Chase,2016-10-26 Over the past six or more decades John Friedmann has been an insurgent force in the field of urban and regional planning transforming it from its traditional state centered concern for establishing social and spatial order into a radical domain of collaborative action between state and civil society for creating the good society in the present and future By opening it up to theoretical engagement with a wide range of disciplines Friedmann s contributions have revolutionised planning as a transdisciplinary space of critical thinking social learning and reflective practice Insurgencies and Revolutions brings together former students close research associates and colleagues of John Friedmann to reflect on his contributions to planning theory and practice The volume is organized around five broad themes where Friedmann s contributions have risen to challenge established paradigms and generated the space for revolutionary thinking and action in urban and regional planning Theorising hope Economic development and regionalism World cities and the Good city Social learning empowered communities and citizenship and Chinese cities The essays by the authors reflect their engagement with his ideas and the new directions in which they have taken these in their work in planning theory and practice **Ecotherapy** Linda Buzzell,Craig Chalquist,2010-07-01 In the 14 years since Sierra Club Books published Theodore Roszak Mary E Gomes and Allen D Kanner s groundbreaking anthology Ecopsychology Restoring the Earth Healing the Mind the editors of this new volume have often been asked Where can I find out more about the psyche world connection How can I do hands on work in this area Ecotherapy was compiled to answer these and other urgent questions Ecotherapy or applied ecopsychology encompasses a broad range of nature based methods of psychological healing grounded in the crucial fact that people are inseparable from the rest of nature and nurtured by healthy interaction with the Earth Leaders in the field including Robert Greenway and Mary Watkins contribute essays that take into account the latest scientific understandings and the deepest indigenous wisdom Other key thinkers from Bill McKibben to Richard Louv to Joanna Macy explore the links among ecotherapy spiritual development and restoring community As mental health professionals find themselves challenged to provide hard evidence that their practices actually work and as costs for traditional modes of psychotherapy rise rapidly out of sight this book offers practitioners and interested lay readers alike a spectrum of safe effective alternative approaches backed by a growing body of research We Want What's Ours Bernadette Atuahene,2014-06-26 Millions of people all over the world have been displaced from their homes and property Dispossessed individuals and communities often lose more than the physical structures they live in and their material belongings they are also denied their dignity These are dignity takings and land dispossessions occurring in South Africa during colonialism and apartheid are quintessential examples There have been numerous examples of dignity takings throughout the world but South Africa stands apart because of its unique remedial efforts The nation has attempted to move beyond the more common step of providing reparations compensation for physical losses to instead facilitating dignity restoration which is a comprehensive remedy that seeks to restore property while also confronting the underlying dehumanization infantilization and political exclusion that enabled the

injustice Dignity restoration is the fusion of reparations with restorative justice In We Want Whats Ours Bernadette Atuahenes detailed research and interviews with over one hundred and fifty South Africans who participated in the nations land restitution program provide a snapshot of South Africas successes and failures in achieving dignity restoration We Want What s Ours is globally relevant because dignity takings have happened all around the world and throughout history the Nazi confiscation of property from Jews during World War II the Hutu taking of property from Tutsis during the Rwandan genocide the widespread commandeering of native peoples property across the globe and Saddam Husseins seizing of property from the Kurds and others in Iraq are but a few examples When people are deprived of their property and dignity in years to come the lessons learned in South Africa can help governments policy makers scholars and international institutions make the transition from reparations to the more robust project of dignity restoration What is the Point of Being a Christian? Timothy Radcliffe,2013-01-17 WINNER OF THE MICHAEL RAMSEY PRIZE FOR THE BEST IN THEOLOGICAL WRITING Winner of the Michael Ramsey prize for the best in theological writing Cardinal Timothy Radcliffe is in demand the world over with Bishops priests lay people and above all young people This new book is his response What is the Point of being a Christian One is pointed to God who is the point of everything If one thinks of religion as just useful then one has reduced it to another consumer product But if we are pointed to God then this should make a difference to how we live This is not a moral superiority Christians are usually no better than anyone else But the lives of Christians should be marked by some form of hope freedom happiness and courage If they are not then why should anyone believe a word they say In this new book Cardinal Radcliffe is at his best writing with a prophetic edge His argument for Christian belief is profoundly Catholic and profoundly human But what is just as remarkable Radcliffe s argument for and interpretation of Christian Gospel is couched in a deep understanding of human nature and the problems and anxieties of modern men and women Radcliffe is far distant from the theologian s ivory tower and yet his understanding of the Gospel is profoundly theological The frame of reference for this book is wide and it is based amongst other things on Fr Radcliffe s pastoral experience of dealing with people with problematic marriages those struggling with celibacy those trying to understand the nature of religious authority and those trying to remain loyal to the Church which finds their sexual orientation irregular **Green Realm** Sergio Rijo,2024-01-06 Welcome to the enchanting Green Realm a literary voyage that unveils the hidden wonders of plant psychology In this captivating exploration readers embark on a journey beyond the visible spectrum of leaves and blossoms delving into the intricate lives of plants From the secret language encoded in leaves to the underground networking of roots each chapter of this botanical odyssey offers a revelation exposing the vibrant and dynamic world that exists beneath the surface of our familiar landscapes As we traverse the chapters we encounter the social lives of flowers where intricate dynamics and surprising alliances shape the floral community We witness the botanical romances where plants express attraction and compete for pollination in a dance of loves and heartbreaks The narrative unfolds with a discussion on

