## **Lyric Impulse:**

The Lyric Impulse Cecil Day Lewis, 1965 No detailed description available for The Lyric Impulse      **Living in Time** Albert Gelpi, 1998 Albert Gelpi explores in three expansive sections the major periods of the poet's development beginning with the emergence of Day Lewis in the thirties as the most radical of the Oxford poets An artist who sought through poetry a way of living in time without traditional religious assurances Day Lewis went further than his friends in seeking to forge a revolutionary poetry out of his commitment to Marxism When Stalinism led to his resignation from the Communist Party Day Lewis in the forties went on to shape a rich fiercely perceptive poetry out of the convergence of the wartime crisis with the explosive events of his own inner life intensified by the erotics of a decade long affair      *Queer Lyrics* J. Vincent, 2016-09-23 *Queer Lyrics* fills a gap in queer studies the lyric as poetic genre has never been directly addressed by queer theory Vincent uses formal concerns difficulty and closure to discuss innovations specific to queer American poets He traces a genealogy based on these queer techniques from Whitman through Crane and Moore to Ashbery and Spicer *Queer Lyrics* considers the place of form in queer theory while opening new vistas on the poetry of these seminal figures      *Shakespearean Metadrama* James L. Calderwood, 1971-03-10 *Shakespearean Metadrama* was first published in 1971 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions In a new approach to Shakespeare criticism the author interprets five of Shakespeare's early plays as metadramas dramas that are not only about the various moral social political and other thematic issues with which critics have so long been concerned but also about the plays themselves Professor Calderwood demonstrates that in these five plays Shakespeare writes about his dramatic art its nature its media of language and theater its generic forms and conventions its relationship to truth and the social order In an introductory chapter the author explains his theory of metadrama placing it in a general critical context as well as in the specific framework of Shakespeare's plays He distinguishes between the meaning of metadrama and the similar terms metaplay and metatheatrical He points out that the dominant metadramatic aspect of the five plays under study is the interplay of language and action in drama A separate chapter is devoted to the interpretation of each of the plays Professor Calderwood is aware that in presenting his critical theory and interpretations he may be met with skepticism by other scholars and critics He anticipates such a situation in the introduction To the critic trying on introductory styles for a book on Shakespearean metadrama he writes the plight of Falstaff at the Boar's Head Tavern comes all too readily to mind What trick he must ask himself what device what starting hole canst thou now find out to hide thee from this open and apparent shame      *Lyric* Scott Brewster, 2009-06-02 *Lyric* traces the history of the term from its classical origins through the early modern Romantic and Victorian periods and up to the twentieth century and demonstrates the influence of various definitions of lyric on poetic practice literature music and other popular cultural forms      **The Lyric Theory Reader** Virginia Walker Jackson, Yopie Prins, 2014-02 Reading lyric poetry over

Leibowitz,1994 A selection of the essays on contemporary poetry from the best poetics journal in the field *The Authentic Dissertation* Donald Trent Jacobs,2009-05-07 The Authentic Dissertation is a road map for students who want to make their dissertation more than a series of hoop jumping machinations that cause them to lose the vitality and meaningfulness of their research Students and tutors are presented with practical guidance for the kind of alternative dissertations that many educators believe are needed to move Doctoral and Master s level work beyond the limitations that currently stifle authentic contributions for a better world Drawing on his Cherokee Creek ancestry and the Raramuri shamans of Mexico the author explores how research can regain its humanist core and find its true place in the natural order once more Four Arrows provides a degree of credibility that will help graduate students legitimize their ideas in the eyes of more conservative university committees This inspiring book will also help academics who sincerely want to see these alternative forms but are concerned about the rigor of alternative dissertation research and presentation The featured dissertation stories tap into more diverse perspectives more authentic experience and reflection and more creative abilities They are in essence spiritual undertakings that Honour the centrality of the researcher s voice experience creativity and authority Focus more on important questions than on research methodologies per se Reveal virtues generosity patience courage respect humility fortitude etc Regard the people s version of reality The goal of this book is not to replace the historical values of academic research in the western tradition but to challenge some of these values and offer alternative ideas that stem from different sometimes opposing values **Seventeenth Century Lyrics** George Saintsbury,1892 *English Meditative Lyrics* Theodore Whitefield Hunt,1899 **Carmina** Horace,2012-04-26 This edition provides current information and guidance on fundamental matters of language usage poetic structure and literary interpretation **Poetry** Amorak Huey,W. Catullus in Twentieth-Century Music Stephanie Oade,2024-08-24 One of the most famous voices to have survived from the Roman world Catullus's poetry is still amongst the most popular and widely read But what is it that makes this 2 000 year old voice so relevant so personal and so endlessly fascinating Reinvigorating discussions around the nature of Catullus's lyricism Catullus in Twentieth Century Music takes a completely new approach to Catullus and ideas of lyric It centres around four musical works from the twentieth century each one capturing the essence of Catullus in musical retellings and showcasing a very personal response to the original text Considering how and why these musical composers used Catullus's poetry as their stimulus allows us to uncover new ideas about Catullus's poetry By considering the very process of reception Stephanie Oade takes a broader view of lyric identifying traits and characteristics that are common to both music and poetry thus transcending the boundaries of individual art forms in order to consider the genre in larger interdisciplinary terms It offers insights into compositional processes and challenges audiences to think about ways of engaging with music and poetry More than anything it shows how ancient voices continue to resound in modernity and offer everlasting expression for our own experiences and emotions
