Cruz,1999-01-01 Cruz examines the treatment of poverty prostitution war and other social concerns in the cultural and literary discourses of early modern Spain The Life of Lazarillo de Tormes, 2005-07-28 The beginning of the golden age of Spanish literature and the particular socio political circumstances of early 16th century Spain made fertile ground for the

emergence of the picaresque novel an early form of the first person narrative novel relating the adventures of a rogue or lowborn traveler Spanish picaro as he drifts through the Spanish countryside from one social milieu to another in an effort to survive Influenced largely by the medieval tradition of the fabliaux and by the early Italian Renaissance and structured upon a foundation of anecdotes proverbs popular beliefs and folk tales the picaro s discourse becomes a satirical survey of the hypocrisies and corruptions of society The picaresque novel is exemplified by the prototypical and anonymously written Lazarillo de Tormes published in 1554 in which the poor boy Lazaro describes his services under seven successive lay and clerical masters each of whom hides a dubious character beneath a mask of hypocrisy So piercing are its deliberate social criticisms irreverent wit anticlerical attitude and string of mischievous misadventures that Lazarillo was an entry in the 1559 Index of Prohibited Books For the modern reader the choice of characters and the backdrop for Lazarillo de Tormes reveal the heart of Spain s national dilemma after the crucial events of the 1520s This dual language annotated critical edition of Lazarillo de Tormes presents the complete text of the novel in both English and Spanish The translation attempts to capture in modern English not only the meaning of the historical text but also the qualities of its original style **Spanish**

from jestbooks newsbooks and popular romance to the translation of the classics and the pioneering collections of scientific writing and travel writing from diaries tracts on witchcraft and domestic conduct books to rhetorical treatises designed for a courtly audience from little known works such as William Baldwin's *Beware the Cat* probably the first novel in English to *The Bible* *The Book of Common Prayer* and Richard Hooker's eloquent statement of Anglican belief *The Laws of Ecclesiastical Polity* The work not only deals with the range and variety of the substance and types of English prose but also analyses the forms and styles of writing adopted in the early modern period ranging from the Euphuistic nature of prose fiction inaugurated by John Lyly's mannered novel to the aggressive polemic of the Marprelate controversy from the scatological humour of comic writing to the careful modulations of the most significant sermons of the age and from the pithy and concise English essays of Francis Bacon to the ornate and meandering style of John Florio's translation of Montaigne's famous collection Each essay provides an overview as well as comment on key passages and a select guide to further reading
