Sectoral Clash And Industrialization In Latin America:

Sectoral Clash and Industrialization in Latin America Dale Story, 1981 **Industry, the State, and Public Policy in Mexico** Dale Story, 2014-10-01 The industrialization process in Mexico began before that of any other nation in Latin America except Argentina with the most rapid expansion of new industrial firms occurring in the 1930s and 1940s and import substitution in capital goods evident as early as the late 1930s Though Mexico's trade relations have always been dependent on the United States successive Mexican presidents in the postwar period attempted to control the penetration of foreign capital into Mexican markets In *Industry the State and Public Policy in Mexico* Dale Story recognizing the significance of the Mexican industrial sector analyzes the political and economic role of industrial entrepreneurs in postwar Mexico He uses two original data sets industrial production data for 1929 1983 and a survey of the political attitudes of leaders of the two most important industrial organizations in Mexico to address two major theoretical arguments relating to Latin American development the meaning of late and dependent development and the nature of the authoritarian state Story accepts the general relevance of these themes to Mexico but asserts that the country is an important variant of both With regard to the authoritarian thesis the Mexican authoritarian state has demonstrated some crucial distinctions especially between popular and elite sectors The incorporation of the popular sector groups has closely fit the characteristics of authoritarianism but the elite sectors have operated fairly independently of state controls and the government has employed incentives or inducements to try to win their cooperation In short industrialists have performed important functions not only in accumulating capital and organizing economic enterprises but also by bringing together the forces of social change Industrial entrepreneurs have emerged as a major force influencing the politics of growth and the public policy arena has become a primary focus of attention for industrialists since the end of World War II **The State And The Industrialization Crisis In Turkey** Henri J Barkey, 2019-07-11 This book re evaluates the politics of the maligned industrialization strategy and examines Turkey's attempts to implement it in the 1960s and 1970s It argues that Import Substituting Industrialization itself is not responsible for the failure of Turkey's industrialization efforts *The Theory of Sectoral Clashes* Markos Mamalakis, 1970 *Latin America's International Relations and Their Domestic Consequences* Jorge I Dominguez, 2014-01-21 First Published in 1994 Volume 6 in the 7 volume series titled *Essays on Mexico Central and South America Scholarly Debates from the 1950s to the 1990s* The central scholarly articles concern interstate peace along with a U S propensity to intervene and international structural vulnerabilities and economic asymmetries along with the significance of elite skills and choices This title recognises that scholars have paid more attention to international economics in Latin America and seeks to balance the range study *The Nafta Puzzle* Charles Doran, Gregory P Marchildon, 2019-06-21 The editors would like to thank the Donner Foundation the Draeger Foundation and the Government of Canada for their timely and generous support of this study The study was initiated by the editors as part of the research program of the

Center of Canadian Studies at the Paul H Nitze School of Advanced International Studies The Johns Hopkins University Washington D C and the emerging affiliated program in North American Studies Particular appreciation goes to Dr Barbara G Doran for the final editing of the entire manuscript In addition to the individuals acknowledged in each of the chapters the editors thank those scholars who helped guide the project at various times with constructive criticism and discussion Tom Barnes Robert Bothwell Reuven Brenner David Calleo Colin Campbell Benjamin Ginsberg Judith Goldstein Peter Katzenstein Allan Kornberg Jonathan Lemco Seymour Martin Lipset Charles Lipson Charles Pearson Richard Rosecrance and Sidney Weintraub *Latin America in Books*, 1986 Debt, Development, and Democracy Jeffry A. Frieden, 2018-06-05 In the 1970s and 1980s the countries of Latin America dealt with their similar debt problems in very different ways ranging from militantly market oriented approaches to massive state intervention in their economies while their political systems headed toward either democracy or authoritarianism Applying the tools of modern political economy to a developing country context Jeffry Frieden analyzes the different patterns of national economic and political behavior that arose in Argentina Brazil Chile Mexico and Venezuela This book will be useful to those interested in comparative politics international studies development studies and political economy more generally Jeffry Frieden weaves together a powerful theoretical framework with comparative case studies of the region's five largest debtor states The result is the most insightful analysis to date of how the interplay between politics and economics in post war Latin America set the stage for the dramatic events of the 1980s Carol Wise Center for Politics and Policy Claremont Graduate School *Latin American State Building in Comparative Perspective* Marcus J. Kurtz, 2013-03-18 Latin American State Building in Comparative Perspective provides an account of long run institutional development in Latin America that emphasizes the social and political foundations of state building processes The study argues that societal dynamics have path dependent consequences at two critical points the initial consolidation of national institutions in the wake of independence and at the time when the social question of mass political incorporation forced its way into the national political agenda across the region during the Great Depression Dynamics set into motion at these points in time have produced widely varying and stable distributions of state capacity in the region Marcus J Kurtz tests this argument using structured comparisons of the post independence political development of Chile Peru Argentina and Uruguay **The Macroeconomics of Populism in Latin America** Rudiger Dornbusch, Sebastian Edwards, 2007-12-01 Again and again Latin America has seen the populist scenario played to an unfortunate end Upon gaining power populist governments attempt to revive the economy through massive spending After an initial recovery inflation reemerges and the government responds with wage and price controls Shortages overvaluation burgeoning deficits and capital flight soon precipitate economic crisis with a subsequent collapse of the populist regime The lessons of this experience are especially valuable for countries in Eastern Europe as they face major political and economic decisions Economists and political scientists from the United States and Latin America detail in this volume how and why such programs go wrong and what

