Beyond Exceptionalism Rebekka Mallinckrodt, Josef Köstlbauer, Sarah Lentz, 2021-08-23 While the economic involvement of early modern Germany in slavery and the slave trade is increasingly receiving attention the direct participation of Germans in human trafficking remains a blind spot in historiography This edited volume focuses on practices of enslavement taking place within German territories in the early modern period as well as on the people of African Asian and Native American descent caught up in them

African Evangelicalism and the Transformation of Africa Jacob K. Olupona, 2025 What is the impact of Evangelical Christianity on Africa Evangelical Christianity and the Transformation of Africa will answer this question Evangelical Christianity is manifesting into a strong

presence in African states perhaps more than in any other place in the world Given its exponential rise in Africa it is increasingly clear that Christianity in its evangelical form is exercising significant influence in virtually all spheres of life defining the essence of public and private life Drawing on original works from leading scholars in humanities and social science disciplines such as Afe Adogame Yolanda Covington Ward Jacob Olupona Derek Peterson Shobana Shankar and Nimi Wariboko this volume endeavors to produce a comprehensive study of Evangelical Christianity in Africa paying careful attention to disciplinary interconnections as well as social cultural political and economic forces Among other subjects essays in this volume address examples of evangelical subjectivity and identity formation against the current political backdrops of Nigeria Kenya the Democratic Republic of Congo and other nations While the book works to convey the core elements of the evangelical movement across the African continent it recognizes the importance of its diverse manifestations giving additional focus to Pentecostal groups and their distinct social cultural and political engagements At the same time it works to correct the unwarranted saturation of attention given to Pentecostal Charismatic movements in recent scholarship and expands the study of evangelicalism in Africa into the sphere of mainline churches and extra ecclesial organizations Authors also reflect on the ways that the African diaspora and transnational ties contribute to the make up of contemporary African evangelicalism In short this edited volume examines how the centrality of religion in African affairs political economic cultural ideological domains has contributed to turning Evangelical Christianity into the official face of the Christian Church in Africa today

History of Ashanti by Otumfuo, Nana Osei Agyeman Prempeh II Tom C McCaskie, 2022-10-31 A history of Asante from the late 17th century to the 1930s authorized and produced by the 12th Asantehene Osei Agyeman Prempeh II Perhaps the single longest historical work produced by a ruler of any sub Saharan African society this is an indigenous account of the three hundred year history of a still vigorous African polity

Venture Smith and the Business of Slavery and Freedom James Brewer Stewart, 2010 The family determined to honor the bicentennial of their founding ancestor s death by discovering everything possible about his life opened burial plots in the hope of recovering DNA for genealogical tracing What began as a scientific inquiry into African origins rapidly evolved into an interdisciplinary collaboration between historians literary analysts geographers genealogists anthropologists political philosophers genomic biologists and perhaps most revealingly a poet Their common goal has been to reconstruct the life of an extraordinary African American and to assay its implications for the sprawling troubled eighteenth century world of racial exploitation over which he triumphed From publisher description

African American Religions, 1500-2000 Sylvester A. Johnson, 2015-08-06 A rich account of the long history of Black religion from the dawn of Western colonialism to the rise of the national security paradigm

Embracing Protestantism John W. Catron, 2016-03-09 In Embracing Protestantism John Catron argues that people of African descent in America who adopted Protestant Christianity during the eighteenth century did not become African Americans but instead assumed more fluid Atlantic African identities America was then the land of slavery and white

supremacy where citizenship and economic mobility were off limits to most people of color In contrast the Atlantic World offered access to the growing abolitionist movement in Europe Catron examines how the wider Atlantic World allowed membership in transatlantic evangelical churches that gave people of color unprecedented power in their local congregations and contact with black Christians in West and Central Africa It also channeled inspiration from the large black churches then developing in the Caribbean and from black missionaries Unlike deracinated creoles who attempted to merge with white culture people of color who became Protestants were Atlantic Africans who used multiple religious traditions to restore cultural and ethnic connections And this religious heterogeneity was a critically important way black Anglophone Christians resisted slavery

Gold Coast Diasporas Walter C. Rucker, 2015-09-28 Provocative and well written a must read for any scholar interested in African identity the transatlantic slave trade and resistance American Historical Review Although they came from distinct polities and peoples who spoke different languages slaves from the African Gold Coast were collectively identified by Europeans as Coromantee or Mina Why these ethnic labels were embraced and how they were utilized by enslaved Africans to develop new group identities is the subject of Walter C Rucker s absorbing study Rucker examines the social and political factors that contributed to the creation of New World ethnic identities and assesses the ways displaced Gold Coast Africans used familiar ideas about power as a means of understanding defining and resisting oppression He explains how performing Coromantee and Mina identity involved a common set of concerns and the creation of the ideological weapons necessary to resist the slavocracy These weapons included obeah powders charms and potions the evolution of peasant consciousness and the ennoblement of common people increasingly aggressive displays of masculinity and the empowerment of women as leaders spiritualists and warriors all of which marked sharp breaks or reformulations of patterns in their Gold Coast past One of the book s greatest strengths is the ways in which Rucker painstakingly traces how ethnic labels were appropriated recast and ultimately employed as a means to establish community bonds and resist oppression Chapters that focus on the creation of the Gold Coast diaspora religion and women make for a captivating text that will be of interest to graduate students and specialist readers Recommended Choice *The African Book Publishing Record* ,2003
