Roots in Universal History Rolf A. F. Witzsche, 2003 **A History of the Art of Bookbinding** William Salt

Rosenstock Huessy 1888 1973 one of the most profound and original thinkers of the twentieth century span several
disciplines in the humanities history philosophy sociology linguistics religion although his work is ultimately uncategorizable
In 1933 immediately upon the ascent of Hitler he emigrated to the United States from Germany taught at Harvard for two
years and then at Dartmouth College until 1957 His voice was prophetic urgent compelling and it remains relevant This
collection of essays is by a retired professor of history who was a student of Rosenstock Huessy s in the 1950s and found his
lecturing transformative It is not a nostalgic book however It is written with the conviction that Rosenstock Huessy still
needs to be heard more urgently than ever for the betterment of humankind Catalogue of Stirling's and Glasgow Library

Littell's Living Age , 1850 Annals of the History and Philosophy of Biology 10/2005 , 2006 The name DGGTB Deutsche
Gesellschaft f r Geschichte und Theorie der Biologie German Society for the History and Theory of Biology reflects recent
history as well as German tradition The Society is a relatively late addition to a series of German societies of science and
medicine that began with the Deutsche Gesellschaft f r Geschichte der Medizin und der Naturwissenschaften founded in
1910 by Leipzig University s Karl Sudhoff 1853 1938 who wrote We want to establish a German society in order to gather
German speaking historians together in our special disciplines so that they form the core of an international society Yet
Sudhoff at this time of burgeoning academic internationalism was quite willing to accommodate the wishes of a number of
founding members and drop the word German in the title of the Society and have it merge with an international society The
founding and naming of the Society at that time derived from a specific set of historical circumstances and the same was true
some 80 years later when in 1991 in the wake of German reunification the Deutsche Gesellschaft f r Geschichte und Theorie
der Biologie was founded From the start the Society has been committed to bringing studies in the history and philosophy of
biology to a wide audience using for this purpose its Jahrbuch f r Geschichte und Theorie der Biologie Parallel to the
Jahrbuch the Verhandlungen zur Geschichte und Theorie der Biologie has become the by now traditional medium for the
publication of papers delivered at the Society s annual meetings In 2005 the Jahrbuch was renamed Annals of the History and
Philosophy of Biology reflecting the Society s internationalist aspirations in addressing comparative biology as a subject of

historical and philosophical studies
