Ralph Waldo Emerson 1803-82 is the central figure in nineteenth century American letters and the leader albeit reluctantly of the Transcendental group. A literary mover and shaker Emerson directed his unpopular early radicalism toward social institutions the Church education literary conventions by his death in 1882 however his reputation was already solidifying as a national icon. Somewhere between the iconic sage and the speculative idealist lies an Emerson that students don't often encounter a flesh and blood figure whose writings testify to his continuing exploration of the individual's place in an increasingly conformist and crowded world. In its selections and its apparatus this Broadview edition bridges the gap between Emerson and students by stressing his real world engagements. The collection contains a range of prose and poetry addressing some of Emerson's major concerns nature and the self imagination and the poet religion and social reform as he explores the enduring question How shall I live. Historical appendices include primary materials on Transcendentalism the contemporary debate about the nature of biblical miracles other authors responses to Emerson as a writer and thinker and the development of his complex reputation as a representative American.
