Roots Of Violence A History Of War In Chad:

Roots of Violence Mario Joaquim Azevedo,1998 Azevedo explores how violence has permeated and become almost an intrinsic part of the fabric of the central eastern Sudanic societies and how foreign interference over the centuries have exacerbated rather than suppressed the violence Roots of Violence Mario Joaquim Azevedo,1998 Roots of violence ,1998 Lists guerilla factional and national armies in Chad 1969 to 1995 p 120 *A History of Genocide in Africa* Timothy J. Stapleton,2017-04-17 Based on a series of detailed case studies this book presents the history of genocide in Africa within the specific context of African history examining conflicts in countries such as Burundi Democratic Republic of Congo Namibia Rwanda and Sudan Why has Africa been the subject of so many accusations related to genocide Indeed the number of such allegations related to Africa has increased dramatically over the past 15 years Popular racist mythology might suggest that Africans belong to tribes that are inherently antagonistic towards each other and therefore engage in tribal warfare which cannot be rationally explained This concept is wrong as Timothy J Stapleton explains in *A History of Genocide in Africa* the many conflicts that have plagued post colonial Africa have had very logical explanations and very few of these instances of African warring can be said to have resulted in genocide Authored by an expert historian of Africa this book examines the history of six African countries Namibia Rwanda Burundi Democratic Republic of Congo Sudan and Nigeria in which the language of genocide has been mobilized to describe episodes of tragic mass violence It seeks to place genocide within the context of African history acknowledging the few instances where the international legal term genocide has been applied appropriately to episodes of mass violence in African history and identifying the many other cases where it has not and instead the term has been used in a cynical manipulation to gain some political advantage Readers will come to understand how to a large extent genocide accusations related to post colonial Africa have often served to prolong wars and cause greater loss of life The book also clarifies how in areas of Africa where genocides have actually occurred there appears to have been a common history of the imposition of racial ideologies and hierarchies during the colonial era which when combined with other factors such as the local geography demography religion and or economics resulted in tragic and appalling outcomes **Encyclopedia of African History 3-Volume Set** Kevin Shillington,2013-07-04 Covering the entire continent from Morocco Libya and Egypt in the north to the Cape of Good Hope in the south and the surrounding islands from Cape Verde in the west to Madagascar Mauritius and Seychelles in the east the Encyclopedia of African History is a new A Z reference resource on the history of the entire African continent With entries ranging from the earliest evolution of human beings in Africa to the beginning of the twenty first century this comprehensive three volume Encyclopedia is the first reference of this scale and scope Also includes 99 maps *A Military History of Africa* Timothy J. Stapleton,2013-10-21 A detailed and thorough chronological overview of the history of warfare and military structures in Africa covering ancient times to the present day *A Military History of Africa* achieves a daunting task it synthesizes decades of specialized academic

research and literature including the most recent material to offer an accessible survey of Africa's military history from the earliest times to the present day. The first volume examines the precolonial period beginning with warfare in ancient North Africa including ancient Egypt and Carthage and continues through the cavalry-based Muslim empires of the trans-Saharan trade and the wars of the slave trade in West and East Africa. The second volume focuses on the wars of European colonial conquest and African resistance during the late 19th century, African participation in both world wars, and the early violent struggles for independence from the 1950s and early 1960s. The third volume explores warfare in postcolonial Africa including coverage of the impact of the global Cold War conflicts in Southern Africa from the 1960s to 1980s, the development of postcolonial African armed forces, and civil wars sparked by the discovery of precious resources such as diamonds in Sierra Leone. Readers of this three-volume work will understand how warfare and military structures have been consistently central to the development of African societies.

The Cold War Spencer C. Tucker, 2020-10-27 This sweeping reference work covers every aspect of the Cold War from its ignition in the ashes of World War II through the Berlin Wall and the Cuban Missile Crisis to the collapse of the Soviet Union in 1991. The Cold War superpower face-off between the Soviet Union and the United States dominated international affairs in the second half of the 20th century and still reverberates around the world today. This comprehensive and insightful multivolume set provides authoritative entries on all aspects of this world-changing event, including wars, new military technologies, diplomatic initiatives, espionage activities, important individuals, and organizations, economic developments, societal and cultural events, and more. This expansive coverage provides readers with the necessary context to understand the many facets of this complex conflict. The work begins with a preface and introduction and then offers illuminating introductory essays on the origins and course of the Cold War, which are followed by some 1,500 entries on key individuals, wars, battles, weapons, systems, diplomacy, politics, economics, and art and culture. Each entry has cross-references and a list of books for further reading. The text includes more than 100 key primary source documents, a detailed chronology, a glossary, and a selective bibliography. Numerous illustrations and maps are inset throughout to provide additional context to the material.