leads policymakers to repeatedly adopt these policies despite a history of failure Authors examine this pattern in Argentina Brazil Chile Mexico Nicaragua and Peru and show how Colombia managed to avoid it Despite differences in how each country implemented its policies the macroeconomic consequences were remarkably similar Scholars of Latin America will find this work a valuable resource offering a distinctive macroeconomic perspective on the continuing controversy over the dynamics of populism

The Palgrave Handbook of Political Economy Ivano Cardinale, Roberto Scazzieri, 2018-08-16 This book is a major contribution to the study of political economy With chapters ranging from the origins of political economy to its most exciting research fields this handbook provides a reassessment of political economy as it stands today whilst boldly gesturing to where it might head in the future This handbook transcends the received dichotomy between political economy as an application of rational choice theory or as the study of the causes of societies material welfare outlining a broader field of study that encompasses those traditions This book will be essential reading for academics researchers students and anyone looking for a comprehensive reassessment of political economy

The Politics of Inflation and Economic Stagnation Leon

Lindberg, Charles S. Maier, 1985-06-01 The inflation of the 1970s represented the greatest peacetime disruption of the Western economies since the Depression Even as inflation receded the recession in its wake brought more joblessness than at any time since the 1930s The governments of industrialized nations found that the economic policies they had developed since World War II no longer assured price stability or high employment What are the lessons of over a decade of economic difficulty In this conference volume which focuses on aspects of the crisis that economists often presuppose to be beyond control the authors analyze the political and social underpinning of inflation and recession Part 1 places the economic problems of the 1970s in the historical context of postwar development and then compares economic and political science analyses of inflation Part 2 examines how rivalries between social groups affect inflationary processes One chapter draws on the history of Latin American inflation to suggest the conflicts in play Two others weigh the role of labor and industry in the formation of economic policy And another shows how rivalry between countries like rivalry between classes at home permitted inflation to rise The chapters in part 3 contest the claim that big government or big labor causes inflation Two studies emphasize that a high degree of public expenditure does not itself lead to inflation Further contributions explore the role of central banks and subject such concepts as the political business cycle to critical analysis Part 4 comprises case studies about macroeconomic policymaking in four nations Italy Germany Japan and Sweden The studies reveal what institutional attributes rendered those countries resistant to inflation or vulnerable to economic setback In the last part the editors pull together the findings and lay out the contemporary political feasibility of alternative approaches to macroeconomic management Social Conflict, Political Institutions and Economic Performance in Argentina Juan José López, 1994 **The Populist Challenge** Lars Schoultz, 2018-06-15 Schoultz examines the fundamental political cleavage between classical liberalism and the populist Peronist political movements in Argentina identifying the socioeconomic structural features that led to this division and focusing on changes in social class composition that accompanied major demographic shifts and alterations in economic activity He dominated the electoral process that liberals are able to control public policy only through ties to the military Originally published in 1983 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value Handbook of Development Economics Hollis Chenery, Hollis Burnley Chenery, 1988 Economics development concepts and approaches structural transformation human resources and labor markets planning and resource allocation international aspects country experience with development Urbanization in the Americas from its Beginning to the Present Richard P.
