Un-American Activities,1957      Latino Politics Lisa Garc a Bedolla,Christian Hosam,2021-01-22 The third

edition of this popular text provides students with a comprehensive introduction to Latino political engagement in US politics. Focusing on six Latino groups: Mexicans, Puerto Ricans, Cubans, Dominicans, Salvadorans, and Guatemalans, the book explores the migration history of each and examines their political status on arrival in the United States, including their civil rights, employment opportunities, and political incorporation. Finally, the analysis follows each group's history of collective mobilization and political activity, drawing out the varied ways they have engaged in the US political system. Fully revised and updated, the new edition explores the state of Latino politics under both the Obama and Trump Administrations, discussing issues such as migrant detention at the US-Mexico border, the aftermath of Hurricane Maria in Puerto Rico, and the thawing of relations between the United States and Cuba. It encourages students to think critically about what it means to be a racialized minority group within a majoritarian US political system and how that position structures Latinos' ability to achieve their social, economic, and political goals. The Immigration and Ethnic History Newsletter, 2005 **Universal**

**Citizenship** R. Andrés Guzmán, 2019-01-15 Recently many critics have questioned the idea of universal citizenship by pointing to the racial, class, and gendered exclusions on which the notion of universality rests. Rather than jettison the idea of universal citizenship, however, R. Andrés Guzmán builds on these critiques to reaffirm it, especially within the fields of Latina/o and ethnic studies. Beyond conceptualizing citizenship as an outcome of recognition and admittance by the nation-state in a negotiation for the right to have rights, he asserts that insofar as universal citizenship entails a forceful entrance into the political from the latter's foundational exclusions, it emerges at the limits of legality and illegality via a process that exceeds identitarian capture. Drawing on Lacanian psychoanalysis and philosopher Alain Badiou's notion of generic politics, Guzmán advances his argument through close analyses of various literary, cultural, and legal texts that foreground contention over the limits of political belonging. These include the French Revolution, responses to Arizona's H.B. 2281, the 2006 immigrant rights protests in the United States, the writings of Oscar Zeta Acosta, Frantz Fanon's account of Algeria's anticolonial struggle, and more. In each case, Guzmán traces the advent of the citizen as a collective subject made up of anyone who seeks to radically transform the organizational coordinates of the place in which she or he lives. Women in Colonial Latin America, 1526 to 1806, 2018-09-15 This outstanding collection makes available for the first time a remarkable range of primary sources that will enrich courses on women as well as Latin American history more broadly. Within these pages are captivating stories of enslaved African and indigenous women who protest abuse of women who defend themselves from charges of witchcraft, cross-dressing, and infanticide of women who travel throughout the empire or are left behind by the men in their lives, and of women's strategies for making a living in a world of cross-cultural exchanges. Jaffary and Mangan's excellent Introduction and annotations provide context and guide readers to think critically about crucial issues related to the intersections of gender with conquest, religion, work, family, and the law. Sarah Chambers, University of Minnesota The New Americans? Heather Silber, Mohamed, 2017-03-24 In 2006, millions of Latinos mobilized in opposition to H.R. 4437, an immigration

proposal pending before the US Congress In her new book Heather Silber Mohamed suggests that these unprecedented protests marked a turning point for the Latino population a point that is even more salient ten years later as the issue of immigration roils the politics of the 2016 presidential election In *The New Americans* Silber Mohamed explores the complexities of the Latino community particularly as it is united and divided by the increasingly pressing questions of immigration The largest minority group in the United States Latinos are also one of the most diverse *The New Americans* focuses on the three largest national origin groups Mexicans Puerto Ricans and Cubans as well as two rapidly growing subgroups Salvadorans and Dominicans charting similarities and differences defined by country of origin gender tenure in the country and language Taking advantage of a unique natural experiment Silber Mohamed s study also shows how the messages advanced during the 2006 protests led group members to raise immigration rights to the level of traditional concerns about economics and education and think differently about what it means to be American and furthermore to think more distinctly of themselves as American A concise discussion of major developments in US immigration policy over the last fifty years *The New Americans* explores the varied historical experiences of the different Latino national origin groups It also traces the evolving role of Latino social movements as a vehicle for political incorporation over the last century In its in depth analysis of the diversity of the Latino population particularly in response to the politics of immigration the book illuminates questions at the heart of American political culture specifically what does it mean to become American

**Women's Work and Chicano Families** Patricia Zavella, 2018-03-15 At the time *Women s Work and Chicano Families* Cannery Workers of the Santa Clara Valley was published little research had been done on the relationship between the wage labor and household labor of Mexican American women Drawing on revisionist social theories relating to Chicano family structure as well as on feminist theory Patricia Zavella paints a compelling picture of the Chicano women who worked in northern California s fruit and vegetable canneries Her book combines social history shop floor ethnography and in depth interviews to explore the links between Chicano family life and gender inequality in the labor market *Democratic Left* ,1987

**Choosing to Care** Kyle E. Ciani, 2019-10-01 In *Choosing to Care* Kyle E Ciani examines the long history of interactions between parents and social reformers from diverse backgrounds in the development of social welfare programs particularly childcare in San Diego California Ciani explores how a variety of people from destitute parents and tired guardians to benevolent advocates and professional social workers connected over childcare concerns in a city that experienced tremendous demographic changes caused by urbanization immigration and the growth of a local U S military infrastructure from 1850 to 1950 *Choosing to Care* examines four significant areas where San Diego s programs were distinct from and contributed to the national childcare agenda the importance of the transnational U S Mexico border relationship in creating effective childcare programs the development of vocational education to curtail juvenile delinquency the promotion of nursery school education and the advancement of an emergency daycare program during the Great Depression and World War II Ciani shows how children

from families in unstable situations especially children from Native American Asian Mexican descent African American and impoverished Anglo families challenged a social reform system that defined care as both social control and behavioral regulation Choosing to Care incorporates a broader definition of childcare to include efforts by governmental and organizational bodies and persons to maintain and nurture the physical mental and social health and development of minors when parents and guardians cannot do so It offers a more complex understanding of how multiple avenues and resources established social welfare in San Diego and other West Coast cities

Bounded Lives, Bounded Places Kimberly S. Hanger, 1997-03-13 During Louisiana's Spanish colonial period economic political and military conditions combined with local cultural and legal traditions to favor the growth and development of a substantial group of free blacks In Bounded Lives Bounded Places Kimberly S Hanger explores the origin of antebellum New Orleans large influential and propertied free black or libre population one that was unique in the South Hanger examines the issues libres confronted as they individually and collectively contested their ambiguous status in a complexly stratified society Drawing on rare archives in Louisiana and Spain Hanger reconstructs the world of late eighteenth century New Orleans from the perspective of its free black residents and documents the common experiences and enterprises that helped solidify libres sense of group identity Over the course of three and a half decades of Spanish rule free people of African descent in New Orleans made their greatest advances in terms of legal rights and privileges demographic expansion vocational responsibilities and social standing Although not all blacks in Spanish New Orleans yearned for expanded opportunity Hanger shows that those who did were more likely to succeed under Spain's dominion than under the governance of France Great Britain or the United States The advent of U S rule brought restrictions to both manumission and free black activities in New Orleans Nonetheless the colonial libre population became the foundation for the city's prosperous and much acclaimed Creoles of Color during the antebellum era
