Susan Aasman, Anat Ben-David, Niels Brügger, 2025-04-28 The Routledge Companion to Transnational Web Archive Studies explores the untapped potential of web archives for researching transnational digital history and communication. It covers cross border cross collection and cross institutional examination of web archives on a global scale. This comprehensive collaborative work emerging from the WARCnet research network presents an exploration of the ways web archive research can transcend technological and legal challenges to allow for new comparative transnational studies of the web's pasts and of global events. By combining interdisciplinary work and fostering collaboration between web archivists and researchers, the book provides readers with cutting edge approaches to analyzing digital cultural heritage across countries. The book contains concrete examples on how to research national web domains through a transnational perspective, provides case studies with grounded explorations of the COVID 19 crisis as a distinctly transnational event captured by web archives, offers methodological considerations while unpacking techniques and skill sets for conducting transnational web archive research, and critically engages the politics and power dynamics inherent to web archives as institutionalised collections. The Routledge Companion to Transnational Web Archive Studies is an essential read for graduate students and scholars from internet and media studies, cultural studies, history, and digital humanities. It will also appeal to web archiving practitioners including librarians, web curators, and IT developers.

The Road Beneath My Feet Frank Turner, 2016-02-02 The British folk punk singer/songwriter shares an intimate rags to riches memoir of constant touring, artistic expression, and self reinvention. In the fall of 2005, Frank Turner was virtually unheard of. His rock band Millions Dead was finishing up a grueling tour and had agreed that their show on September 23rd would be their last. The entry on the band's schedule for September 24th read simply "Get a job." Cut to July 2012, the London Olympics, where Turner and his backing band The Sleeping Souls are playing the pre show after having headlined sold out arena shows across the UK. *The Road Beneath My Feet* is the unvarnished story of how Turner went from drug fueled house parties and the grimy club scene to international prominence and acclaim. Told through tour reminiscences, it is an intimate account of what it's like to spend your life constantly on the road, sleeping on floors, invariably jetlagged, all for the love of playing live music.
