Rookies Rated Baseballs Finest Freshman Seasons:

Rookies Rated Warren N. Wilbert, 2000 Curt Davis is relatively unknown in today's baseball circles but it should be remembered that he broke in with the Phillies in 1934 and put together as this work proclaims the greatest rookie season in the game's history This unique book ranks and analyzes the 74 best freshman seasons in the history of organized baseball from Davis's 1934 campaign to Nomar Garciaparra's 1997 season The players are ranked according to a sabermetric analysis called Total Player Rating TPR which puts a numerical value on a player's overall contribution to his team's success in a given season More precisely the TPR represents the number of wins a player might have contributed beyond that of an average player in a given season But rookies with high TPRs do not always win the Rookie of the Year Award for example in 1953 Jim Gilliam of the Dodgers did not make as valuable a contribution to Brooklyn's success as did Harvey Haddix to his St Louis club but Haddix finished a distant second in the National League Rookie of the Year voting Beating the Breaks Rick Swaine, 2015-01-24 Few baseball fans are aware of the number of players with disabilities who have succeeded in the majors Much of this unawareness is due to the affected players themselves who downplay weaknesses and tend to minimize their disabilities considering them just one of the chinks in the armor that everyone must deal with More than 20 players who have overcome their disabilities to have major league careers are profiled in this work The book is divided by type of disability suffered missing or partially missing limbs or extremities Jim Abbott Hugh One Arm Daily Pete Gray Monty Stratton Bert Shepard injured or diseased limbs Lou Brissie Whitey Kurowski Eddie Kazak Charley Gelbert Bo Jackson Dave Dravecky disfigured extremities Mordecai Three Finger Brown Charley Red Ruffing Hal Peck Carlos May Gil Coan Jim Mecir impaired organ function vision and hearing William Dummy Hoy George Specs Toporcer Chick Hafey Ron Santo Russ Christopher Joe Hoerner John Hiller Danny Thompson Walt Bond and neurological and psychological disorders Grover Cleveland Alexander Tony Lazzeri Jimmy Piersall Jim Eisenreich *The Black Stars Who Made Baseball Whole* Rick Swaine, 2014-09-24 For major league baseball the decade following Jackie Robinson's 1947 debut was one of slow yet persistent change Four other black players made their first brief big league appearances that year followed by only two in 1948 and four in 1949 But by the end of 1959 122 black ballplayers had made it to the big leagues Like Robinson their lives were made difficult off the field and on it they dodged beanballs and spikes This book brings attention to the accomplishments of this transitional generation of African American players made up of men like Luscious Luke Easter Sam The Jet Jethroe and Sad Sam Jones many of whom spent years in the minors the Negro leagues or both before getting their shot Chapters on each season from 1947 to 1959 incorporate biographical and career profiles for 25 players who stood out during baseball's integration A final chapter covers the outstanding minor league players who for various reasons never got a real chance to play major league ball Appendices include a roster of black major leaguers from 1947 through 1959 a list of black player firsts and statistics on the year by year population of black players in the majors The Shutout in Major League Baseball Warren N. Wilbert, 2013-06-06 The

shutout a game in which a team prevents its opponent from scoring remains relatively rare Of the roughly 200 000 regular season games that have been played since the origins of the major leagues only about 10 percent have been shutouts Gold Glove defense astonishing pitching talent and the combined efforts of a team working toward baseball artistry must all come together This work covers every shutout from the beginning of professional baseball through the 2010 World Series including no hitters and perfect games With in depth statistics and play by play descriptions to bring to life the action on the field it is the definitive history of one of baseball s premier achievements The Arrival of the American League Warren N.

1967 American League Pennant Race Cameron Bright,2018-05-25 In 1967 in the midst of a nail biting six week pennant race the Red Sox Tigers Twins and White Sox stood deadlocked atop the American League Never before or since have four teams tied for the lead in baseball s final month The stakes were high there were no playoffs the pennant winner went directly to the World Series Here for the first time all four teams are treated as equals The author describes their contrasting skill sets leadership and temperament The stress of such stiff and sustained competition was constant and there were overt psychological and physical intimidations playing a major role throughout the season The standings were volatile and so were emotions The players and managers varied some wilted or broke others responded heroically **What Makes an Elite**

Pitcher? Warren N. Wilbert,2010-07-27 Elite baseball pitchers are elite for a reason They seem to have it all a variety of pitches that no one can lay a bat to cool heads and confidence in their stuff when they get in a jam and the kind of dexterity that makes difficult plays seem easy Is elite status revealed through statistics Though the author of this book considers statistics of both the traditional and sabermetric sort he argues that the greats are proved not by broad statistical comparison with all other pitchers but by their record against one another In a thoughtful discussion of the evidence of head to head matchups he finds the nine pitchers who make up the true elite Cy Young Christy Mathewson Walter Johnson Grover Alexander Lefty Grove Warren Spahn Tom Seaver Roger Clemens and Greg Maddux For each pitcher the book provides biographical information career highlights and a list of the feats that put him in the record books **A Cunning Kind of**
