Secular Agenda:

A Secular Agenda Arun Shourie, 1997 **Postsecular Catholicism** Michele Dillon, 2018-03-01 The Catholic Church faces the challenge of maintaining its relevance in an increasingly secularized society On issues ranging from sexuality and gender equality to economic policy and social welfare the church hierarchy is frequently out of step with Catholics and non Catholics alike In *Postsecular Catholicism* Michele Dillon argues that the Church's relevance is increasingly contingent on its ability to incorporate secular experiences and expectations into the articulation of the Church's teachings Informed by the postsecular notion that religious and secular actors should recognize their mutual relevance in contemporary society Dillon examines how secular realities and church doctrine intersect in American Catholicism She shows that the Church's 21st century commitment to institutional renewal has been amplified by Pope Francis's vision of public Catholicism and his accessible language and intellectual humility Combining wide ranging survey data with a rigorous examination of Francis's statements on economic inequality climate change LGBT rights and women's ordination the highly consequential Vatican Synod on the Family and the US Bishops religious freedom campaign *Postsecular Catholicism* assesses the initiatives and strategies impacting the Church's relevance in the contemporary world **The Origins of Secular Institutions** H. Zeynep Bulutgil, 2022 An original theory and meticulous analysis of how advocates of political secularization emerged historically and why they succeeded in some contexts but not others Why do some countries adopt secular institutions while others do not In *The Origins of Secular Institutions* Zeynep Bulutgil develops a theory that combines ideational and organizational mechanisms to explain how institutional secularization occurs She first focuses on why political groups with a secularizing agenda emerge Her argument is that the circulation of Enlightenment literature among the elite and associations through which the elite could exchange ideas were the main factors that influenced the early emergence of secularizing political movements She then turns to the conditions under which these movements succeed Secularizing political groups are at a comparative disadvantage when it comes to recruiting grassroots support because unlike religious actors they cannot rely on a pre existing institutional structure They become likely to overcome this obstacle if they have time to build a robust organization before religious political movements emerge Bulutgil supports these arguments by combining statistical analysis of original historical data with comparative analysis of countries in Europe France Spain The United Kingdom and the Middle East North Africa Turkey Morocco and Tunisia An authoritative explanation of why political secularization occurred in some countries but not others this book will reshape our understanding of an issue of unsurpassed importance for over two centuries the effects of modernity on politics **Between State and Synagogue** Guy Ben-Porat, 2013-03-25 A thriving yet small liberal component in Israeli society has frequently taken issue with the constraints imposed by religious orthodoxy largely with limited success However Guy Ben Porat suggests in recent years in part because of demographic changes and in part because of the influence of an increasingly consumer oriented society dramatic changes have occurred in secularization

of significant parts of public and private lives Even though these fissures often have more to do with lifestyle choices and economics than with political or religious ideology the demands and choices of a secular public and a burgeoning religious presence in the government are becoming ever more difficult to reconcile The evidence which the author has accrued from numerous interviews and a detailed survey is nowhere more telling than in areas that demand religious sanction such as marriage burial the sale of pork and the operation of businesses on the Sabbath

Limiting Secularism Priya Kumar,2008-01-01 With a backdrop of religious violence and escalating regional tensions in South Asia Priya Kumar's *Limiting Secularism* probes the urgent topic of secularism and tolerance in Indian culture and life Kumar explores Partition as the founding trauma of the Indian nation state and traces the consequences of its marking off of Indian from Pakistani and the positioning of Indian Muslims as strangers within the nation Kumar unpacks the implications of the Nehruvian doctrine of tolerance with all of its resonances of condescension and inequality and asks whether more ethical cohabitation can replace the arrogant compulsive tolerance of the state and the majority Informed by Jacques Derrida's recent work on hospitality and living together Kumar argues for the emergence of an ethics of coexistence in Indian fiction and film Considering narratives ranging from the cosmopolitan English novels of Rushdie and Ghosh to literature in South Asian languages as well as recent Hindi cinema Kumar demonstrates that these fictions are important resources for reimagining tolerance and coexistence Distinctive and timely in its investigation of secularism and communalism *Limiting Secularism* works to envision the radical possibilities of going beyond tolerance to living well together Priya Kumar is associate professor of English at the University of Iowa

Bold Faith Ben Pugh,2017-03-09 Bill Johnson Joyce Meyer Heidi Baker The fame of these names is evidence enough that though the controversies are less intense the Charismatic Movement is alive and well today It continues to attract thousands of adherents who find its vision of a supernatural lifestyle uniquely compelling Now for the first time all that is most theologically innovative about the movement is synthesized into five distinct and original ideas These five brand new theologies have been created not by theologians but by practitioners who believed their concepts were inspired by the Spirit Inner Healing Shepherding Word of Faith Spiritual Warfare and Signs and Wonders Plenty of studies have been written by Pentecostal scholars about Pentecostal theology but these tend to group the very distinct approaches of Charismatics together with Classical Pentecostals *Bold Faith* aims to analyze and evaluate the ways in which practitioners within independent Charismatic networks especially in their Anglo American expressions have responded to the challenges of secular modernity

