Reilly, Samuel Estreicher, 2010-04-30 Most employers know that rewarding their best workers is good business However the return on such investment is difficult to measure and wise employers think long and hard about two of their largest expense items employee benefits and executive compensation Today in the United States under the glare of issues raised by the current financial crisis company sponsored benefits programs have become mere shadows of what they once were and executive compensation has come under intense scrutiny to the point where the Treasury Department monitors it at companies receiving federal assistance In recognition of the growing importance of employee benefits and executive compensation issues the Center for Labor and Employment Law at New York University School of Law dedicated New York University's 59th Annual Conference on Labor to an in depth examination of these topics This volume of the proceedings of the 2006 conference contains papers presented at that meeting all here updated to reflect recent developments It also includes contributions from other practitioners and academics with extensive knowledge and experience in this specialized field of labor and employment law **Employee and employer views on retirement security** United States.
