The two-volume *Chief of Staff* examines the history, development, and role of the military duty position of the chief of staff. Many books have studied history's great commanders and the art of command. None have focused exclusively on the chief of staff, that key staff officer responsible for translating the ideas of the commander into practical plans that common soldiers can execute successfully on the battlefield. In some cases, it is almost impossible to think of certain great commanders without also thinking of their chief of staff. Napoleon's chief of staff, Berthier, and Eisenhower's chief of staff, Bedell Smith, are two examples that are profiled in this work. Zabecki and his collaborators examine the history, development, and role of the chief of staff primarily through profiles of the most important practitioners of the art. These books are published in cooperation with the Association of the United States Army. **Reader's Guide to Military History** Charles Messenger, 2013-10-31. This book contains some 600 entries on a range of topics from ancient Chinese warfare to late 20th-century intervention operations. Designed for a wide variety of users, it encompasses general reviews of aspects of military organization and science as well as specific wars and conflicts. The book examines naval and air warfare as well as significant individuals, including commanders, theorists, and war leaders. Each entry includes a listing of additional publications on the topic, accompanied by an article discussing these publications with reference to their particular emphases, strengths, and limitations.

First work to recognize the talented staff officers and company, battalion, and regimental commanders who supported Rommel. One of the most famous soldiers to fight in World War II, Erwin Rommel achieved immortality as the Desert Fox in the sands of Africa, but his first field command was the 7th Panzer Division, the so-called Ghost Division. During the 1940 campaign in France, the unit suffered more casualties than any other German division and at the same time inflicted heavy losses on the Allies, taking almost 100,000 prisoners. The Ghost Division's success owed much to Rommel's subordinates who aided Rommel more than he admitted in his papers and