Political Violence in Judaism, Christianity, and Islam Jonathan Fine, 2015-03-26 Religious political violence is by no means a new phenomenon yet there are critical differences between the various historical instances of such violence and its more current permutations Since the mid 1970s religious fundamentalist movements have been seeking to influence world order by participating in local political systems For example Islamic fundamentalism is at the heart of the Muslim Brotherhood in Egypt the Christian fundamental right wing has seen a resurgence in Europe and Jewish fundamentalism is behind the actions of Meir Kahane's Kach movement and the settler movement The shift in recent years from secular to religious political violence necessitates a reevaluation of contemporary political violence and of the concept of religious violence This text analyzes the evolution of religious political violence in both historical and contemporary perspectives Since religious political violence events are usually associated with the term terrorism the book first analyzes the origins of this controversial term and its religious manifestations It then outlines and highlights the differences between secular and religious political violence on ideological strategic and tactical levels before comparing the concept of Holy War in Judaism Christianity and Islam Lastly it shows how modern radical monotheistic religious groups interpret and manipulate their religious sources and ideas to advocate their political agendas including the practice of violence A unique comparative study of religious political violence across Judaism Islam and Christianity this text features many international case studies from the Crusades to the Arab Spring

Mapping the Academic Debate Johannes Duschka, Christoph Kleine, Monika Wohlrab-Sahr, Florian Zemmin, 2024-12-16 This volume maps the international academic debate on secularity It places seminal contributions from within Western academia alongside less well known texts from various parts of the world in several cases this is the first time that they have been translated into English The volume demonstrates that the academic debate on secularity was and is a global debate with contributions from many regions The collected texts relate to each other either directly or indirectly by referring to similar arguments whether reinforcing or criticising them and thus create a discourse When speaking of global secularity we therefore do not insinuate a uniform world secularity resulting from the alleged global diffusion of Western norms ideas and concepts It is rather a web of relations that is constituted via various different references These references are not evenly distributed the development in the West is often the point of reference to which positions from other regions relate to which they connect or from which they distance themselves But the references are not completely unidirectional We also present texts from Europe that underline the multidirectionality of the process even early on Thereby the volume offers the reader the material with which to trace these global exchanges and

references **A Multicultural Entrapment** Michael Karayanni, 2020-12-17 The religion and state debate in Israel has overlooked the Palestinian Arab religious communities and their members focusing almost exclusively on Jewish religious institutions and norms and Jewish majority members Because religion and state debates in many other countries are defined largely by minority religions issues the debate in Israel is anomalous Michael Karayanni advances a legal matrix that explains this anomaly by referencing specific constitutional values At the same time he also takes a critical look at these values and presents the argument that what might be seen as liberal and multicultural is at its core just as illiberal and coercive In making this argument A Multicultural Entrapment suggests a set of multicultural qualifications by which one should judge whether a group based accommodation is of a multicultural nature **After Saddam** Dina Badie, 2017-07-25 After Saddam American Foreign Policy and the Destruction of Secularism in the Middle East investigates the manner in which American foreign policy in Iraq artificially shifted the balance of power in the region and brought religious identities to the foreground Deposing Saddam Hussein resulted in a new regional order that diminished the strength of secular nationalism elevated Iran and Saudi Arabia as regional rivals and by implication established a new ideological paradigm that privileged competing religious factions over secular ideals The trend first manifested itself in Iraq during the American occupation with Iranian backed Shiites fighting Saudi supported Sunnis A similar dynamic is evident in current regional wars in Syria and Yemen By elevating particular groups through rhetorical financial and military support civil conflicts in the Middle East reflect the ideologies behind the Saudi Iranian rivalry This book therefore looks beyond popular narratives of intractable long standing Sunni Shia conflict to explain the source of current sectarian tension as a product of balance of power dynamics It also helps to explain the fracturing of the region that created a ripe environment for groups like the Islamic State to capitalize on sectarian grievances This book relies and builds on balance of power theorizing by looking at the way that traditional competition for power between states and nonstate actors shapes ideological competition For example during the Cold War the two major world powers the U S and the Soviet Union helped to shape international conflicts so that the narrative of capitalism vs communism played a prominent role in civil and international conflicts such as in Korea Nicaragua or Angola By meddling in the internal affairs of states arming rebel groups and lending support to competing factions the U S and U S S R shaped not only outcomes but also the ideas underpinning conflicts Today a similar dynamic can be discerned in the Middle East *Why Politics Needs Religion* Brendan Sweetman, 2010-07-17 Can religion and politics mix Many voices reply No way Yet in this provocative and timely book Brendan Sweetman argues against this charge and the various sophisticated arguments that support it As we witness the clash of religious and secular worldviews he claims that our pluralistic democratic society will be best served when the faith elements of secularism are acknowledged and the rational elements of religious arguments are allowed to inform the momentous debates taking place in the public square In fact Sweetman contends that politics needs religion if it is to be truly democratic concerned with fairness among worldviews equality and a

