Erotics of War in German Romanticism Patricia Anne Simpson,2006 In *The Erotics of War in German Romanticism* Patricia Anne Simpson explores the ways early nineteenth century German philosophers poets and artists represent war and erotic desire The author argues that gender is connected to a larger debate about the construction of the self in relation to a community at a time that this definition is under revision She analyzes the culture of war as it shapes the bonds of fraternal familial and eventually national identity Simpson defines the erotics of war as discursive attempts to assert the priority of ethical identity and citizenship over individualized desire The seemingly ancillary problem of female desire emerges not as a marginal issue but as the focal point of a debate about identity *Liebe Nach Dem Krieg* Frank Michael Schicketanz,1995

The Ancestry of Rosalie Morris Johnson, 1908 *I Knew Your Friend* John Mark Montagne, 2019-04-01 John is not a hero He is just one of many young Australian men who simply decided to join the war effort in 1916 as a civilian soldier He was put into the 3rd Division of the Australian Imperial Force He never had any ambitions or defined ideas about the volatile and violent campaign for which he had selflessly volunteered He is a young man from one of many families from urban post Edwardian Melbourne who is taken to the Western Front in Europe He became a man in 1916 and the story he tells of his life regarding his family and friends and his life in the war is his own Every human life is uncertain and unique and whether you think John's is one of bravery or sorrow will be entirely your own judgement

American World War II Orphans Network ,2005-03 **Singing Our Way to Victory** Regina M. Sweeney,2023-09-05 Winner of the International Book Award from International Association for the Study of Popular Music 2003 The practice of singing and songwriting in France during the Great War provides an intriguing tool for the exploration of the French cultural

politics of the epoch Responding to the dearth of cultural studies of the First World War Regina Sweeney's unique cross disciplinary study illuminates many of the hitherto unexplored corners of an era that many historians consider to exhibit a break with recognizable trends In early twentieth century Europe singing was considered a part of education integral to the formation of good citizens Singing was especially important to the French for whom it was historically associated with authenticity of feeling and purity of character and thereby with the very roots of French democracy it was particularly associated with the image of France as a victorious nation But as Sweeney shows different performances of the same patriotic song could carry vastly different meanings By focusing on singing Sweeney is able to provide a more nuanced reading of French Great War cultures than ever before and to show that cultures previously held to be exclusive those of the home front and the Western front for example existed in dialectical tension and were themselves far from homogenous