Clausewitz and African War Isabelle Duyvesteyn, 2004-09-30 Oil, diamonds, timber, food aid—just some of the suggestions put forward as explanations for African wars in the past decade. Another set of suggestions focuses on ethnic and clan considerations. These economic and ethnic or clan explanations contend that wars are specifically not fought by states for political interests with mainly conventional military means as originally suggested by Carl von Clausewitz in the 19th century. This study shows how alternative social organizations to the state can be viewed as political actors using war as a political instrument.

Why Slavery Endures David W. Bulla, 2020-11-09 This book examines slavery, an antiquated, ugly, inhumane practice seemingly abolished in the nineteenth century yet never eradicated. The legacies of historical slavery have become increasingly subject to public debate, manifested in calls for reparations, the UNESCO Slave Route Project, and in the dismantling of Confederate monuments in the

United States NGOs have researched and publicized the extent of contemporary slavery which some of the essays in this collection discuss This area of inquiry intersects with wider debates about the legacies of colonialism and structural racism which could be seen in the Rhodes Must Fall campaigns in South Africa and Oxford NGOs estimate that there are between 21 and 46 million slaves worldwide today The essays gathered here critically examine the historical roots of slavery the issue of reparations and deconstruct contemporary human trafficking Africa Toyin Falola, Daniel Jean-Jacques, 2015-12-14 These volumes offer a one stop resource for researching the lives customs and cultures of Africa s nations and peoples Unparalleled in its coverage of contemporary customs in all of Africa this multivolume set is perfect for both high school and public library shelves The three volume encyclopedia will provide readers with an overview of contemporary customs and life in North Africa and sub Saharan Africa through discussions of key concepts and topics that touch everyday life among the nations peoples While this encyclopedia places emphasis on the customs and cultural practices of each state history politics and economics are also addressed Because entries average 14 000 to 15 000 words each contributors are able to expound more extensively on each country than in similar encyclopedic works with shorter entries As a result readers will gain a more complete understanding of what life is like in Africa s 54 nations and territories and will be better able to draw cross cultural comparisons based on their reading *Multinational Companies and Conflicts in Africa* Rose Ngomba-Roth, 2007 Nigeria Africa s most populated country is rich in ethnic diversity a reason why it suffers from many conflicts The country is one of the top five oil producers The recent resource crisis in the Niger Delta is caused by poor division of resources underdevelopment and mismanagement The failure of the young democracy would have a vehement effect in the country and in Africa as a whole The government has to consolidate its democracy uphold unity and sovereignty To secure democracy it will need support from the Nigerians themselves the multinational oil companies and the international world

Encyclopedia of the Developing World Thomas M. Leonard, 2013-10-18 A RUSA 2007 Outstanding Reference Title The Encyclopedia of the Developing World is a comprehensive work on the historical and current status of developing countries Containing more than 750 entries the Encyclopedia encompasses primarily the years since 1945 and defines development broadly addressing not only economics but also civil society and social progress Entries cover the most important theories and measurements of development relate historical events movements and concepts to development both internationally and regionally where applicable examine the contributions of the most important persons and organizations and detail the progress made within geographic regions and by individual countries *Civil Wars and Third-Party Interventions in Africa* Audrey Mattoon, 2017-01-20 This book explores the impact and efficiency of Western intervention in African civil wars Emphasizing the relational conditions to the study of interventions it posits the importance of historical institutional relationships not just in the decision to intervene but also in the process of intervention and its outcome Drawing from case studies of American and European intervention in Sierra Leone C te d Ivoire and Mali the author applies a multi method

research design to identify the role colonial legacy plays in shaping the success of interventions Her analysis concludes that the relational context of interventions helps determine the likelihood of success and that not all states are appropriately equipped to intervene in all civil wars which is not simply a function of defense spending on materials This book thus speaks to both academics and policy makers specializing in conflict resolution and conflict dynamics in modern African civil wars