photosynthetic personalities offering insights into how different plants exhibit unique behaviors in response to environmental factors The exploration takes an intriguing turn with a glimpse into the dark side of photosynthesis delving into plant rivalries and conflicts that add a layer of drama to the botanical tapestry Readers are then invited to decipher tree talk unraveling the mysteries of communication between trees as leaves and branches convey messages in a silent but profound language Green Realm doesn't stop at the terrestrial boundaries it boldly ventures into the extraterrestrial with a chapter contemplating the possibility of plant life beyond Earth The cosmic possibilities of extraterrestrial plant psychology are explored sparking the imagination with the prospect of green alchemists flourishing on distant planets The narrative concludes with a contemplation of the future of plant human relationships in the chapter Cultivating a New Perspective Readers are encouraged to view plants in a new light appreciating their complexity and acknowledging the transformative impact of understanding plant psychology This literary journey into the heart of the Green Realm is not just a scientific exploration it's an invitation to connect with the natural world on a profound level With an empathetic and friendly tone the book bridges the gap between scientific inquiry and the emotional resonance of our relationship with plants Green Realm is a celebration of the intricate sentient beings that share our planet weaving a narrative that inspires curiosity respect and a deep appreciation for the green tapestry of life

The War Machine and Global Health Merrill Singer, G. Derrick Hodge, 2010-01-16 In the contemporary world war rivals infectious disease as a global cause of morbidity and mortality Since the end of World War II there have been at least 160 wars around the world with as many as 25 million and probably many more people killed most of them civilians Directly or indirectly war touches the lives of most people on the planet often with lasting and costly impact Framed by the holistic and ethnographically grounded theoretical perspective of critical medical anthropology and more broadly by the political economy of health this book of essays by leading medical anthropologists and other health social scientists carefully examines the global effects of war the war industry and the international weapons trade on human health and well being Further this book goes beyond offering a

Johnson, 2024-10-18 Laurie M Johnson argues that America s culture wars may seem to have erupted in the past couple of decades but they go back centuries For those who think that Christian nationalism or right wing populism is the problem to be solved that some people simply need to understand Christianity or politics better and become reasonable read on Christian nationalism and other ideological extremes are symptoms of major economic technological spiritual and psychological shifts that have left too many people uprooted disenchanted and precarious There are no easy answers but Johnson tries to show a path out that enlists not only individuals but also church and state Without leadership and structure provided at the levels of the church and state Christians and those impacted by them will remain part of the problem and not

the solution Johnson says to Christians change is not talk it s action and Christian action can only happen with leadership that creates a context where we can work together rather than wasting our time in culture wars Main Street Mindy Thompson Fullilove,2020-09-08 Mindy Thompson Fullilove traverses the central thoroughfares of our cities to uncover the ways they bring together our communities After an 11 year study of Main Streets in 178 cities and 14 countries Fullilove discovered the power of city centers to help us name and solve our problems In an era of compounding crises including racial injustice climate change and COVID 19 the ability to rely on the power of community is more important than ever However Fullilove describes how a pattern of disinvestment in inner city neighborhoods has left Main Streets across the U S in disrepair weakening our cities and leaving us vulnerable to catastrophe In the face of urban renewal programs built in response to a supposed lack of personal responsibility Fullilove offers a different story that of a series of forced displacements that had devastating effects on inner city communities Through that lens we can appreciate the strength of segregated communities that managed to temper the ravages of racism through the Jim Crow era and build political power and many kinds of wealth Only a very well integrated powerful community one with deep spiritual principles could have accomplished such a feat This is the power she hopes we will find again Throughout Main Street readers glimpse strong vibrant communities who have conquered a variety of disasters from the near loss of a beloved local business to the devastation of a hurricane Using case studies to illustrate her findings Fullilove turns our eyes to the cracks in city centers the parts of the city that tend to be avoided or ignored Providing a framework for those who wish to see their communities revitalized Fullilove s Main Street encourages us all to look both inward and outward to find the assets that already exist to create meaningful change
