The Gift of an Uncle; Or, a Short Description of Some of the Peculiarities of the Animal and Vegetable World, Etc ,1828 *The Gift of Bonds* Roberta de Monticelli,2024-08-01 This book presents the idea of the gift of bonds as the core intuition of phenomenology constituting it into that method of philosophical research that Husserl had in mind when he characterized phenomenology as the culmination and fulfillment of Western philosophy The book clarifies this claim while offering a unitary key to the whole of Husserl s published and posthumous work The idea of the gift of bonds unfolds progressively as a key to understanding the related notions of essence material apriori non empirical data structure ideality and value By unveiling the unitary foundation the key concept discussed in the Third Logical Investigation the present book presents this central notion as capturing the very idea of concreteness as experienced and phenomenologically described in terms of qualitative plena and the not less important class of ideal or abstract objects The author takes this concept to be the core theoretical idea of the entire phenomenological approach to reality and philosophical research and argues for this claim in chapters IV V as it remains a leading thread throughout all chapters of this book This book appeals to students and researchers working in phenomenology

Embracing the Gift of Parenthood Elizabeth Marie Galloway-Evans,2009-04-08 This book concentrates on the relationship between parents and their children It brings to light what children are asking parents to be for them in their lives As parents we feel that we are the ones that have expectations and dreams for our children when in reality the expectations that children have of us are far more explicit and expansive than what we ask of them The funny thing about this is that if we meet their expectations of who it is that we need to be in their lives they will exceed our dreams of what we want for them in their lives

The Gift of Trans-Heritance Randolph E. Okonkwo,2013-07-08 The awareness of the spiritual powers of the infinite God is embedded within the finite plane of mankind The Gift of Trans Heritance delves into the awareness of these spiritual powers The image and likeness of God comes with many other precious gifts transferred to mankind in spirit Mankind inherited tremendous power that comes with the infinitude of the Spirit of God Mankind is alive in abundance of all the gifts given to him from the Infinite Council of Eternal Deliberations The council of the three Godhead The best democratic principles is embedded in the image and likeness of God And more so our lives and science of it is beyond the human comprehension In the expression of God nothing is hidden He shows himself that who he is God has no flaw in all he does including his creations His infinitude is the exact unlimited power that he is The same infinite power is expressed to finitude in the image and likeness of God in spirit There is only one spirit one God and the same one spirit who lives in all people This spirit has no fear of any kind and will never have one The material man has fear for man lives and believes in matter not spirit Where there is no fear there will be no doubt of any kind The belief in this spirit and awareness of this spirit within you rules out any doubt for if you establish oneness with

this spirit you will always have confidence in faith Doubt is opposite of faith and the two can never coexist When we depend with faithfulness and humbleness on He who made us in His image and likeness we would have crossed over to the stage of life in its fullness