A Century of Crisis and Conflict in the International System Michael Brecher, 2017-07-25 This book is designed to present a fully developed theory of international crisis and conflict along with substantial evidence of these two closely related phenomena The book begins with a discussion of these topics at a theoretical level defining and elaborating on core concepts international crisis interstate conflict severity and impact This is followed by a discussion of the international system along with two significant illustrations the Berlin Blockade crisis 1948 and the India Pakistan crisis over Kashmir 1965 66 The book then presents a unified model of crisis focusing on the four phases of an international crisis which incorporate the four periods of foreign policy crises for individual states Findings from thirteen conflicts representing six regional clusters are then analyzed concluding with a set of hypotheses and evidence on conflict onset persistence and resolution

New Directions in African Military History Timothy J. Stapleton, 2025-06-02 New Directions in African Military History takes a thematic approach to the history of war and military structures in Africa and highlights the under researched areas African Military History represents a relatively new and fast growing sub field bridging the previously wide gap between the well established genres of African History and Military History Based on a synthesis of existing literature and aimed at a wide readership this book adopts a broad temporal range and uses select examples to highlight a series of points to cover the pre colonial to post colonial eras and offer examples from various parts of the continent This volume evaluates controversial academic debates examining evidence research methods approaches and changing historiographical contexts as well as pointing to potential new areas of research It comprises seven thematic chapters on ways of war weapons technology navies air power battles women combatants and genocide in African history This volume will be of value to students and scholars alike interested in Modern History Military History and African History

High-Value Natural Resources and Post-Conflict Peacebuilding Pivi Lujala, 2012-03-29 For most post conflict countries the transition to peace is daunting In countries with high value natural resources including oil gas diamonds other minerals and timber the stakes are unusually high and peacebuilding is especially challenging Resource rich post conflict countries face both unique problems and opportunities They enter peacebuilding with an advantage that distinguishes them from other war torn societies access to natural resources that can yield substantial revenues for alleviating poverty compensating victims creating jobs and rebuilding the country and the economy Evidence shows however that this opportunity is often wasted Resource rich countries do not have a better record in sustaining peace In fact resource related conflicts are more likely to relapse Focusing on the relationship between high value natural resources and peacebuilding in post conflict settings this book identifies opportunities and strategies for converting resource revenues to a peaceful future Its thirty chapters draw on the experiences of forty one researchers and practitioners as well as the broader literature and cover a range of key issues including resource extraction revenue sharing and allocation and institution building The book provides a concise theoretical and practical framework that policy makers researchers practitioners and students can use to understand and address the complex interplay between the management of high value resources and peace High Value Natural Resources and Post Conflict Peacebuilding is part of a global initiative led by the Environmental Law Institute ELI the United Nations Environment Programme UNEP the University of Tokyo and McGill University to identify and analyze lessons in natural resource management and post conflict peacebuilding The project has generated six edited books of case studies and analyses with contributions from practitioners policy makers and researchers Other books in the series address land water livelihoods assessing and restoring natural resources and governance

The Routledge Companion to Decolonization Dietmar Rothermund, 2006-04-18 This is an essential companion to the process of decolonization perhaps one of the most important historical processes of the twentieth century Examining decolonization in Africa Asia the Caribbean and the Pacific the Companion includes thematic chapters a detailed chronology and thorough glossary biographies of key figures maps Providing comprehensive coverage of a broad and complex subject area the guide explores the global context for

decolonization nationalism and the rise of resistance movements resistance by white settlers and moves towards independence Hong Kong and Macau and decolonization in the late twentieth century debates surrounding neo colonialism and the rise of development projects and aid the legacy of colonialism in law education administration and the military With suggestions for further reading and a guide to sources this is an invaluable resource for students and scholars of the colonial and post colonial eras and is an indispensable guide to the reshaping of the world in the twentieth century **Slavery Past, Present and Future** Catherine Armstrong, Jaya Priyadarshini, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2016 Spanning swaths of time and space slavery as a phenomenon has known intersections of class gender race caste etc The historical experiences of slaves is more or less lacking in the pedagogic or intellectual knowledge but its legacy in modern times is felt in the marginalisation stigmatisation remorse or shame of the slave descendants Contrary to historical slavery the presence of modern or twenty first century slavery is variously mired in the complex and contested terrains of its definition Today the political and economic context of human conditions globally has muddled the understanding of servitude Its resurgence in newer avatars along with institutional or informal upholders challenges its abolition Hearing the slave voices more than the hegemonic involvement of the abolitionists is required for its complete abolition A unified public activism and awareness as always will go a long way in ending it while upholding social justice
