tells us that World War II united Americans but as in other conflicts it was soon back to politics as usual Nancy Beck Young argues that the illusion of cooperative congressional behavior actually masked internecine party warfare over the New Deal Young takes a close look at Congress during the most consensual war in American history to show how its members fought intense battles over issues ranging from economic regulation to social policies Her book highlights the extent of and reasons for liberal successes and failures while challenging assumptions that conservatives had gained control of legislative politics by the early 1940s It focuses on the role of moderates in modern American politics arguing that they not conservatives determined the outcomes in key policy debates and also established the methods for liberal reform that would dominate national politics until the early 1970s *Why We Fight* which refers as much to the conflicts between lawmakers as to war propaganda films of Frank Capra unravels the tangle of congressional politics governance and policy formation in what was the defining decade of the twentieth century It demonstrates the fragility of wartime liberalism the nuances of partisanship and the reasons for a bifurcated record on economic and social justice policy revealing difficulties in passing necessary wartime measures while exposing racial conservatism too powerful for the moderate liberal coalition to overcome Young shows that scaling back on certain domestic reforms was an essential compromise liberals and moderates made in order to institutionalize the New Deal economic order Some programs were rejected including the Civilian Conservation Corps the National Youth Administration and the Works Progress Administration while others like the Wagner Act and economic regulation were institutionalized But on other issues such as refugee policy racial discrimination and hunting communist spies the discord proved insurmountable This wartime political dynamic established the dominant patterns for national politics through the remainder of the century Impeccably researched Young's study shows that we cannot fully appreciate the nuances of American politics after World War II without careful explication of how the legislative branch redefined the New Deal in the decade following its creation

Dunn,2013-06-04 A history of the 1940 U S presidential election when bitterly divided Americans debated the fate of the nation and the world In 1940 against the explosive backdrop of the Nazi onslaught in Europe two farsighted candidates for the U S presidency Democrat Franklin D Roosevelt running for an unprecedented third term and talented Republican businessman Wendell Willkie found themselves on the defensive against American isolationists and their charismatic spokesman Charles Lindbergh who called for surrender to Hitler s demands In this dramatic account of that turbulent and consequential election historian Susan Dunn brings to life the debates the high powered players and the dawning awareness of the Nazi threat as the presidential candidates engaged in their own battle for supremacy 1940 not only explores the contest between FDR and Willkie but also examines the key preparations for war that went forward even in the midst of that divisive election season The book tells an inspiring story of the triumph of American democracy in a world reeling from fascist barbarism and it offers a compelling alternative scenario to today s hyperpartisan political arena where common ground seems unattainable Anyone today who believes that U S involvement and the ultimate Allied triumph in World War II

was inevitable must read this important history Michael Beschloss New York Times bestselling author of Presidential Courage Susan Dunn a prolific and outstanding historian has crafted a fast paced serious and extraordinarily well researched book about the events surrounding the pivotal 1940 election Her main characters come brilliantly to life I could hardly put the book down James T Patterson author of Bancroft Prize winning Grand Expectations The United States 1945 1974
