Visionaries and Metropolitan Boosters Matthew Dalbey, 2002-06-30 Dalbey Jackson State U hypothesizes that US regional parkways of the 1920s and 1930s emerged out of two conflicting visions of regional planning and examines how the conflict impacted the development of Skyline Drive in Virginia and the proposed Green Mountain Parkway in Vermont The regional view he says coalesced around the work of Benton MacKaye Lewis Mumford and the Regional Planning Association of America and the metropolitan view grew out of market oriented economic boosterism efforts and was supported by Thomas Adams and the Regional Plan of New York and its Environs He also shows how the tussle between vision and reality social reform or economic optimization continues to inform planning Annotation copyrighted by Book News Inc Portland OR

Ross-Bryant, 2013 National Parks America's Best Idea were from the first seen as sacred sites embodying the God-given specialness of American people and American land and from the first they were also marked as tourist attractions. The inherent tensions between these two realities ensured the parks would be stages where the country's conflicting values would be performed and contested. As pilgrimage sites embody the values and beliefs of those who are drawn to them so Americans could travel to these sacred places to honor experience and be restored by the powers that had created the American land and the American enterprise. This book explores the importance of the discourse of nature in American culture, arguing that the attributes and symbolic power that had first been associated with the new world and then the frontier were embodied in the National Parks. Author Ross Bryant focuses on National Parks as pilgrimage sites around which a discourse of nature developed and argues the centrality of religion in understanding the dynamics of both the language and the ritual manifestations related to National Parks. Beyond the specific contribution to a richer analysis of the National Parks and their role in understanding nature and religion in the U.S., this volume contributes to the emerging field of religion and the environment, larger issues in the study of religion, e.g., cultural events and the spatial element in meaning-making and the study of non-institutional religion.

Old Wheelways Robert L. McCullough, 2024-06-11 How American bicyclists shaped the landscape and left traces of their journeys for us in writing, illustrations, and photographs. In the later part of the nineteenth century, American bicyclists were explorers cycling through both charted and uncharted territory. These wheelmen and wheelwomen became keen observers of suburban and rural landscapes and left copious records of their journeys in travel narratives, journalism, maps, photographs, illustrations. They were also instrumental in the construction of roads and paths, wheelways, building them, funding them, and lobbying legislators for them. Their explorations shaped the landscape and the way we look at it; yet, with few exceptions, their writings have been largely overlooked by landscape scholars, and many of the paths cyclists cleared have disappeared. In *Old Wheelways*, Robert McCullough restores the pioneering cyclists of the nineteenth century to the history of American landscapes. McCullough recounts marathon cycling trips around the Northeast undertaken by hardy cyclists who then describe their journeys in such magazines as *The Wheelman*, *Illustrated*, and *Bicycling World*, the work of illustrators including Childe Hassam, before his fame as a painter, efforts by cyclists to build better rural roads and bicycle paths, and conflicts with park planners including the famous Olmsted Firm, who often opposed separate paths for bicycles. Today's ubiquitous bicycle lanes owe their origins to nineteenth-century versions including New York City's asphalt ribbons. Long before there were rails to trails, there was a movement to adapt existing passageways, including aqueduct corridors, trolley rights-of-way, and canal towpaths, for bicycling. The campaigns for wheelways, McCullough points out, offer a prologue to nearly every obstacle faced by those advocating bicycle paths and lanes today. McCullough's text is enriched by more than one hundred historic images of cyclists, often attired in skirts and bonnets, suits and ties, country lanes, and city streets.

