*The New Werner Twentieth Century Edition of the Encyclopaedia Britannica*, 1905 *Racial Fault Lines* Tomas Almaguer, 2023-11-15 This book unravels the ethnic history of California since the late nineteenth century Anglo American conquest and the institutionalization of white supremacy in the state. Drawing from an array of primary and secondary sources, Tom's Almaguer weaves a detailed, disturbing portrait of ethnic, racial, and class relationships during this tumultuous time. A new preface looks at the invaluable contribution the book has made to our understanding of ethnicity and class in America and of the social construction of race in the Far West. This book unravels the ethnic history of California since the late nineteenth century Anglo American conquest and the institutionalization of white supremacy in the state. Drawing from an array of primary and secondary sources, Tom's Almaguer weaves a d **Hispanic Americans in Congress, 1822-2012** Congress, 2014-04-14 A compilation of historical essays and short biographies about 91 Hispanic Americans who served in Congress from 1822 to 2012. Provided by publisher **Hispanic Americans in Congress, 1822-2012** Matthew Andrew Wasniewski, Albin Kowalewski, Laura Turner O'Hara, Terrance Rucker, 2013 A compilation of historical essays and short biographies about 91 Hispanic Americans who served in Congress from 1822 to 2012. Provided by publisher **California Historical Society Quarterly**, 1922 **Taming the Elephant** John F. Burns, Richard J. Orsi, 2003-04-30 Taming the Elephant is the last of four volumes in the distinguished California History Sesquicentennial Series, an outstanding compilation of original essays by leading historians and writers. These topical, interrelated volumes reexamine the meaning of the founding of modern California during the state's pioneer period. General themes run through all four volumes: the interplay of traditional cultures and frontier innovation in the creation of a distinctive California society; the dynamic interaction of people and nature and the beginnings of massive environmental change; the impact of the California experience on the nation and the world; the influence of pioneer patterns on modern California and the legacy of ethnic and cultural diversity as a major influence on the state's history. This fourth volume treats the role of post-Gold Rush California government, politics, and law in the building of a dynamic state with influences that persist today. Provocative essays investigate the creation of constitutional foundations, law, and jurisprudence; the formation of government agencies and the development of public policy. Authors chart the roles played by diverse groups: criminals and peace officers, entrepreneurs and miners, farmers and public officials, defenders of discrimination, and female and African American activists. The essays also explore subjects largely overlooked in the past, such as the significance of local and federal government in pioneer California and early struggles to secure civil rights for women and racial minorities. **Telling Identities** Rosaura

Sánchez,1995 The Californios were the original Spanish speaking settlers of Alta California By the 1870s they had become a conquered and dominated population as a result of the westward expansion of the United States In that same decade the Californios were approached by agents of Hubert Howe Bancroft a wealthy San Francisco book dealer and publisher asking them to narrate recollections of their past in Alta California as part of a research project seeking to assemble all available information and documentation on California history These dictated recollections are known today as testimonios Sánchez offers the first pointed historical and literary analysis of thirty of these testimonios from the 1870s along with additional narratives diaries and documents from the nineteenth century Most of the materials she examines have never before been published and are accessible only in their original handwritten form at the Bancroft Library housed at the University of California at Berkeley Telling Identities scrutinizes the role of gender class race language and ethnicity in group identity formation as it looks into history to help articulate the cultural politics of contemporary Chicano and Latino culture in the United States

**The Paradox of Representation** David Lublin,2020-11-10 In The Paradox of Representation David Lublin offers an unprecedented analysis of a vast range of rigorous empirical evidence that exposes the central paradox of racial representation Racial redistricting remains vital to the election of African Americans and Latinos but makes Congress less likely to adopt policies favored by blacks Lublin s evidence together with policy recommendations for improving minority representation will make observers of the political scene reconsider the avenues to fair representation Using data on all representatives elected to Congress between 1972 and 1994 Lublin examines the link between the racial composition of a congressional district and its representative s race as well as ideology The author confirms the view that specially drawn districts must exist to ensure the election of African Americans and Latinos He also shows however that a relatively small number of minorities in a district can lead to the election of a representative attentive to their interests When African Americans and Latinos make up 40 percent of a district according to Lublin s findings they have a strong liberalizing influence on representatives of both parties when they make up 55 percent the district is almost certain to elect a minority representative Lublin notes that particularly in the South the practice of concentrating minority populations into a small number of districts decreases the liberal influence in the remaining areas Thus a handful of minority representatives almost invariably Democrats win elections but so do a greater number of conservative Republicans The author proposes that establishing a balance between majority minority districts and districts where the minority population would be slightly more dispersed making up 40 percent of a total district would allow more African Americans to exercise more influence over their representatives