vigorous public discussion **Sociological Knowledge and Collective Identity** Stavit Sinai, 2019-03-28 Sociology emerging in the 19th century as the study of national societies is the intellectual product of its time power relations and social imaginaries As a discursive practice that was enmeshed in the meta narratives of modernity the discipline of sociology bears the inherent capacity to shape socially shared concepts and construct collective identities This book examines the relationships between sociology and projects of national identity construction and presents a critique of Shmuel N Eisenstadt the prominent Israeli sociologist known as the father of Israeli sociology The book focuses on Eisenstadt s sociology of Israel as a case of knowledge construction within an ideological system and examines the relationships between his various sociological analyses of Israeli society and the Zionist imaginary namely the deeply entrenched political myths and historiographical narratives that constitute Israel s hegemonic national identity By emphasizing the interrelation between textuality identity and loaded language the volume seeks to demythologize Eisenstadt s sociology of Israel Three major concepts in Eisenstadt s scholarship are specifically thematized integration civilization and modernities In each of these foci the author shows how Eisenstadt s sociological conjectures reproduce dominant Zionist historiographical representations of the past rationalize prevalent social hierarchies reify the boundaries of a national collective Self and render legitimacy to Israel s governing ethnocratic tendencies underlying the premises of the Zionist settler colonial project Sociological Knowledge and Collective Identity will appeal to those interested in the interconnectedness of sociology and political memory as well as in a radical postcolonial reconstruction of sociology *Indian Economy and Society in the Era of Globalisation and Liberalisation* Ali Mohammed Khusro, N. S. Siddharthan, 2005 A Tribute To The Great Economist Prof A M Khusro This Book Seeks To Address Issues Of Current Relevance Agriculture Land Reforms And Anti Poverty Programmes Environment Globalisation Liberalisation And Trade Macro Models And Growth Population Secularism And Religion **Post-Hindu India** Kancha Ilaiah Shepherd, 2023-11-30 Kancha Ilaiah Shepherd pens a thought provoking critique of Brahmanism and the caste system in India while anticipating the death of Hinduism as a direct consequence of what he says is its anti scientific and anti nationalistic stand This work challenges Hinduism s interpretation of history with a virulent attack on caste politics and also takes a refreshing look at the necessity of encouraging indigenous scientific thought for the sake of national progress

Humanism and the Challenge of Difference Anthony B. Pinn, 2018-10-03 This book explores the implication of diversity for humanism Through the insights of academics and activists it highlights both the successes and failures related to diversity marking humanism in the US and internationally It offers a timely depiction of how humanism in general as well as how particular humanist communities have wrestled with the nature of our changing world and the issues that surface in relationship to markers of difference **Mission and Development** Matthew Clarke, 2012-01-26 This book considers the implications consequences opportunities and constraints faced when mission and development endeavours coincide This is explored from various perspectives including that of history theology and those involved in mission work and missionary

organizations Despite eighty per cent of the world's population professing religious belief religion has been largely excluded from consideration of those seeking to achieve development in poorer countries Moreover the work of missionaries has often involved the provision of basic welfare services that in many parts of the world predate the interventions undertaken by professional secular aid workers Are missionaries doing development work or is development a critical aspect of mission

Women and The Hindu Right Urvashi Butalia, Tanika Sarkar, 1995-06-30 This work attempts to break new ground by posing questions about women's activism within the Hindu right a crucial issue that has barely been addressed These essays look at gender within the framework of larger questions the organizational history of the formation still developing we call the Hindu Right its relationship to change in religious processes economic developments caste politics and constitutional crisis over the last few decades The essays also pose difficult questions for the theory and practice of feminist politics which has tended to identify women's political activism with emancipatory politics Right wing movements it has been assumed have because of their emphasis on tradition an inverse relationship to women's politicization Yet violently communal politics have pulled women into militant politics What do these and other questions and paradoxes mean for the theory and practice of feminist politics and how do right wing strategies and tactics compare with those developed by radical women's groups

Medjugorje and the Supernatural Daniel Maria Klimek, 2018-03-01 In 1981 six young people in the village of Medjugorje in what was then Yugoslavia now Bosnia Herzegovina reported that the Virgin Mary had appeared to them The Medjugorje visionaries say that Mary has returned every day since then bringing them important messages from heaven to convey to the world Over the past three decades the Medjugorje visionaries have been subjected to extensive medical psychological and scientific examination even while undergoing their visionary experiences Daniel Klimek analyzes the scientific studies on the visionaries in juxtaposition with the major scholars and debates surrounding religious experience and concludes that a multidisciplinary approach grants a more holistic and deeper understanding of such extraordinary religious experiences

Looking Back to Look Forward Niels De Nutte, Bert Gasenbeek, 2019-11-13 The number of secular people has increased substantially over the past several decades and research on secularism and non religion has been on the rise these past years Yet until today no publication had examined the evolution of organised freethought and subsequent secular humanism as it emerged in different Western countries in a comparative perspective In this book a team of historians brings together the histories of secular humanism in some pioneer countries They examine how organised freethought evolved in the Netherlands Belgium Great Britain and the United States in the aftermath of World War II As secular humanist organisations in these countries are some of the cofounders and long lasting members of Humanists International formerly International Humanist and Ethical Union this book reveals how Western humanism developed in different circumstances
