 Humble,2015-04-10 Have you ever taken your children on a maths walk Are your pupils shape detectives How to be Inventive
 When Teaching Primary Mathematics is a pocket guide to inspire primary teachers to become confident effective imaginative
 teachers who enjoy teaching and whose pupils enjoy learning It is packed with exciting creative unexpected ideas to help

teachers and pupils open their eyes to the mathematical world around them. It gives teachers the tools to develop their own classroom activities and experiences supporting learners as they move fluently between mathematical ideas and develop their ownership of mathematics. Take your pupils on a maths walk, meet dinosaurs, visit art galleries, learn your destiny number, create your first human graph in the playground and learn how to be an algebra magician. Written by Steve Humble, expert teacher, teacher trainer and as Dr Maths advocate for the power and potential of mathematics, this friendly stimulating guide offers a fresh practical approach to teaching mathematics based on the best research and practice and years of experience in the field. Focussing on five key mathematical topics: number, geometry, measurement, statistics and algebra, it is structured in the form of a journey introducing historical facts, ideas for innovative and inventive classroom activities and explorations of the key misconceptions for each topic. How to be Inventive When Teaching Primary Mathematics will challenge you to think about your own beliefs and how they influence your practice and help you understand how best to transform your teaching to stimulate children's emotions to improve knowledge, learning and enjoyment of the beauty of maths.

Learning and Teaching Early Math Douglas H. Clements, Julie Sarama, 2009-04-01. In this important new book for pre and in-service teachers, early math experts Douglas Clements and Julie Sarama show how learning trajectories help teachers become more effective professionals. By opening up new windows to seeing young children and the inherent delight and curiosity behind their mathematical reasoning, learning trajectories ultimately make teaching more joyous. They help teachers understand the varying level of knowledge and thinking of their classes and the individuals within them as key in serving the needs of all children. In straightforward, no-nonsense language, this book summarizes what is known about how children learn mathematics and how to build on what they know to realize more effective teaching practice. It will help teachers understand the learning trajectories of early mathematics and become quintessential professionals.

Shape, Space and Measures Katharine Newall, 2004. Shape, space and measures provides creative play activities for teaching new concepts and skills in mathematics. Fifteen exciting themes explore the different elements of shape, space and measures including the properties of 2D and 3D shapes, tessellation, pattern, capacity, length, weight, time, size and sequence of the day, week and year. Activities use a range of resources to produce simple yet effective displays and artwork. All areas of early years learning are covered using the indoor and outdoor environment.
