Julien-David Leroy and the Making of Architectural History Christopher Drew Armstrong,2013-04-15 This book examines the career and publications of the French architect Julien David Leroy 1724 1803 and his impact on architectural theory and pedagogy Despite not leaving any built work Leroy is a major international figure of eighteenth century architectural theory and culture Considering the place that Leroy occupied in various intellectual circles of the Enlightenment and Revolutionary period this book examines the sources for his ideas about architectural history and theory and defines his impact on subsequent architectural thought This book will be of key interest to graduate students and scholars of Enlightenment era architectural history

The End is Nigh Robert Crowcroft,2019-05-23 Few decades have given rise to such potent mythologies as the 1930s Popular impressions of those years prior to the Second World War were shaped by the single outstanding personality of that conflict Winston Spencer Churchill Churchill depicted himself as a political prophet exiled into the wilderness prior to 1939 by those who did not want to hear of the growing threats to peace in Europe Although it is a familiar story it is one we need to unlearn as the truth is somewhat murkier The End is Nigh is a tale of relentless intrigue burning ambition and the bitter rivalry in British politics during the years preceding the Second World War Journeying from the corridors of Whitehall to the smoking rooms of Parliament and from aircraft factories to summit meetings with Hitler the

book offers a fresh and provocative interpretation of one of the most crucial moments of British history. It assembles a cast of iconic characters: Churchill, Neville Chamberlain, Stanley Baldwin, Clement Attlee, Anthony Eden, Ernest Bevin, and more, to explore the dangerous interaction between high politics at Westminster and the formulation of national strategy in a world primed to explode. In the twenty-first century, we are accustomed to being cynical about politicians, mistrusting what they say and wondering about their real motives, but Robert Crowcroft argues that this was always the character of democratic politics. In *The End is Nigh*, he challenges some of the most resilient public myths of recent decades, myths that even now remain an important component of Britain's self-image. The Invention of the Restaurant Rebecca L. Spang, 2020-01-14

Winner of the Louis Gottschalk Prize, Winner of the Thomas J. Wilson Memorial Prize, Witty and full of fascinating details. *Los Angeles Times*: Why are there restaurants? Why would anybody consider eating alongside perfect strangers in a loud and crowded room to be an enjoyable pastime? To find the answer, Rebecca Spang takes us back to France in the eighteenth century when a restaurant was not a place to eat but a quasi-medicinal bouillon, not unlike the bone broths of today. This is a book about the French revolution in taste, about how Parisians invented the modern culture of food, changing the social life of the world in the process. We see how, over the course of the Revolution, restaurants that had begun as purveyors of health food became symbols of aristocratic greed. In the early nineteenth century, the new genre of gastronomic literature worked within the strictures of the Napoleonic state to transform restaurants yet again, this time conferring star status upon oysters and champagne. An ambitious thought-changing book. Rich in weird data, unsung heroes, and bizarre true stories. *Adam Gopnik, New Yorker*: A pleasingly spiced history of the restaurant. *New York Times*: A lively, engrossing, authoritative account of how the restaurant as we know it developed. Spang is as generous in her helpings of historical detail as any glutton could wish. *The Times*.

Jefferson's Education Alan Taylor, 2019-10-15 Taylor probes Jefferson's ambitious mission in clear prose and with great insight and erudition. Annette Gordon-Reed, *Atlantic*: By turns entertaining and tragic, this elegant history reveals the origins of a great university in the dilemmas of Virginia slavery. Thomas Jefferson shares center stage with his family and fellow planters, but at the crux are the enslaved black families on whom they depend. Taylor's account of Jefferson's campaign to

save Virginia by building the university is dramatic a contest for power and resources rich in political maneuver and eccentricities comic and cruel
