criticizes many of the schools of psychoanalytic psychotherapy that emerged and prospered during the 20th century In 1912 Sigmund Freud formed a Secret Committee charged with the task of protecting and advancing his discoveries In this book Barratt argues both that this was a major mistake making the discipline more like a religious organization than a science and that this continues to infuse psychoanalytic institutes today What is Psychoanalysis takes each of the four fundamental concepts that Freud himself said were the cornerstones of his science of healing and offers a fresh and detailed re examination of their contemporary importance Barratt s analysis demonstrates how the profound work as well as the playfulness of psychoanalysis provides us with a critique of the ideologies that support oppression and exploitation on the social level It will be of interest to advanced students of clinical psychology or philosophy as well as psychoanalysts and psychotherapists

Vieira, 2012-12-17 *Interiors and Narrative* shows how crucial interiors are for our understanding of the nature of narrative. A growing cultural fascination with interior dwelling so prevalent in the late nineteenth century parallels an intensification of the rhetorical function interior architecture plays in the development of fiction. The existential dimension of dwelling becomes so intimately tied to the novelistic project that fiction surfaces as a way of inhabiting the world. This study illustrates this through a comparative reading of three realist masterpieces of the Luso-Hispanic nineteenth century: Machado de Assis's *Quincas Borba* (1891), Eça de Queirós's *The Maias* (1888) and Leopoldo Alas's *La Regenta* (1884-1885). The first full-length study to juxtapose the renowned writers, *Interiors and Narrative* analyzes the authors' spatial poetics while offering new readings of their work. The book explores the important links between interiors and narrative by explaining how rooms, furnishings, and homes function as metaphors for the writing of the narrative, reflecting on the complex relation between private dwellings and human interiority and arguing that the interior design of rooms becomes a language that gives furnishings and decorative objects a narrative life of their own. The story of homes and furnishings in these narratives creates a semiotic language that both readers and characters rely on in order to make sense of fiction and reality.
