**Roles in Peace and Security** Manuela Scheuermann, Anja Zürn, 2019-08-09 This volume examines the specific gender roles in peace and security. The authors analyse the implementation process of United Nations Security Council Resolution 1325 in various countries and discuss systemic challenges concerning the Women Peace and Security agenda. Through in-depth case studies, the authors shed new light on topics such as the gender-related mechanisms of peace processes, gender training practices for police personnel and the importance of violence prevention. The volume studies the role of women in peace and security as well as questions of gender mainstreaming by adopting various theoretical concepts including feminist theories, concepts of masculinity, organizational and security studies. It also highlights regional and transnational approaches for the implementation of the Women Peace and Security agenda, namely the perspectives of the European Union, NATO, the UN bureaucracy and the civil society. It presents best cases and political advice for tackling the problem of gender inequality in peace and security.

Women, Peace and Security Joan Johnson-Freese, 2018-11-08 This book offers an accessible overview of the multiple interdependent issues related to the Women Peace and Security (WPS) global agenda. The first introductory overview of the WPS agenda as articulated in multiple national and international resolutions, statements and initiatives, the book provides a link between the general public and security practitioners to an important but still largely unknown set of global objectives regarding gender equality and long-term peace and stability. Within the context of the changing nature of warfare and through consideration of empirical evidence, the volume examines the definitions, theoretical underpinnings and methodological challenges associated with WPS. It then discusses with more specificity violence against women, women civilians in war, the role of women in peacemaking, women in the military and in development, and women politicians. The book concludes with a look to the future and a number of action items from the macro to the micro level. While challenges and opportunities related to the WPS agenda are global, US policy action and inaction related to WPS and gender equality are provided as examples of what politically needs to be done, has been done, and obstacles to WPS furtherance potentially to be encountered by all countries. This book will be of much interest to students of peace studies, security studies, gender studies, and IR.
