

# Seizure

A seizure is neurological disorder which may cause brief episodic unconsciousness and convulsions, during which the body shakes uncontrollably due to abnormal electrical activity in the brain. Seizure disorder results in alteration of limb movements, behaviour, awareness, sensations.

In an otherwise healthy brain, neurons for signaling (which involves electrical activity) occur at different times. A seizure episode occurs when many neurons fire all at once. Apart from falls, leading to bodily damages, recurrence of seizures may also impair the intelligence. A neurologist can treat seizure through pharmacological aids or surgical means.

**The Politics of the Chinese Cultural Revolution** Hong Yung Lee,2024-03-29 Hong Yung Lee's account of the Cultural Revolution illuminates its complexities and subtleties to an unprecedented degree. His primary concern is with the behavior of the masses once they were freed from party control and his analysis of voluminous Red Guard publications highlights the different membership characteristics, positions and strategies of both the student Red Guards and the worker Revolutionary Rebels divided internally along a conservative-radical line. Rejecting the ideologically oriented assumption that workers and students of worker or peasant origin comprised the majority of the radical elements, Lee argues that students of bourgeois and other bad origins, workers in small factories sent down, students and demobilized soldiers were the radicals, whereas students from families with pre-1949 revolutionary careers and workers in large-scale and modern enterprises were found in large numbers among the conservatives. He contends that contrary to some social science theories, the radicals were motivated by rational rather than ideological considerations and that they attacked the status quo because it was they who experienced discrimination under the existing political system, whereas the conservatives generally belonged to favored social groups. Lee demonstrates that an adequate history of the Cultural Revolution cannot restrict itself to an analysis of policy difference among the elites but must consider the behavior of the masses and their relationship with the elites. Hong Yung Lee's account of the Cultural Revolution illuminates its complexities and subtleties to an unprecedented degree. His primary concern is with the behavior of the masses once they were freed from party control and his analysis of voluminous Red G

**Translations on Communist China** ,1969      *Translations from Hung-ch'ï (Red Flag)* United States. Joint Publications Research Service,1967-02      *Socialism in Marx's Capital* Paresh Chattopadhyay,2021-02-05 This book explores how Marx envisaged society after capitalism by a close examination of the idea of socialism in the texts of Capital. Going beyond Marx's critique of the Gotha Programme, Paresh Chattopadhyay challenges those who leave Capital aside in discussions of socialism in Marx's works on the grounds that it is uniquely preoccupied with the critical analysis of capitalism. Instead, Chattopadhyay shows how Marx in Capital considered capitalism as a simple transitional society preparing the advent of socialism envisioned as an association of free and equal individuals.

*The Cultural Revolution in the Foreign Ministry of China* Ma Jisen,2020-06-15 The Cultural Revolution which occurred between 1966 and 1976 was a major unforgettable event in modern Chinese history. For more than thirty years, the prevalent view of the Cultural Revolution in the Chinese Foreign Ministry has been that the rebels controlled the Foreign Ministry in August 1967 and caused the many excesses in foreign affairs such as the burning of the British mission in Beijing which isolated China from the rest of the world. The author of this book challenges this point of view. The book gives a factual account of the course of the ten-year Cultural Revolution in the Foreign Ministry based on documents issued during the Cultural Revolution talks by Zhou Enlai and Chen Yi and the manuscripts of the people concerned as well as interviews with Foreign Ministry staff members who

personally took part in the events      *What Reason Promises* Wendy Doniger, Peter Galison, Susan Neiman, 2016-06-20 This collection demonstrates the range of approaches that some of the leading scholars of our day take to basic questions at the intersection of the natural and human worlds The essays focus on three interlocking categories Reason stakes a bigger territory than the enclosed yard of universal rules Nature expands over a far larger region than an eternal category of the natural And history refuses to be confined to claims of an unencumbered truth of how things happened      **The Power of the Presidency** Robert S. Hirschfield, 2017-07-05 The American presidency is the most powerful political office in the world But this impressive statement serves only to raise a whole series of fundamental questions What is the scope of presidential powers and what are its limits Can the president use all the authority of his office or is that authority more formal than effective Does the presidency have sufficient power to meet today's needs or do the problems of the modern age demand a more powerful executive Is there a danger of dictatorship in the growth of political authority or will the presidency remain an office of constitutional democratic leadership This book explores such questions by presenting a wide range of views on presidential power from a variety of sources original supporters and opponents of the office presidents themselves Supreme Court decisions and professional students of the presidency      **The Evolving Presidency** Michael Nelson, 2018-01-12 In Michael Nelson's Sixth Edition of *The Evolving Presidency* 60 documents help to anchor the ever-changing presidency in historical context Students encounter a range of documents from speeches and debates to letters landmark Supreme Court decisions and even tweets that demonstrate how the presidency is shaped through both word and deed      *Armed Struggle and Democracy* Martin Legassick, 2002 The impact of the concept's of armed struggle for the notion's of democracy in Southern Africa is the focus of this paper Originally submitted to a conference on Re Conceptualising Democracy and Liberation in Southern Africa held in Windhoek Namibia during July 2002 it argues from the point of departure of the personal involvement of the author in the issues raised The author was part of a group which criticised the strategy of armed struggle in the ANC With this paper he inspires a debate which can claim relevance for current issues of democracy in South Africa and the Southern African region more generally Given the degree of personal involvement of its author this analysis is contemporary history based on personal insights and provides arguments for a necessary discussion