Consuming Landscapes Thomas Zeller, 2022-10-04 What we see through our windshields reflects ideas

about our national identity consumerism and infrastructure For better or worse windshields have become a major frame for viewing the nonhuman world The view from the road is one of the main ways in which we experience our environments These vistas are the result of deliberate historical forces and humans have shaped them as they simultaneously sought to be transformed by them In *Consuming Landscapes* Thomas Zeller explores how what we see while driving reflects how we view our societies and ourselves the role that consumerism plays in our infrastructure and ideas about reshaping the environment in the twentieth century Zeller breaks new ground by comparing the driving experience and the history of landscaped roads in the United States and Germany two major automotive countries He focuses specifically on the Blue Ridge Parkway in the United States and the German Alpine Road as case studies When the automobile was still young an early twentieth century group of designers landscape architects civil engineers and planners sought to build scenic infrastructures or roads that would immerse drivers in the landscapes that they were traversing As more Americans and Europeans owned cars and drove them however they became less interested in enchanted views safety became more important than beauty Clashes between designers and drivers resulted in different visions of landscapes made for automobiles As strange as it may seem to twenty first century readers many professionals in the early twentieth century envisioned cars and roads if properly managed as saviors of the environment *Consuming Landscapes* illustrates how the meaning of infrastructures changed as a result of use and consumption Such changes indicate a deep ambivalence toward the automobile and roads prompting the question can cars and roads bring us closer to nature while deeply altering it at the same time

Meaningful Places Rachel McLean Sailor, 2014-03-01 The early history of photography in America coincided with the Euro American settlement of the West This thoughtful book argues that the rich history of western photography cannot be understood by focusing solely on the handful of well known photographers whose work has come to define the era Art historian Rachel Sailor points out that most photographers in the West were engaged in producing images for their local communities These pictures didn't just entertain the settlers but gave them a way to understand their new home Photographs could help the settlers adjust to their new circumstances by recording the development of a place revealing domestication alteration and improvement The book explores the cultural complexity of regional landscape photography western places and local sociopolitical concerns Photographic imagery like western paintings from the same era enabled Euro Americans to see the new landscape through their own cultural lenses shaping the idea of the frontier for the people who lived there

Collapse Douglas E. Schoen, 2019-03-12 *Collapse* takes stock of a volatile and threatening international environment by looking at some of the underlying causes and flashpoints the principal one being the failure of institutions and elites to respond to their constituencies and address the problems of our age This is a problem spanning the increased polarization that bred nationalist and populist movements the continued failure of Western leaders to come up with effective

strategies for combating authoritarian rivals like Russia and China and the ongoing Islamist threat Schoen makes clear that the indispensable ingredient for any constructive path forward is effective engaged and committed American leadership This is discussed through the lens of the failed models of President Trump s two recent predecessors which reflected respectively an uncritical embrace of American power lacking strategic insight and proportion and an uncritical abandonment of American leadership that suggested an abject view of the U S moral example in the world Instead Schoen posits assertive democratic idealism an embrace of U S moral leadership around the world but in ways that remain leavened by realism and a guiding understanding of our national interest Whether President Trump can deliver on such a vision remains to be seen

Extraction Politics Nicholas S. Paliewicz, 2024-03-12 An investigation into one of the largest and most lucrative mineral mining companies in the world Rio Tinto *Extraction Politics* reveals how the company constructs a presence in the places it operates and shapes meanings and orientations toward the environment Taking readers on a rhetorical pilgrimage across the American Southwest Nicholas Paliewicz shows how Rio Tinto creates adaptable corporate identities From Ronald Reagan s frontiersman advertisements for the Borax Mine in California to the pioneer Mormon persona at Bingham Canyon Mine in Salt Lake City and the folksy paternalistic perspective toward the San Carlos Apache at the proposed mine at Oak Flat Arizona the company appropriates local history to embed itself as a valued member of the public without having to settle in those ecological communities and bear the costs of extraction This does not occur without resistance however Paliewicz also shows how activists use these same tactics to expose Rio Tinto as an exploitative colonialist polluter In an era of surging demand for dwindling supplies of minerals and metals this book previews what the future of extractivism may look like *Extraction Politics* will appeal to scholars and students of environmental communication and activist politics as well as general readers interested in the climate crisis The Commonwealth, 1928 *The Rotarian*, 1912 **Phoenix: the**
